## THE PULLMAN COMPANY

### NOTICE

TO ALL PORTERS AND MAIDS:

In response to petitions recently received from employees of the classes above named, requesting that modifications be made in the existing agreement covering working conditions, which agreement was negotiated with your duly authorized representatives March 27th, 1924, The Pullman Company will hold a conference with the duly authorized representatives of such employees for the purpose of negotiating relative to such modifications.

Arrangements will therefore be made so that such employees in each District and Agency may hold Nominating Elections on or before Tuesday, December 15th, 1925, for the purpose of nominating by ballot one representative in each District and Agency who will be acceptable to the employees as a representative, thus placing in nomination approximately 72 candidates for election as representatives to the conference. The representative nominated in each District or Agency should receive a majority vote of all such employees in such District or Agency.

A statement of the result of the Nominating Election in each District and Agency, showing the number of votes cast for each nominee and signed by the Secretary of the Employees' Election Committee, should be promptly forwarded by the Secretary, who will retain a copy, to the Supervisor of Industrial Relations in Chicago, who will have the names of these 72 candidates printed on ballots to be used in the Final Election, for the purpose of electing from the list of candidates a committee consisting of at least 24 representatives authorized to confer with representatives of the Management, as hereinafter stated. At least 3 representatives should be elected from each Operating Zone, in order that all of the 8 Operating Zones may be represented in the conference. One of these ballots will be furnished to each employee of the classes named.

The Final Election should be held not later than Tuesday, January 12th, 1926. As soon as the Election is completed the Secretary of the Employees' Election Committee in each District and Agency should notify the Supervisor of Industrial Relations the result of such Election, giving the number of votes cast for each candidate, the Secretary to retain a copy of the statement, and the Supervisor of Industrial Relations, in conjunction with the Employees' Election Committees of the classes named in Chicago, will tabulate such returns, and will promptly notify the Secretary of the Election Committee in each District and Agency the names of the representatives elected. The Management will then hold a joint conference with such elected representatives for the purpose stated.

Each of the 24 representatives to be elected should receive a majority vote of all employees of the classes named in the entire service and be authorized to confer with representatives of the Management and decide in conference and agree upon rules governing working conditions for such employees.

Chicago, November 24th, 1925.

F. L. SIMMONS,

Supervisor of Industrial Relations.
