

Nebraska's Own State Park

A genuine beauty spot is the Nebraska State park in Dawes county, a 640-acre tract seven miles south of Chadron. This is one of the two state parks in Nebraska. The other one is the old homestead of J. Sterling Morton near Nebraska City. Several other locations are now under consideration. These photos of the park in Dawes county were taken by the Graves studio and furnished by the Kiwanis club of Chadron.
