Belgium Exploits The Congo

Belgium as a nation has but recently assumed responsibility for her col-onies, and has taken some steps to lift them from the worst abuses of the autocratic regime; but she has not yet instituted any adequate State system of education, she has not confirmed to the people the possession of their land and labor, and she shows no disposition to allow the natives any voice in their own government or to provide for their political future. Her colonial policy is still mainly dominated by the banks and great corporations who are deter mined to exploit Congo rather than civilize it.

ARMY OF 50,000 LOST IN MONTH

General Lu's Forces Wiped Out by Mutiny, Surrender and Battle Losses.

CANTONESE WIN THE "WAR"

Righteousness of Their Cause Gives as Cause for Victory in Battle Between Two Chinese Provinces
—Gambling Licensed.

Canton .-- The "war" between Kwang tung and Kwangsi has seemingly ter minated with the fall of Nanking of July 22-just a month after the beginning of hostilities-when Lu Yungting, the foremost of southern militar-ists, made his official exit from the province which he had dominated for

General Lu was at one time inspector general of the two Kwang provinces and a constitutionalist leader when constitutionalism was popular in the

50,000 Army Wiped Out.

Prior to the opening of recent hea-tilities General Lu had an army of nearly 50,000. He lost it all within a month by mutiny, desertion, surren-der and loss in battle.

The Cantonese have won. They attribute their victory to the righteousness of their cause, to disaffection among the Kwangsi forces toward their leader and to better organization and discipline in the Canton army, to assurances given the people of Kwangsi of noninterference with their ambition for self-government, and to Dr. Sun Yat sen's political doctrine of representative government

The military government.

The military governors of Kwantung profince have looked upon that province as conquered territory since the one-time monarchist governor. Lung Chi-Kuang, was ejected, notwithstand-ing the Cantonese played no small part

in ousting Lung.

Gambling is Licensed.

Under the administration of the La

Yung-ting faction licensed gambling was revived under the pretext of rais ing revenue for military purposes, bur-densome taxes were imposed to the detriment of trade and industry, and millions of dollars of worthless paper

noney issued without security.

The Kwangsi people themselves played an important part in hell the Cantonese to drive the militar out of the province. Besides orga-ing revolutionary forces to supplem the Canton armies, they have carried their fellow clansmen of the good intentions of the Cantonese

Cantonese leaders now declare that they have no ambition to dominate Kwangsi. Gen. Chen Chung-ming has repeatedly refused to allow m authorities occupying Kwangsi towns and cities to establish political organs or offices which will be misinterpre or misunderstood by those who are an-

LOAFERS PROFIT IN ENGLAND

Surveys Show "Practicall" Socialism Pays Jobless More Than Workers Get.

London.-Surveys here show that "practical" socialism is benefiting the inemployed to such an extent that it is actually more profitable to be with-out work than to have a job. Islington, Cumberwell and Bedmond-sey boroughs of London have in effect

a law providing \$18 a week "allow-ance" to the unemployed man having a so-called "standard" family of a wife and six children. The average wage received by the Londoner who works is \$15. Thus it would benefit the worker by just \$3 to quit his job and join the ranks of the unemployed. Shoreditch and Hackney boroughs

have fixed "allowances" at \$22.50 a week. The board of guardians of Woolwich borough is considering an "allowance" of \$25 a week. Socialist leaders who have gained control of the boards of guardians and who are responsible for agitation resulting is the passage of these "relief" measures predict that similar ordinances will be soon put into effect by every borough of workingmen in the city.

Sweden's Population. Stockholm.—Sweden's total popula-tion at the end of 1920 amounted to more than 5,904,000 according to the Central Statistical bureau's prelimin-ary figures just published. This is an increase during 1920 of more than 57,000 and a record increase since

\$175,000 for Finder of Petroleum in Australia

Washington.--The Australian government has offered a re-ward of \$125,000 and the gov-ernment of New South Wales has offered \$50,000 to any one who discovers petroleum in paying quantities. Hunareds of thousands of pounds sterils have been expended by the go have been expended by the government and by private concerns in an endeavor to find oil is Australia, but so far the discov eries have been practically n

Beware of Raw M

Two hundred and fifty thousand children died in America last year from preventable causes. Many of these children were victims of the ignorance of their mothers as to

Raw Milk is the cause of thousands of deaths every year, because it oft-times contains substances which lead to stomach and intestinal trouble in babies. In many of the largest cities of the country, such as Detroit, Milwaukee, Cincinnati and Chicago, the sale of even one drop of Raw Milk is

Nathan Straus, the great philanthropist of New York, who spends thousands of dollars for MILK for poor children found that out of seventy-one children who were given Raw Milk during the first summer of his activities, sixty (60) of them were sick at some time during the summer. He changed to PASTEURIZED MILK and out of fifty-one children, forty were well all summer. Experience showed Mr. Straus

No reputable physician will prescribe raw milk, even from tuberculin tested cows as it may carry the germs of Scarlet Fever, Dyphtheria, Typhoid Fever, the "Flu" and Septic sore throat. The tuberculin test is a preventative against tuberculosis alone and there is no known safe-guard against other diseases save through Pasteurization. Dr. C. E. North of New York City, one of the greatest living authorities on milk, pasteurizes the milk he gives his children from his own tested Jersey cow; while Dr. E. V. McCullum of John Hopkin's University, Baltimore, Md., who has studied milk constantly for twenty years, is authority for the statement that Pasteurization does not destroy Vitamines or Life Giving Elements.

Every mother should see to it that her family receives SAFE, PASTEURIZED MILK. She should inspect the DAIRY from which the MILK comes to see that every pro-

Every mother in Omaha is cordially invited to inspect the Alamito Dairy, Leavenworth and Twenty-sixth Street, any day in October, Sunday's excepted, at 10:30, 2:30 or 4 o'clock to hear Miss Stearns on "The World's Greatest Need and Sources of Power." Dairy refreshments served and free cartons of cottage cheese distributed. Come and bring your

By Miss Lutie E. Stearns

proper feeding.

prohibited, owing to its many dangers.

the harm of RAW MILK, and this prompted him to write a letter to the Mayor of every city in the United States asking that an ordinance be passed requiring that all MILK, unless certified, shuld be PASTEURIZED.
