CONCERNING HAITI**

**Charges Made by Representatives of the N. A. A. C. P. Are Bringing Results**

(By Associated Negro Press)  
NEW YORK, Oct. 28.—The following statement on Haiti has been issued by the N. A. A. C. P.:

"With the appointment of a naval board of investigation, consisting of Rear Admiral Henry T. Mayo, J. H. Oliver, U. S. N., and Brigadier General J. H. Pendleton, to investigate the invasion of Haiti, the charges made by the acting secretary of the association, Mr. James Weldon Johnson, and by Mr. Herbert J. Seligmann, both writing in the Nation, have begun to achieve results.

"The association is gratified to announce that its charge that more than 3,000 Haitians were slaughtered by U. S. marines has been verified by the report of Brigadier General Barnett, former commandant of the marine corps who not only placed the number of these killed at about 3,250, but referred in his report to the 'indiscriminate killings' which had taken place. When the national association originally made this charge, the secretary of the navy belittled it.

"After the publication of the Barnett report we wired Senator Harding requesting him to reiterate the charges with all the strength at his command and calling to his attention the substantiation of our charges in the Barnett report.

"Senator Harding immediately called upon Secretary Daniels for publication of all information in possession of the navy department relating to its administration of the Haitian republic.

"On the following day Secretary Daniels announced the appointment of the naval board of inquiry."
