

Export Buying Puts Wheat Well Above \$1.35 Mark

Many Flouries but Market Always Comes Back and Closes Strong; Trade in Corn Has Eased.

By CHARLES J. LEVEND. Universal Service Staff Correspondent. Chicago, Sept. 25.—Wheat established itself well above the \$1.35 mark today, due largely to persistent export buying. Profit taking sales were encountered on the wheat but the market always came back and closed strong. Relative stability of export buying combined with the reiteration of very bad crop conditions abroad aided in the better showing of the wheat price. Wheat closed 1/2c to 1/4c higher; corn was 1/4c higher, and rye 1/4c to 1/2c higher.

Omaha Grain

Cash wheat sold on the tables today at about unchanged prices. The demand was weak but there has been for the last day or two, although tables were well cleared of samples. Receipts were 10,000 bushels. Corn sold from 14 1/2c to 15c. Continued heavy weather for the maturing of the growing crop causing a slow demand for corn. Receipts were 42 cars. There was a fairly good demand at about unchanged prices. Receipts were 30 cars. Sold at unchanged prices to 1c lower and barley about unchanged.
