POST COMMANDERS WILL NOT STAND FOR COLOR DISCRIMINATION

As an example of the way the American Legion has stood behind its members and indicating how helpful the organization may be in promoting true Americanism, it is alleged that the clerk at the Millard hotel declined to register a colored Legionnaire, a member of the South Dakota delegation. The post commander insisted that he be registered and it was done. It is also said that a similar incident occurred at the Carleton hotel with the North Dakota delegation which had two colored delegates. In each case the post stood firm against discrimination.

LYNCHING THE INSANE

By William Pickens.

(The Associated Negro Press.)

In the blessed state of Georgia even the Negro patients in the insane asylum are not safe from the insane mob roaming outside. A violently insane Negro beat one of the white nurses with a club and she died. Some of the nurses or other employees communicated with the incarcerated savages on the outside, and a mob of fifty of them entered the asylum and took this insane human out and brutally lynched him.

If one lynching can be more beastly than another, this is the most beastly. In all actually civilized communities such an act of an absolutely insane human is considered an accident, like any other regrettable accident of nature, but not a crime to be punished even by the law. The fiends who lynched this unfortunate creature did not even have the humanity to remove him from life as mercifully as possible, but they tied him and brutally beat him to death with clubs. These demons were consciously treating this insane man in the same way in which he had unconsciously treated his unfortunate victim. Only he had not been such a coward, for he had not come fifty strong and he had not sanely attacked the insane.

And yet there are supposedly sane men in the great congress of the United States who do not understand that we need a federal law to check this beastly thing. Who is it that is insane? That Negro? That mob? Or that type of congressman? Some sensible questions need to be asked. First, what does not the state of Georgia have Negro nurses and attendants in charge of Negro insane patients? No, they give these white men and women the chance to draw the salaries on the misfortune of this otherwise segregated people. They exploit even the insane for their social economic advantage. If that nurse had been Colored, civilization would have been saved from disgrace. For the same reason every southern state should have Negro policemen in Negro sections, so that when some officer is killed by a Colored criminal the consequence would be the procedure of law against crime and not an attack by mobs against civilization and human decency.

And yet these same salary-hungry hypocrites did their best to force us to accept white nurses and doctors for sick and disabled Negro soldiers at Tuskegee, so that any accident or any lie any time could have aroused these furies of hell. We knew then as we know now that those who tried to force their "services" on the Negro had no interest in his welfare but in their own gain.

And yet these Georgia fiends were following somewhat the example of our courts of law. If the reader will reflect, he will recall that almost every day, when some white person has done something violent or anti-social, his sanity is inquired into by the courts and he is often adjudged insane and irresponsible. But such an inquiry is almost never made in the case of Negro prisoners, especially when they have attacked or injured white people. The Negro who does wrong is always sane. All such insanity belongs to white people. If the truth could get a hearing, most of the very few Negroes who ever do actually commit rape or murder against white people in the south would be judged by a civilized court to be insane.

DISTINGUISHED DELEGATES FROM DISTRICT OF COLUMBIA

The District of Columbia had two colored delegates to the American Legion convention in the persons of Major West H. Hamilton and Dr. Thomas E. Jones and two delegates to the Legion Auxiliary, Mesdames Katie C. Goodlow and Francis P. Wedge. Major West A. Hamilton and Dr. Jones were commissioned as captains and served with the 372nd Infantry, which was brigaded with the French and saw active service. Dr. Jones was awarded a distinguished service medal for bravery in action. He is first assistant surgeon at Freedman's hospital, Washington, D. C. They are members of the First Separate Battalion of the District of Columbia, N. G., Major Hamilton, commander.
