AN IMPORTANT WORD TO SUBSCRIBERS.

The postal regulations require that for newspapers to be sent through the mails subscriptions must be paid in advance. A reasonable time, thirty days, is allowed for renewals. At the expiration of this period, where subscriptions are not renewed, the paper must be stopped. If this is not done, postal privileges are denied the publication. Those, therefore, who desire to continue receiving The Monitor must see to it that their subscriptions are paid, as the law requires, in advance. Statements are being sent to all those who owe, or our collector will call—and unless your subscription is paid we will be compelled to cut off your paper which, of course, we do not want to do.

We, as publishers, MUST comply with the law or pay the penalty.

FEBRUARY BIRTH MONTH OF EMINENT AMERICANS

February is the birth month of many eminent Americans. Among white Americans such names as George Washington, Abraham Lincoln, and Henry W. Longfellow, to mention only a few, come to mind. But, as if to show that there is no Nordic monopoly of brains, greatness or eminence, these names can be matched by those of Frederick Douglass, Absalom Jones and Richard Allen.

All of these in their day and generation wrought noble deeds not only for their particular race, but for their country, for God and for humanity, and belong to history.

THROUGH CHINESE EYES

The experience of a Chinese woman, apparently one of culture and refinement, in Mississippi recently, furnishes food for thought. The perplexity which her presence as a railway passenger in the enlightened Southland caused is significantly suggestive. Her sarcastic words, "Your Christian country is very funny," speak volumes. "Too bad you have no yellow cars," is not without point.

SHOW RIGHT SPIRIT

The boys and girls of the eighth grade graduating class of the Fernwood school, Portland, who refused to stand for the exclusion of a member of their class from a skating rink because of his color, showed the right spirit. The hearty approval of their action by the Superintendent of Education shows, too, that he is the right man on the job. Those Portland boys and girls in unselfishly foregoing their own pleasure because of an act of injustice to one of their classmates augur well for the type of future citizenship of that community. It meant sacrifice for those children to deny themselves the pleasure of their skating party, but the satisfaction that comes from doing one's duty in any crisis and the resultant strength of character will be ample compensation for the sacrifice made for right.

because the ultimate goal of religion is unity, just as truly as is unity the end for which science and art are striving.—Dr. S. Cadman.
