## ARTICLE XIV. CONSTITUTION OF THE UNITED STATES.

### Citizenship Rights Not to Be Abridged.

1. All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and of the State wherein they reside. No state shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any state deprive any person of life, liberty, or property without due process of law, nor deny to any person within its jurisdiction the equal protection of the laws.

### IN FAIRNESS TO SHERIFF CLARK

ALL who know The Monitor know that we believe in fair play, and a square deal for everybody. We believe in a fair, manly, open and aboveboard fight for men, convictions and principles. We dislike misrepresentation and will never knowingly be guilty of this offense ourselves even against our opponents, or permit it to be done by others if we can prevent it. For this reason we desire to correct statements that are being given currency and credence by many against Mike Clark, republican candidate for sheriff, concerning his part in the disgraceful Court House riot and barbarous lynching of Sept. 28, 1919, which placed an indelible stain upon this city. We are frank to say that we have a deep seated resentment against the vicious element of this city who were primarily responsible for that riot. We believe that there are men today active in political affairs of the city, who willfully, maliciously and designedly planned that riot. So bitter is our feeling and resentment that we find it difficult to even vote for perhaps good men in whose election some of this element seem to be deeply interested. We cannot conscientiously give them editorial support. We do not, however, believe it is fair to allow anyone to rest under a false charge. Some false charges are being made against Mr. Clark. One of them is that Mr. Clark, being warned that a lynching was planned left the city on Saturday so as to be out of the way. This is maliciously false. Mr. Clark left Omaha the Tuesday morning before on a hunting trip, two or three days before the alleged crime of Brown was committed and did not return to Omaha until that fateful Sunday afternoon when the mob was surrounding the jail. So the story of his warning and flight is false. The statement that he did not try to protect the prisoners in his charge is equally untrue. Fire was what did the work. So much for the riot. Another false statement given currency is to the effect that Sheriff Clark refused to appoint a colored man as deputy. Sergeant Bailey did not want a deputyship, but wanted the position on the elevator. This Mr. Clark gave him and underwent a law suit, which was forced on him in a controversy as to who had control of the elevator, to keep Sergeant Bailey there and while the case was in court Sheriff Clark paid Sergeant Bailey's salary out of his own pocket. He gave the man the job he wanted and kept him there despite opposition. In fairness to Sheriff Clark these facts should be known. Our citizens have a perfect right to oppose him or any other candidate on whatever grounds they please, but opposition should not be based upon misrepresentation. The statements to which we have here called attention are undoubtedly misrepresentation, and there fore are not just or fair.

### FIREARMS

THERE ought to be some way by which the general and promiscuous ownership and carrying of firearms should be prevented. Tragedies, here and elsewhere, are becoming all too frequent and they are directly traceable to the readiness with which guns, pistols and revolvers can be obtained. If one has a gun or can easily get one there is a temptation to use it in the excitement of anger. Firearms are too easily obtainable. It is a serious reflection upon our vaunted civilization that their general ownership for personal protection against violence seems imperative.

### INTELLIGENT VOTERS

VOTERS should strive to be intelligent. They should inform themselves, as well as they can, upon the character and ability of the candidates seeking their suffrage and vote according to their convictions. They should also know how to mark their ballot so that they will not lose their vote.

interests of all the people. Has this been done? Mr. Colored Man, recapitulate for yourself the many persecutions thrust upon our people and then determine whether or not you will vote to demand a change.

Many good men are running for election and re-election but it does not seem quite fair to give anyone a perpetual lease on county offices and as the old saying is a true one, A New Broom Sweeps Clean, it is quite apropos in choosing your candidates for election a few days hence.

In another column of this paper appears the advertisement of Jas. A. Craddock and his associates, W. J. Curran and Adam Sloup, seeking election as County Commissioners, who stand upon a platform of assurance to the people that they will stop the extravagance, lower the taxes and put a real man in every job. Abraham Lincoln once said, "He who makes two blades of grass grow, where one grew before, is a public benefactor." These candidates say, "We will make one real man perform the service where two political henchmen performed it before, therefore, we will modernize Father Abraham's truthful saying." Mr. Craddock is an architect of standing, he is qualified in every way to see that the people get a "square deal" in all county construction. Mr. Curran is an expert accountant, for twelve years chief auditor of the Westers Weighing Association, and its manager now. Mr. Sloup is a successful business man of many years. A triumvirate of men who, by all means, should be elected as a whole to represent the "stockholders" of Douglas County, who pay the taxes.

Speaking in plain words, it becomes necessary to elect all three of these candidates if our people want to take a hand in this reform movement.—Paid Political Publicity.
