CALL US for your express and hauling.—Hill Bros. Webster 1341.

OMAHA'S COLORED CITIZENRY AND ITS MANY ACTIVITIES

(Continued from Page 1.)

have not made marked progress. The grocery stores are greatly handicapped. They have to pay from ten to fifteen per cent more than their white competitors, even when buying for cash from wholesalers. It may be that this is because these grocers buy in small quantities. However, they are thus handicapped and their success is made difficult, if not impossible, in the long run, in competition with grocers who can sell at a profit at a smaller figure than they can buy.

The real estate men are making progress as they gain knowledge and experience in the business, and a few of them are forging ahead in their work. Expressmen are numerous. One of them told this story a few days ago: Some years ago a school teacher told the class of which I was a member, if you wish to make money don't become a doctor or a lawyer, but buy yourself a dray. A great many of my group must have heard somebody say the same thing, other-

wise we could not have so many in this business." Our tailoring and cleaning establishments are succeeding.

The undertakers are "making good." Soon or late everybody has to give them his patronage. The druggists are doing an excellent business and they are sufficiently numerous to succeed and not more so. Our new and second hand furniture stores are a success. In amusement places the group excels numerically. It is a fact, also, that there is more money invested in these establishments than in any other business in which this group is engaged. Out of this, it is hoped, business experience may be gained to the end that it may be applied later in other lines of business, as well as this. The job printing business is new, but promising.

The largest undertaking so far attempted is a chemical manufacturing business, which can be made a very great success, if the group will support it. It is engaged in manufacturing proprietary remedies and tooth paste.

The total capital invested in these businesses is much larger than the casual reader would guess at first, running up into hundreds of thousands of dollars.

If it were possible to concentrate the economic power the group possesses as a basis of group development, progress would be very rapid. This will be done just as soon as we learn the value of doing it, and not sooner.

It is quite easy for someone who has had years of business experience to say what the other man should do, but it is quite another thing, handicapped as this group is, to succeed in business in open competition with the advantaged class. When the group overcomes the handicaps under which it labors now, it will be a better asset than it now is to the community and to the country.

This group will have its stores, small at first, but larger as the years go by; its loan associations and its banks, and other businesses, here in Omaha. These things are not so far away as one may now suppose them to be. But the thing must be fought out largely by the group itself. No ultimate victory can be achieved in business or otherwise in any other way.

SULTOX FOR COLDS AND PNEUMONIA

There is a great deal of pneumonia and many deaths from pneumonia. A very simple remedy that gives speedy relief is Sultox, manufactured by the Kaffir Chemical Laboratories. Hot pack treatment with Sultox and internal doses of Sultox is a speedy and effective remedy for colds, congestion of the lungs and similar maladies so prevalent at this time. Ask your druggist for Sultox, and if he cannot supply, phone Douglas 7074 or call at or write Kaffir Chemical Laboratories, 817 North Sixteenth street, Omaha, Neb. Large bottle, \$1.00. No household should be without it.—Adv.
