There now remains exactly two weeks before Bob Zuppke and his fighting Illini take the field here to open the Cornhusker schedule. While both "Zup" and Coach Dawson insist these Illini-Cornhuskers should be held more in the light of conditioning affairs, the game at Urbana last year had no earmarks of a practice contest.

The Huskers were handicapped last year because of a green line to start the season. As a matter of fact the line appeared to be anything but green in that Illinois skirmish last season.

With Verne Lewellen, last year's captain and one of the best punters ever developed in the Missouri val-Husker coaches to polish up another Ed Weir, Bloodgood and Avard Mandery have been doing most of the kicking in practice. Mandery is the lad in whom much confidence is placed because of his brilliant high school record and his work last fall with the freshmen.

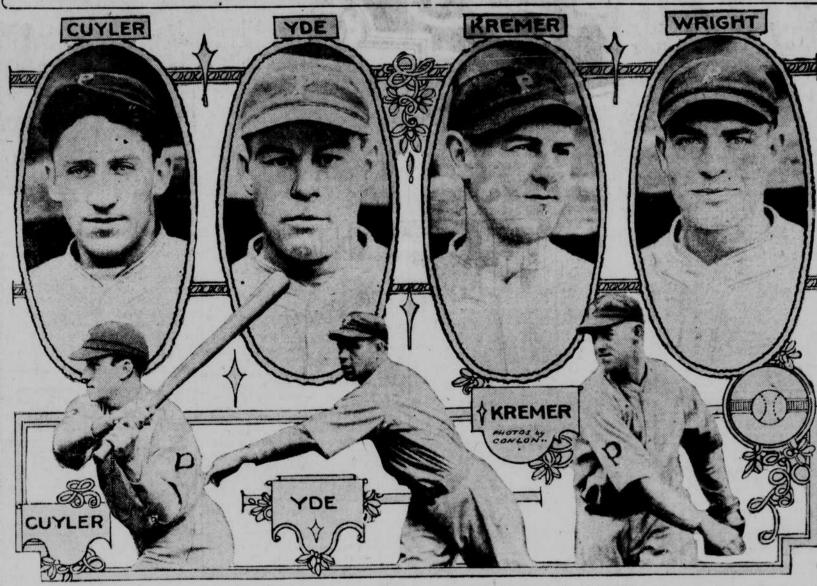

Besides developing a punter, the Husker coaches must likewise mould an entirely new backfield. No attempt has been made yet to teach formations. The squad has been split into teams on several losecasions, but only the simplest plays have ben executed. This was one merely to give the players the

'feel" of their positions. There are two sets of brothers on the squad, all of whom should bring glory to their name in a gridiron way. Ed Weir, present captain, has aready shown his ability. He was used at tackle last season and played brilliantly in every game. He drew this compliment from Henry Schulte, line coach:

"Greatest defensive tackle I ever saw in action."

It is doubtful if this year's team will weigh as much as some of those greater Nebraska teams of the last decade, but what is lost in weight is made up in speed. That seems to be the trend of football in all parts of the country. Instead of the behemoth who crushes all before him, coaches now look for the barrel type youth who is full of craft and speed.
