

### Nebraska Apples Moving to Market

#### Extra Train Run to Pick Up Shipments—Crop Less Than Last Year.

Brownville, Neb., Sept. 26.—Apples started to move here today, and the railway put on an extra train, which will run daily for the next 30 days to handle the increased volume of business from this vicinity. Three carloads were loaded here today for Sioux City, Elsie and Crete. Jonathans and Grimes Golden are the varieties moving at present, and the shipments will increase daily. The heaviest movement will be reached in about a week, when other varieties will be included. Winesaps will move later for winter and holiday trade. The crop this year is expected to make about 90 carloads. Last year 101 cars were sent from this station. The price this year is about 25 per cent higher than last season, on account of the shortage of the crop and the increased price of coeprage.

Shubert, Neb., Sept. 26.—Apple shipments at this station and at Verdon, south of here, in the heart of the apple raising territory of south-eastern Nebraska, started today, the railway running an extra pickup train. Three carloads were shipped from here Thursday and five will

be loaded today, the varieties being mostly Jonathans and Grimes Golden. The destination was western Nebraska points. The movement is expected to increase here daily for 10 days or so. Winesaps will be shipped later, being barreled and sent to eastern cities for fancy trade, mostly to Kansas City, Chicago and Minneapolis.

It is estimated that from 100 to 125 carloads will move from here this season, as against 153 cars shipped last fall, the decrease being due to a failure in the crop this year caused by adverse weather conditions in the spring and at blossom time and to a late frost.

Nemaha, Neb., Sept. 26.—Forty-five carloads of apples are figured to be shipped from this station. Shipments will start next week and continue for about a week. The crop is about 75 per cent of what it was last year here. Shipments will be made to Nebraska points, as in former seasons, from here.

The grape movement from here and the Brownville vicinity, the center of the vineyards in this territory, is now over. Five thousand baskets were shipped from here and 25,000 from Brownville, moving by freight and express. Last season over 50,000 baskets of grapes were shipped. The decrease was due to late frosts and cold weather late in the spring.
