

Wheat Finishes in High Ground Following Break

New Highs Recorded During First Hour of Market; Rye Strongest on List; Corn Sells Off.

By CHARLES J. LEVINE. Internal Service Staff Correspondent. Chicago, Sept. 30.—Despite liberal profit-taking and some pressure, wheat prices finished in high ground today. New highs were recorded during the first hour as a result of market strength at Winnipeg and a good return at Liverpool. A nervous market followed the latter part of the session, a sharp break preceding the close. Rye was the strongest grain on the list. Corn sold off from reports having but temporary influence. Wheat closed 1/2 to 3/4 higher; corn 1/4 to 1/2 higher; rye 1/2 to 3/4 higher; and barley quoted nominally firm.

Early buyers were dislodged on the set-back that followed but prominent commission houses had orders to buy at the level, much of the absorption being regarded as speculative. News pertaining to wheat was insistently bullish.

Stock Market Is Not So Positive About Election

Not Doubtful but Not So Cocksure as Before; Tuesday Session Dull and Prices at Lower Levels.

By RICHARD STIFANE. Universal Service Staff Correspondent. New York, Sept. 30.—The stock market gives evidence of less positiveness in the election. Some brokers think they believe in playing safe and who would rather hold their money than risk it on a candidate. It is not that they are afraid of the election, but they are simply that they are not as cocksure as they were a few weeks ago and they would not want to be caught with their hands full of securities if the election should go against them.
