# How Long Since Great Music Was Played on Your Piano?

Are you the owner of the kind of piano which produces no music unless somebody sits down and plays it? That's all any piano was until only a little while ago. Today the family that buys a piano can have not alone the piano but its music - all its music.

. A New Meaning to the Name "Piano"

The Ampico brings—almost by magic it seems—the world's greatest pianists to play for you. The artist himself may be thousands of miles away. But every phrase, every note is played on your Ampico just as if he were actually at the keyboard. The world's treasure of music, ideally

played, is yours to command through the Ampico. All the music you've always wanted to know is listed in the library of Ampico recordings. Nocturnes, so-natas, hymns, ballads, even that little musical comedy tune that has haunted you since last week-you may choose from them all.

The Ampico is obtainable in the beautiful

J. & C. FISCHER PIANO

which has been sought for its beauty of tone for over eighty years.

Exchange Your Piano for an Ampico

Your present piano will entitle you to an allowance in buying an Ampico. If you desire there are convenient terms of monthly payments which we will be glad to arrange.
