Blair Odd Fellow Lodge Boasts Four 50-Year Veteran Members

Total of Their Years in Order Is 217—Oldest Is J. W. Newell, 87, Pioneer of 1861.

When D. Hartson, 78, 1320 1-2 Capitol avenue, Omaha, was presented with a 50 years' veteran jewel of the Independent Order of Odd Fellows, recently, as a reward for 50 years of continuous service as a member of that organization, a press account described him as the only man in the state who has belonged to one lodge of the order over 50 years. Thereupon lodge No. 14 at Blair, Neb., rises in protest.

On its roster the names of four men have appeared for a total of 217 years. They are Charles A. Connors, St. Louis, Mo., a member for 55 years; L. E. Vorhies, Lincoln, Neb., also a member of 55 years' standing; J. F. Justice, Ashland, Neb., member for 52 years, and J. W. Newell, sr., 55 years.

Newell celebrated his 87th birthday July 5 and is the oldest of the quartet. Coming to Omaha in 1857, he joined the Omaha lodge, No. 2, I. O. O. F., December 19, 1862. He retained his membership here until 1869, when he transferred it to Blair, becoming a charter member of the lodge at that place.

Family All Belong. Newell is the head of a family "nest" of Odd Fellows. His son, J. W. Newell, jr., and son-in-law, John McKay, Blair, are wearing 25-year veteran jewels presented them several years ago. His eldest son, Oscar, killed in an auto accident, was a member, and his wife, the late Mrs. Newell, and daughter, Mrs. McKay, are charter members of Welcome Rebekah lodge instituted at Blair in the middle '80s.

After wearing his 25-year jewel for a quarter of a century, Newell was presented with a 50-year jewel by his lodge February, 1919. Recently the sovereign grand lodge changed the numerals to "60," covering his 62 years of membership in both Omaha and Blair lodges.

This medal consists of a sphere, representing the globe, on which is engraved the word "Universal" with the three links clasped below.

ADVERTISMENT. Jams and Jellies Cost Less and Taste Better When Made by the New Certo Method

Old Method 2 qts. Fruit 50¢ 2 lbs. Sugar 20¢ Makes 3 lbs. Jam for 70¢ or more than 23¢ a pound.

Every housewife knows that the old "pound for pound" mixture of fruit and sugar must be boiled down to make it "jelly." They realize too that this long boiling evaporates a lot of the delicious fruit juice. For instance, as shown above, with 2 lbs. (or quarts) of fruit and 2 lbs. of sugar the result will only be 3 lbs. of jam. The other pound is lost or evaporated by long-boiling.

With the Certo method of jam and jelly making all this is changed, because the mixture is boiled only one minute. Certo supplies the necessary fruit pectin—that natural jelly-making substance found in some fruits, in varying amounts and without which no one could ever make jam or jelly—now separated from fruit, refined and bottled. Boiling only one minute with Certo eliminates evaporation so that with 2 lbs. of fruit and 3 lbs. of sugar, you now make 5 lbs. of jam—over a half more than is made by the old method with the same amount of fruit. More sugar is used in the Certo method only because it makes so much more jam than the old method. The amount of sugar in each glass of jam is the same in both methods. The extra sugar is simply used to make jam or jelly from the juice and flavor that used to be boiled away.

Certo's one-minute boiling period also prevents the flavor and color of your fruit from boiling away. That's why Certo jams and jellies are called "The World's New Standard of Quality."

Now you can make this recipe for delicious plum jam really in 10 minutes. Slice, pit and crush well about 2 1/2 lbs. plums. Measure 4 level cups (2 lbs.) crushed fruit into large kettle, add 3/4 cup water, stir until boiling, cover kettle and simmer 3/4 hour. Add 1 1/2 level cups (3/4 lb.) sugar and mix well. Use hottest fire and stir constantly before and while boiling. Boil hard for 1 minute. Remove from fire and stir in 1/2 bottle (about 1/2 cup) Certo. Skim and pour quickly.

Use same recipe for Currant or Gooseberry Jam by crushing 100 other Jams, Jellies and Marmalades are in the Certo Book of Recipes attached to every bottle of Certo.

J. W. Newell

low. The numerals "60" are suspended from the clasp above and are set with 12 diamonds each.

Settled in 1861. A. Hunt, father of Charles Hunt, Omaha painter, was noble grand of the Omaha lodge when Newell joined it. In 1869 he and others started for Pike's Peak. They got as far as Polk county, Nebraska, when travelers coming back reported "nothing much doing out there." So Newell and his companions settled down for several years, becoming the pioneer settlers of Polk county, and returning to Omaha in 1861.

Newell bought the lease on the site of the Paxton hotel and started a cracker factory, the first in Omaha. He was forced to run it day and night to supply the demand. He was offered the lot for \$800, the adjoining one having sold for \$300. He was a member of the Omaha pioneer fire company, a bucket brigade.

John Bross, the young man whom Newell hired in Omaha to cook his crackers in '62, is Newell's neighbor in Blair. He is 82 years old.

FREMONT TO HAVE \$100,000 SEWER

Special Dispatch to The Omaha Bee. Fremont, Neb., July 26.—Work of excavating and pipe laying for Fremont's new \$100,000 sewer disposal system will be started next week, according to City Engineer L. M. Roosa-

ler. Only inclement weather will delay the construction, he said.

The new pipe line goes in as a result of litigation brought by farmers residing along side the Rawhide creek. The case was in court for a number of years and a bitter legal struggle was made in the attempt to save the city the added expense. The new sewer will form an enclosed line for the sewage disposal, thus abating

ing a nuisance that existed along the banks of the Rawhide creek, into which the former sewerage was emptied.

Newcastle.—A special election will be held here, August 2, to vote on the issuing of water extension bonds amounting to \$3,500, for extending, enlarging and improving the water system here.
