

Unselfishness Is Goal of Teacher, Educator States

Pleads for Inspirational Rather Than Mechanical Work at Convention Here.

(Continued From Page One.)
three persons ranking highest in the tests were girls.
Through extensive medical examinations it was found that the gifted child is three-fourths pound heavier than average at birth; that he talks from two to three months earlier than average; that he walks about a month early and that he is slightly accelerated sexually.
Gifted children, said Dr. Terman, read about three times as many books as average children and their literature is historical, biographical and of serious nature.
Dr. Terman declared that his tests had shown the gifted child to be, on an average, slightly better developed physically and having a greater knowledge of games and athletics than the average child. Extensive character tests showed that the gifted child was far above his unselected brother.

Loeb Case Not Conclusive.

Dr. Terman regretted that the Loeb-Loeb case at Chicago had drawn disfavor to the acceleration of the gifted child.

"People point to the fact that the two boys were graduated from the university when but 15," said the professor. "They do not realize that they are judging acceleration methods from but one case. They do not know, perhaps, that Secretary of State Hughes was graduated from the university when but 17."

H. L. Miller, professor of education and principal of the University High school of the Wisconsin university, urged high school teachers to avoid standardization, arguing that it is a menace to America.

Platoon Education Rapped.

"You can't educate children in platoons," he said. "We are all tired and weary of the mechanical method of teaching. Decide for yourself if your work is genuine or spurious."
Professor Miller continued by urging that teachers provide for individual differences of their pupils. He told them that in this day they must have "horse sense for stable thinking." He spoke in the gymnasium of Technical High school.

Yourself, Inc. Presents

Movies that you can make yourself of your own and your family's good times are so easy with a Cine-Kodak, for you simply press the button and the motor cranks the camera.
At this store you will find salesmen who'll be glad to explain about this new Eastman invention—and glad, too, to show you, on the screen, motion pictures made by other amateurs.

Three Thousand School Teachers Invade Omaha

Above: Miss Mary E. Foster and her assistants, who registered teachers arriving for the convention, worked at break-neck speed throughout the morning. They are: Left to right, Mrs. M. A. Tancock, Miss Mae Engelman and Miss Foster.
Below: This group of comely schoolma'ns arrived in Omaha Thursday morning from West Point. They are: Misses Genevieve Galleher, Eva O'Neil and Alice Nelson.

Women Outline Big Chest Drive

1,500 Workers Promised for Community Campaign November 19 to 27.

The first organization meeting of the women's division of the annual campaign of the Omaha community chest was held at the Hotel Fontenelle Wednesday noon under the direction of Mrs. A. H. Fetters, chairman for women.
Twenty-four majors, selected by the boards of directors of the agencies of the community chest were present and pledged support of 1,500 women in all sections of the city during the drive, November 19 to 27.

No discrimination in the districting will be made during the coming campaign and the women will solicit all business houses and schools in their districts as well as the residences.
In an address to the women, Mrs. Fetters said, "I wish to impress upon the boards of directors of the agencies of the Omaha community chest and need of their co-operation in this annual drive. I want all to take the same interest they would if they were putting on a drive of their own."
"At present more than 1,500 women have pledged to give us their undivided time during the drive, and if necessary we can raise this number to 2,000."
Mrs. Fetters, in a letter to the women's clubs of the city asked that social activities be discontinued during the week of the drive that all may have plenty of time to devote to the work.

Corn Huskers Being Paid 8 to 10 Cents a Bushel

Callaway, Nov. 6.—Nearly all the farmers in this part of the state are busy husking corn. The yield is not so heavy as last year, but it is of much better quality. New corn is being contracted for 80c a bushel. Eight and 10 cents a bushel are being paid to huskers, many of whom are coming in from other parts of the state.

Brewster Chosen Head of Beatrice Legion Post

Beatrice, Nov. 6.—Biting-Norman Post No. 27, American Legion, at its annual meeting elected Maj. C. L. Brewster, commander, and Maj. J. Ed. C. Fisher, former state commander of the legion, adjutant. Other officers: Joe Grant, vice commander; A. A. Sage, financial officer; T. P. Wilson, chaplain; G. L. Miles, sergeant-at-arms; G. H. Hemminger, historian; Clyde Dempster, R. S. Grant, Dr. J. C. Tucker, Harry Bartick and V. L. Taylor, executive committee.

Wymore Ice Men Build Storage Plant at St. Joe

Wymore, Neb., Nov. 6.—M. L. Rawlings and Son, Wymore ice wholesalers, have begun the erection of a large storage ice plant in St. Joseph. It will hold 10,000 tons of ice, and will be filled from the crops gathered by Mr. Rawlings on Indian Creek at Wymore, and shipped to St. Joseph for city distribution from the storage. The plant at St. Joseph is to be under the management of Edward Thiessen, former Wymore business man. Rawlings has storage houses at Wymore holding 30,000 tons.

Two Buildings Burn.

Wheeling, W. Va., Nov. 6.—Two business buildings in the downtown district of Wheeling were destroyed by fire today with a loss estimated at \$750,000. The Davis, Burkham & Tyler Piano building and the Browne building were burned.

State Aids to Be Asked for Guernsey-Sunrise Highway

Bridgeport, Nov. 6.—Citizens of the Guernsey-Sunrise district are planning to take up the matter of state and national aid for the maintenance of the highway between the two points with the state highway commission. It is the only outlet of the big mining camps and also of Hartsville.

Mrs. Katherine Hecker, 88, Dies at Columbus

Columbus, Nov. 6.—Mrs. Katherine Hecker, 88, resident here since 1867, is dead at the home of her daughter, Mrs. Fred Meyer. She came to Nebraska in 1867, and settled on a farm 11 miles south of Columbus. Mrs. Hecker leaves one son, Louis Hecker of Shelby; five daughters, 22 grand children and six great-grandchildren.
If you carelessly neglected to register, thereby depriving yourself of the opportunity to vote, you may at least begin doing your Christmas shopping early.

State Drives Wells to Give Fish in Lake Fresh Water

Bridgeport, Nov. 6.—Because many of the state's supplied fish in Lake Brancho, near Alliance, died last winter when the potash filled water froze over, the state fish department has appropriated \$500 with which to drill two deep wells in the lake to furnish fresh water for the fish this winter. The city of Alliance will pay the cost of electricity used in drilling the wells.

Geologists Still Believe Mineral Is Present, Though Well Abandoned.

The Amerada Petroleum company has abandoned its oil drilling operations at Nehawka, but geologists are not yet convinced that oil is not present. Test wells may be sunk later in other parts of the district.
In a statement of the results of the test well, G. E. Condra, director of the state geological survey, University of Nebraska, says the well should probably have been drilled south or southeast of the present location. The location of the present well, his statement says, did not afford a thorough test of oil possibilities because faulting extended through the location.
"The Amerada Petroleum company drilled as justifiable at their location," Mr. Condra says. "Dr. Sidney Powers, chief geologist of the company, was in favor of abandoning drilling as soon as quartitic beds were encountered below the Saint Peter sandstone, but we urged him to continue drilling."
"Just how much chance remains for the discovery of oil in the Nehawka anticline is not known. The test recently completed does not fully condemn the flanks of the structure. This being true, future prospecting, if it is done, should be to the south or southeast of the recent test. This location would be more favorable because there is no surface faulting; oil could have migrated to it; the Silurian and Devonian beds would probably be encountered, and the structure is well sealed."

Republicans to Occupy 246 Seats When House Meets

Only One District in Doubt, That of Member at Large From New Mexico; Demos, 183.

Washington, Nov. 6.—With one district—that of the member at large from New Mexico—still in doubt the political complexion of the new house by states, on the face of unofficial but practically complete returns is as follows:
Alabama, 10 democrats.
Arizona, 1 democrat.
Arkansas, 7 democrats.
California, 2 democrats, 9 republicans.
Colorado, 1 democrat, 3 republicans.
Connecticut, 5 republicans.
Delaware, 1 republican.
Florida, 4 democrats.
Georgia, 12 democrats.
Idaho, 3 republicans.
Illinois, 5 democrats, 22 republicans.
Indiana, 3 democrats, 10 republicans.
Iowa, 11 republicans.
Kansas, 2 democrats, 7 republicans.
Kentucky, 8 democrats, 3 republicans.
Louisiana, 8 democrats, 19 republicans.
Maine, 4 republicans.
Maryland, 4 democrats, 2 republicans.
Massachusetts, 3 democrats, 15 republicans.
Michigan, 13 republicans.
Minnesota, 7 republicans, 3 farmer-socialist.
Mississippi, 8 democrats.
Missouri, 8 democrats, 7 republicans.
Montana, 1 democrat, 1 republican.
Nebraska, 3 democrats, 3 republicans.
New Hampshire, 2 republicans.
New Jersey, 1 democrat, 19 republicans.
New Mexico, in doubt, democrat leading.
New York, 22 democrats, 20 republicans, 1 socialist.
North Carolina, 19 democrats.
North Dakota, 3 republicans.
Ohio, 6 democrats, 15 republicans.
Oklahoma, 1 democrat, 1 republican.
Oregon, 3 republicans.
Pennsylvania, 15 republicans.
Rhode Island, 1 democrat, 2 republicans.
South Carolina, 7 democrats.
South Dakota, 3 republicans.
Tennessee, 4 democrats, 3 republicans.
Texas, 17 democrats, 1 republican.
Utah, 2 republicans.
Vermont, 1 republican.
Virginia, 10 democrats.
Washington, 1 democrat, 4 republicans.
Wisconsin, 10 republicans, 1 socialist.
Wyoming, 1 republican.
Totals: Democrats, 183; republicans, 246; farmer-labor, 3; socialists, 2; in doubt, 1—435.

Nehawka Has Oil Prospects

Geologists Still Believe Mineral Is Present, Though Well Abandoned.

The Amerada Petroleum company has abandoned its oil drilling operations at Nehawka, but geologists are not yet convinced that oil is not present. Test wells may be sunk later in other parts of the district.
In a statement of the results of the test well, G. E. Condra, director of the state geological survey, University of Nebraska, says the well should probably have been drilled south or southeast of the present location. The location of the present well, his statement says, did not afford a thorough test of oil possibilities because faulting extended through the location.
"The Amerada Petroleum company drilled as justifiable at their location," Mr. Condra says. "Dr. Sidney Powers, chief geologist of the company, was in favor of abandoning drilling as soon as quartitic beds were encountered below the Saint Peter sandstone, but we urged him to continue drilling."
"Just how much chance remains for the discovery of oil in the Nehawka anticline is not known. The test recently completed does not fully condemn the flanks of the structure. This being true, future prospecting, if it is done, should be to the south or southeast of the recent test. This location would be more favorable because there is no surface faulting; oil could have migrated to it; the Silurian and Devonian beds would probably be encountered, and the structure is well sealed."

George Feeds Yawning Furnace But Firemen Frown on His Efforts

Six fire trucks, including the big tower, and several companies of firemen were turned out at 7:30 Tuesday morning by the efforts of George Lyric, an obliging engineer and fireman, to supply heat to the tenants of the Lyric building.

Since the fire at the structure two weeks ago the building has been of forlorn aspect and chilly interior. So George had his orders to fire up.
When he went to the boiler room Tuesday morning, the steam gauge registered nil. George tossed into the furnace a good helping of coal. A terrific heat resulted, but the gauge refused to rise.

"Blame thing's broke," muttered George, as he shovelled several pounds more fuel upon the fiery heap. No result.

About this time the firemen broke in upon his musings, inquiring whether he thought he had perfected a silent steam calliope from the Lyric building.
It appears that steam joints on the fifth floor of the structure had been removed as part of reconstruction work. The flood of steam issuing from the fire-scarred building created a furor in the downtown district during the early morning hours.

First Vote of Woman, 90, Cast for Coolidge

David City, Neb., Nov. 6.—Among the voters at Brainerd was Mrs. Frances Smersh, 90, who cast her first vote. She voted for Coolidge. Mrs. Smersh has been a resident of Butler county for over 40 years.

R. R. Dickson Is Re-Elected Judge

O'Neill, Neb., Nov. 6.—Judge Robert R. Dickson of O'Neill, who is also grand master of the Masons of Nebraska, has been re-elected judge of the Fifteenth district for the fourth consecutive term by a majority of 4,500.

New Sugar Chairman

New York, Nov. 6.—George K. Morrow, who has been identified with the reorganization of several industrial companies, today was named chairman of the board of the Warner Sugar corporation. It also was announced that bankers had extended a credit of \$5,000,000 to the company for a period of one to two years.

POWER OF RAIL BOARD UPHELD

Chicago, Nov. 6.—Federal Judge Wilkerson today upheld the power of the United States Railroad Labor board to compel testimony before it.
The court denied motions to quash the board's petition as to D. B. Robertson of Cleveland, president of the Brotherhood of Locomotive Firemen and Enginemen, based on his Cleveland residence, and denied a motion to dismiss as to J. McGuire of Chicago as general chairman of engineers.

American Tobacco Stock Changes Made

New York, Nov. 6.—Stockholders of the American Tobacco company approved a split up of common stock, changing 600,000 shares of class A, \$100 par value to 1,000,000 shares of class B, \$50 par value and 1,000,000 shares of class C, \$100 par value to 2,000 shares of \$50 par value. Rights of preferred stockholders to have two votes instead of one for each share of \$100 par value held, also was sanctioned.

Father Denies He Struck and Killed His Infant Child

Brands Accusation of Mother as Lie; Tells Tale of Persecution in Reply to Charge.

the theft and has expressed a willingness to return to Carroll to stand trial. He says that he sold the automobile in St. Joseph, Mo., for \$140.
Shaken With Fear.

Ruth Lutz, quivering with fear, is being cared for by Matron Gibbons in the county jail. She has declared that she is terror stricken now that she has told of her husband's deed.
She is alleged to have failed to keep up the payments on a piano following the death of the infant and to have sold the instrument shortly afterward.

After she had told her story to the detectives she repeated it almost word for word to Matron Gibbons. On neither occasion was she pressed for facts concerning the alleged crime and the statements were all made voluntarily.

Children Heard Screaming

Mrs. Lutz' arrest followed a search of months for her by detectives. The family left Omaha very suddenly after the death of the baby and no trace of them could be found. It was not until this week that they heard that she had started habeas corpus action in Lincoln and went there to arrest her. Her husband was arrested at the same time.
The only fact which the detectives have been able to discover so far which bears out the woman's statements at all is the word of neighbors that the other children were heard screaming the morning of the baby's death.
