Let's Gather It In.  
It is computed that the earth's atmosphere contains at least 4,000,000,000,000 tons of nitrogen directly accessible. The quantity in the air over one square kilometer of land is sufficient to enrich the earth of the whole world for twenty years at the present rate of consumption.

Made It In for Lawyers.  
Distrust and knowledge of his own profession, caused an Australian lawyer to include a clause in his will, stating that if any of his beneficiaries, for any reason whatsoever, contested his will, that person's share was to be paid to a certain charity, and no lawyers were to make any money out of his will.

**BAN PUT ON "DOLLS"**

Chicago Business Men Revolt Against Gay Clothing.

Department Store and Railway Office Lead the Way and Others Follow.

Chicago.—"The dolls must go." This is the feeling in business circles and marks a revolt against the extreme dressing and artificial make-up of many office and sales girls.

One big department store has banned all dresses except black, gray and brown. No knee lengths. The girls in the Chicago, Burlington & Quincy offices read a notice putting the kibosh on transparent waists, stockings and paint. Even gum has been banished.

"More and more employers are specifying how a girl shall dress," said L. R. Tread, manager of the American Railway bureau, which furnishes office help to employers. "A great many are reticent when it comes to stating just how a girl should dress, as they consider it none of their business, so when they call me over the telephone they simply specify 'quietly dressed' young women. When I talk to them in their private offices they tell me how undesirable the flashily dressed girl is."

"They notice a lot of things, too. There is a special objection right now to the light gray silk hose which the girls are wearing."

Miss Josephine Bessems, manager of the Women's Occupational bureau, gave instances of many girls who had failed to get positions because of their flashy clothes.

"For a railroad office where the girls do not meet the public a ging-ham dress is best," she declared.

David Hallinan, manager of the La Salle Employment bureau, has discovered that the girls wear modest dresses when they come into his office looking for a job and then as soon as they are hired they put on flashy attire.

"There are some slaves to style who never will give up their extreme dress, though," he ventured.

**LADY SURMA OF ASSYRIA**

"In the golden age of Assyria she did not 'come down like a wolf on the fold,' for a woman is to head the government of the new Assyrian nation. Lady Surma is expected to be the first woman president in the world—as she has been the first woman ambassador—so soon as the national parliament of the Assyrians is organized. Great Britain recently assigned a little territory comprising 80,000 square miles in the mountains of Kurdistan to the Assyrian people. Lady Surma obtained this concession from the British government, having acted as ambassador at London. She is an accomplished linguist and has been thoroughly educated under the guidance of British tutors. Her brother, Mar Chinon, was patriarch of the Assyrians. He was murdered.

Senator Capper of Kansas, published of the Topeka Capital, was selected to make the presentation speech, and another member of the committee of seventy-five which arranged the presentation was James M. Cox, publisher of the Dayton News and Mr. Harding's Democratic opponent for the Presidency last year.

In accepting the gift the President said: "It goes without saying that I am delighted to have this token of esteem of men of the Fourth Estate. It touches me rather deeply because I have a very great pride in the part I have had in the newspaper profession.

"If I could have my life to live over with all the experiences that have come to me I would not change my profession nor would I alter the policy with which I have somewhat characterized the newspaper of which I am the publisher."

**WHAT THE PEOPLE THINK.**  
Short timely letters on current topics are invited. The letters should be signed. If a nom de plume is used the writer's name and address must be furnished for the Editor's information. Be brief. Write plainly on one side of the paper. Ordinarily letters should be limited to 200 words. Let us know what you are thinking about.

**COMMENTS MONITOR'S CAMPAIGN FOR 24th ST. LIGHTING**

The campaign which The Monitor has been waging to secure better illumination for N. 24th St., deserves the special commendation of all business and professional men of this section of the city.

While The Monitor has taken the initiative, it should not be alone in the fight, but rather The Monitor seek the hearty cooperation of business men and residents on N. 24th St. Not, however, by silent approbation of what The Monitor is doing, but by joining hands with The Monitor in a sane but vigorous agitation.

The present administration is conscious of the fact that N. 24th St. is rapidly becoming one of Omaha's principal thoroughfares. This alone should awaken in our local government a spirit of civic pride for this section of Omaha. Let us then as business men ask for a system of lighting that will be commensurate with the growing importance of N. 24th St.

Dr. H. Wiggins,  
1518 N. 24th St.  
Omaha, Neb., July 21, 1921.

**SHOULD GET CLOSER TO GOD**

Los Angeles, Cal., July 20.

I have read with a great deal of interest your advice to our group to practice self-restraint and not resort to retaliation. I hope that since you have struck the keynote other papers will give a great deal of publicity to your ideas.

With mobs running rampant among blacks and whites in various sections of the United States, it would seem that it is only a question of time until we will be bordering on a state of general anarchy. I think members of our group should realize the necessity of getting closer to God for it is He alone who will help us to win our battles against race prejudice and oppression. Sincerely yours,  
Raymond J. Knox.

**EDITORS TAKE CHAIR**

TO PRESIDENT HARDING

(By the Associated Negro Press)  
Washington, D. C., July 28.—A high backed editorial chair presented to President Harding by more than 600 fellow newspaper editors, last Tuesday, was added to the furnishings of the Presidential study in the White House. It was made from wood from the famous old schooner Revenge, captured from the British on Lake Champlain during the Revolutionary war.

Senator Capper of Kansas, published of the Topeka Capital, was selected to make the presentation speech, and another member of the committee of seventy-five which arranged the presentation was James M. Cox, publisher of the Dayton News and Mr. Harding's Democratic opponent for the Presidency last year.

In accepting the gift the President said: "It goes without saying that I am delighted to have this token of esteem of men of the Fourth Estate. It touches me rather deeply because I have a very great pride in the part I have had in the newspaper profession.

"If I could have my life to live over with all the experiences that have come to me I would not change my profession nor would I alter the policy with which I have somewhat characterized the newspaper of which I am the publisher."
