## WORD ABOUT THE PRINTING SITUATION

It is very necessary to inform our readers that owing to disturbed conditions in the printing trade, some difficulty may be experienced in getting out The Monitor on time. Before things are adjusted it may be necessary to curtail the amount of news published each week. Special articles may have to be held over. There is to be a general strike May 1st. Our own printers, the Waters-Barnhart Printing Company, have been the first large firm in the city to take drastic action in anticipation of this strike. The cost of publication is now almost prohibitive and the demand for an increase in wage spells disaster to publications if granted. It is believed that within the next sixty days normalcy with justice to all will be secured.
