

W. O. W. Officials to Be Honored at Chamber Banquet

Leaders to Be Guests at Dinner Recognizing Importance of Order.

Business men of Omaha will give recognition to the officers of the Woodmen of the World in Omaha and throughout the country at a dinner Tuesday night at the Omaha Chamber of Commerce.

It is the first time in the history of the city that any civic organization has given a dinner in honor of the officers of this association, one of the largest fraternal organizations in the world, according to Clarke G. Powell, commissioner of the Chamber of Commerce.

Carl R. Gray, president of the Union Pacific railroad, will act as toastmaster at the dinner.

The following officials of the Woodmen of the World will be the guests of the chamber:

W. A. Fraser, president; B. W. Jewell, vice president; John T. Yates, secretary; J. E. Fitzgerald, chairman board of auditors; T. E. Patterson, auditor; Morris Sheppard, treasurer, Washington, D. C.; E. B. Lewis, auditor, Kingston, N. C.; E. D. Campbell, auditor, Fort Huron, Mich.; William Ruess, auditor, Cleveland, O.; T. Wells, auditor, Frankfort, Ky.; W. M. Crawford, auditor, Kelso, Tenn.; S. A. Ferrell, Johnstown, Pa.; S. D. Caine, Columbus, Miss.; W. F. Varner, Rutledge, Ga.; D. E. Bradshaw, general attorney; A. D. Cloyd, medical director.

The Kiwanis quartet will furnish music during the dinner. The program will be broadcast over WOA-W.

"The Woodmen of the World is one of the most powerful and influential organizations in Omaha," declared Mr. Powell. "Their membership is among the largest in the world. Omaha is advised widely through the organization, both by the large amount of mail leaving Omaha each day and by the WOA-W radio station, which has placed Omaha among the first of the broadcasting cities in the country."

Three hundred reservations have already been taken by members of the chamber.

Autos Valued at \$1,500,000 Burn

Kansas City Motor Show Is Gutted by Flames; Two Airplanes Destroyed.

Kansas City, Feb. 14.—Fire destroyed approximately \$1,500,000 worth of the latest creations of automobile manufacturers at the Kansas City motor show in the American Royal Livestock pavilion here early today.

The pavilion, valued at \$750,000, was declared a total loss by firemen an hour and a half after the fire was discovered.

Kansas City, Mo., Feb. 13.—Fire broke out here shortly before midnight tonight in the annex of the American Royal Livestock pavilion, where the Kansas City motor show is being held, and quickly spread into the main building, where 300 automobiles of the latest model were on display.

The show had closed for the night several hours before the fire was discovered.

NEBRASKA COUPLE IS WED 60 YEARS

Wakesfield, Neb., Feb. 14.—Driving 40 miles in a lumber wagon, drawn by ox team, to get married was the unique experience of Mr. and Mrs. Andrew Lindahl of Wakesfield, whose 60th wedding anniversary was celebrated by a reception at the Salem Lutheran church here.

Mr. and Mrs. Lindahl were married at Berna, Ill., 1865. They have lived in Wakesfield more than 20 years. All of their living children were present at the reception. They are John Lindahl of Allen, Tph Lindahl of Lindeberg, Kan.; Anton Lindahl of Gallup, N. M., and Mrs. Henning Hallin of Allen.

Most of their 18 grandchildren and eight great-grandchildren were present for the occasion.

Central High Radio Draws Letters From Coast to Coast

No. 1—Arnold Cisar, chief announcer broadcasting news through the microphone.

No. 2—Paul Maxwell, assistant engineer, shown operating the new transmitter.

No. 3—C. H. Thompson, instructor, reading the mass of letters that swarms into the studio daily.

By ARTHUR GREEN. Central High school students have a modern radio broadcasting station which has not cost the taxpayers of Omaha a single penny.

Thanks to the ingenuity of C. H. Thompson, instructor in radio and in mechanical drawing and several high school students, station KFCZ is sending good programs over the air every day. In addition, the station holds a license from the government which permits research work during certain hours of the day. And

Noted Engineer Here for Speech

Dr. William Durand Comments on Giant New Bombing Plane.

Dr. William Frederick Durand of Leland Stanford university, here to address the Engineers' club tonight in the Chamber of Commerce, is unable to understand what 12 persons would be doing on a bombing plane. He commented on the news dispatches from Washington referring to a 12-passenger bombing plane offered to the United States and bought by Great Britain.

"Two pilots, two gunners and two bomb droppers would be the largest complement I could imagine on a bombing plane," Dr. Durand said. He stated that the Navy department is building a plane that will have a radius of 2,000 miles and will be capable of flying from California to Hawaii.

The visitor has served on the national advisory committee on aeronautics and he is president of the American Society of Mechanical Engineers.

His subject tonight will be "The Engineering Profession: Its Antiquity and Its Obligations." The meeting will be under the auspices of the Engineers' club of Omaha and the Nebraska section of the American Society of Mechanical Engineers Women may attend.

At the Athletic club, a dinner will be given at 6 for the visitor.

DOREYS WILL SAIL ON MARCH FOURTH

Col. C. C. Kinney, commanding the Seventeenth Infantry, with headquarters at Fort Crook, is in active charge of the Fourteenth Infantry brigade while a successor is being chosen for Brig. Gen. Halstead Dorey.

Col. W. R. Sample, station at Fort Snelling, is ranking officer, but is now on leave in Florida, causing the taking over of the brigade by Colonel Kinney.

General Dorey will be the guest of the Greater Omaha committee before he sails to assume his new post in the Philippines. He is now in Washington receiving his sailing orders.

Mrs. Dorey is in Omaha and is taking charge of the packing of the Dorey household goods.

The family sails from Seattle March

all at virtually no cost to the city or the school.

Omaha merchants dealing in radio supplies have given generously to the station. Mr. Thompson and some of the boys in the school have shown a remarkable attitude in putting together the many intricate pieces of machinery necessary in the erection of a broadcasting station.

The Omaha Board of Education recently was unable to give the Central High radio department the necessary funds to carry on the operation of the studio. Technical, their claim, is in reality a technical school and should therefore be entitled to the privileges of a radio department.

Letters from "Everywhere." The firms who have contributed to the Central radio station are as follows: Schmoeller & Mueller, Hospe

Piano company, Nebraska Power company, Omaha Radio company, Vesta Battery company, Sunderland Brothers Coal company, Omaha Electric works, Le Bron Electric company, Beaton Drug company, L. Henderson, florist; Wolfe Electric company, Radio Accessories, Corr Electric company, E. B. Williams Electric company and Nebraska Battery company.

Letters from all parts of the country have been received by the Central radio department, praising them for their exclusive programs that they put on during the week. Communications have been received from Havana, Cuba; east Long Island, New York; Winnipeg, Canada, Vancouver, B. C.; San Francisco, Cal., and Porto Rico. According to Thompson, letters frequently arrive from various parts of Tennessee, Florida, the Great Lakes region, Oregon, Idaho and Central America.

Interclass Debate. Each afternoon the Hiato music is broadcast by the Central station. Organ music and special orchestra numbers are featured on this program. The Central High school song, "Omaha," is given a prominent part in the course of the program.

"These afternoon programs usually benefit patients in various hospitals in Omaha," said Mr. Thompson. "Being able to communicate with the outside world, these patients are elated over the opportunity to listen to the outside world."

High school events are broadcast before the other affairs. One of the features during the past month was the interclass debate given over the radio. The decision decided by the radio fans who sent in letters regarding the argument.

WHEN CONSTIPATED W.B. CALDWELL, M.D. R. Syrup Pepsin (Egyptian senna) Pepsin (Chasing aromatics) Take one spoonful when constipated. Less than Cent a Dose. TAKE DR. CALDWELL'S SYRUP PEPSIN "THE FAMILY LAXATIVE"

Beauty A Gleamy Mass of Hair 35c "Danderine" does Wonders for Any Girl's Hair Girls! Try this! When combing and dressing your hair, just moisten your hair-brush with a little "Danderine" and brush it through your hair. The effect is startling! You can do your hair up immediately and it will appear twice as thick and heavy—a mass of gleamy hair, sparkling with life and possessing that incomparable softness, freshness and luxuriance. While beautifying the hair, "Danderine" is also toning and stimulating each single hair to grow thick, long and strong. Hair stops falling out and dandruff disappears. Get a bottle of "Danderine" at any drug or toilet counter and just see how healthy and youthful your hair appears after this delightful, refreshing dressing.

Boy Scouts in Omaha Average One Per Block

New Statistics Also Demonstrate It Isn't "Rich Boys" Organization.

There is a Boy Scout in Omaha for every city block. A map has been made by the local organization which shows the residence of every scout. It disproves the criticism that scouting is for the rich boy. The territory in which the Boy Scouts are the thickest is just east and south of Hanscom park. The second dense spot is Brown park district, South Side.

One boy, in order to attend a troop meeting, goes from 5600 South 28 3000 North. There are 14 scouts who traveled an aggregate of 66 miles in order to attend Boy Scout meetings. These boys moved to another section of the city from that in which they joined scouting, but still want to keep their membership with the old gang.

Last year 497 men gave volunteer service in scouting and in proportion to the paid staff at headquarters, this is about 100 volunteer members for each paid member of the staff. They took the boys on hikes, camping trips, overnight sleepouts, and other activities.

Young Omaha Mother Admitted to State Bar

Mrs. George E. Neuhaus, 4528 Woolworth avenue, has been admitted to the practice of law in Nebraska, word from Lincoln states.

Her energies not all taken up by caring for her home and 20-month-old baby, the young woman has pro-

ceeded with the study of law which she took up before her marriage. She was formerly an assistant attorney general in Colorado. Her name there was Clara Mozart. Dr. Neuhaus specializes in mental and nervous diseases, has offices in Aquila Court.

Associated Charities Leaders Tell of Aid to Unemployed in City

The Associated Charities board of directors met at the Brandeis tea-room last Tuesday. One new member, Harley Conant, was elected to the board.

"Never has there been such a call upon the Associated Charities for aid as at present," said Robert Burns, member of the board. Unemployment for unskilled workmen has never been so serious as now. Fifty calls a day from this class is an average record and these are not from those usually dependent upon the charities, but from persons who have always been able to take care of themselves.

Even many of those who have employment, earning barely enough to keep their large families in neces-

sities, are calling on the charities to help. By collecting used clothing and obtaining volunteer workers, the charities save many hundreds of dollars.

"The matter of housing is a difficult one. First, to locate many of these people and then to be able to keep them when once located. Where there are children and old people, the association cannot see them evicted and consequently pay the rent, thus occasioning a great drain upon the budget."

Burns stressed the problem of the mentally deficient. The charities aim to send dependent transients back to the localities from which they come, as the effort to take care of local unfortunates is becoming more of a problem every day.

Four of 'Em Defy Jinx of 13

Two young men and two young women cast defiance in the teeth of fate by taking out licenses to wed on Friday, the 13th. They are: Tilford William Summers, 23, 1314 North Forty-first street, Emma Kuerter, 19, 2115 North Sixty-first street, Joe Marasco, 24, 1326 South Twenty-first street, Mary Gillotti, 19, 1319 South Twenty-second street.

As though the triple risk of Friday, the 13th and matrimony were not enough, observe also the other features besetting these brave four.

Mr. Summers has a "13" in his street address.

Mr. Marasco has not only a "13" in his street number, but the other half of it is "26," a double "13."

Miss Gillotti has the "13" in her street number, and the letters of her name total 13 also.

"Let 'em come. Bring on your black cats and ladders, too, for good measure," declared Mr. Summers, striking an Ajax-defying-lightning attitude. "I know they're all turned into good luck for us. I'll tell the world we're happy."

"Cupid" Stubbendorf playfully wrote "Friday" in parenthesis on their licenses. "Cupid" is hardened to his tragic work of issuing marriage licenses.

JOINT HIGHWAY MEETING ON TAX

Members of the joint highway committee of Omaha, composed of representatives of the Chamber of Commerce, the Greater Omaha committee, the Rotary club, the Omaha real estate board and other civic organizations, are meeting at the Chamber

of Commerce this noon to discuss the present bills now before the legislature. The members were to appoint a delegation headed by Walter W. Head to go to Lincoln to attend a mass meeting of the Nebraska Good Roads association against the cutting of the proposed gasoline tax so as to give the counties 50 per cent of the tax and the state 50 per cent.

In Divorce Court. Petitions. Sophie Vocasek against Thomas, cruelty. Fanny Fedman against Harry, cruelty. Clarence A. Quasley against Mildred, cruelty.

Big Gain in 1924 Over 1923

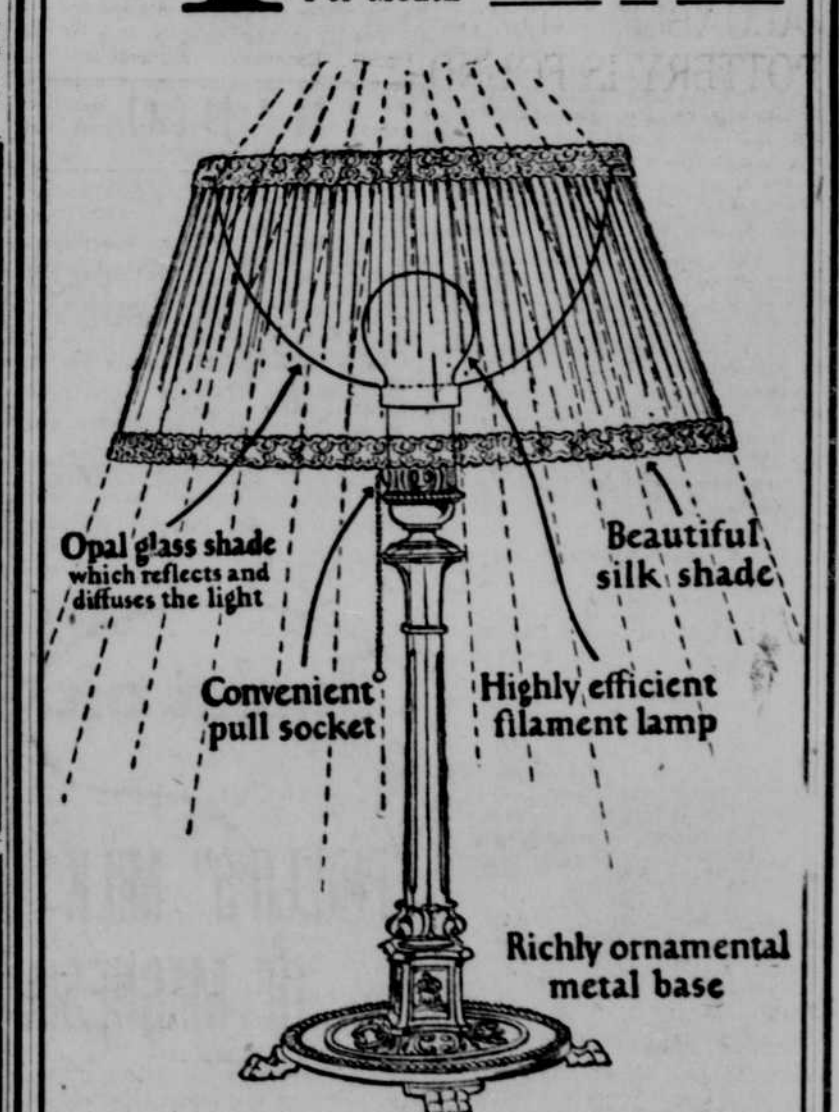

During 1924 the Occidental Building and Loan Association, 18th and Harney, increased their assets \$2,389,370.50. It is altogether a very healthy indication of Nebraska's business conditions. The Occidental Building and Loan Association safeguards its patrons' money by first mortgages on homes, and a contingent reserve fund now amounting to \$460,000.00. It pays a dividend of six per cent per annum quarterly.

This Association is unique in the U. S. in that its reserve fund is so great in proportion to liabilities to its members. It has resources amounting to \$15,032,800.42. The Occidental Building and Loan Association is a mutual institution and one of Omaha's real assets.
