Today

The Truth Is Out. The President's Next Move. A Little Longer Message. Flying Machines, Not Graft.

By ARTHUR BRISBANE.

The disgraceful truth about our aircraft situation is now exposed. General Hines, chief of staff of the United States army, admits: First, that this country is absolutely un-prepared to defend itself against invasion by air; and, second, that the army has taken no steps to make the nation safe from attack.

That is at least plain, and it puts the situation up to President Coolidge, who is head of the army and navy, and responsible to the people for national safety.

Can you imagine how the air defense force would be built up if Theodore Roosevelt were president?

The president is finishing a message said to be one of the shortest on record. It will probably be stretched a little, following Gen-eral Hine's confession of army incompetency, to make room for a few words on that subject.

It is, thanks to Brigadier General Mitchell and his courageous truth telling in the face of threats from higher-ups, that the people know the truth. And now, accord-ing to a predispatch from Charles Parmer in Washington, he is to have his choice of resigning from he army or accepting reduced rank of colonel, including probable transfer from Washington to some ob-

The president and the people will be interested to know what Weeks has been doing, and what kind of a secretary of war he thinks this nation needs. Unless he has some better excuse than ignorance or indifference, there ought to be a good job waiting for him in some comfortable banker's and broker's of-

What, by the way, was the idea of hearing General Hines in secret session? Is the public not entitled to know the state of national defense? Asia and Europe know all about it, you may be sure.

The condition of this country as

Nash Sales in Six Months Period Break All Records

Evenness of Demand in All Sections of Country Interesting, Sales Manager Declares.

By E. H. McCARTY. (Mr. McCarty is general sales manager of the Nash Motors company and is in Omaha to attend the automobile show and to confer with Dan T. Vriesema and other officals of the Nash-Vriesema Auto company.)

The remarkable character of the dewas eclipsed by the record-breaking last six months.

ources indicating a coming period of great prosperity and extreme business activity, we can look forward to see ing Nash sales take an added momentum during this coming year and sweep well beyond the record-break ing toals of 1924. As a matter of fact, conditions are decidedly more favorable now than those that confronted us when the new models were introduced. In the first place, the new advanced six and special six series are now firmly established in the minds of the public as cars of exceptional value. Production facilities have been notably increased by the installation battleship builders, weeping for

of considerable machinery and new plant extensions. And our selling or The High Church of England, or ganization has been strengthened part of it, feels humiliated, because very greatly in the last five months Travelers on Pullman cars will it has not been able to create saints by the addition of more than 100 good truth about our national lack of defense, except possibly innocent old Uncle Sam.

Hope that Garvey, when he comes out, will not take all the colored people to Africa with him. No "white help" could be found to do "white help" could be found to do of the Roman Catholic church.

The background in the great of the two new models—one, the remarkably low priced advanced six seems of the Roman Catholic church.

introduction. Total sales of Nash cars for the last six months of 1924 exceeded the same period of 1923 by 3,000 cars. And the second half of 1923 was the largest fall period in Nash history. Even the first half of last year, with its active spring demand,

last six months.

An interesting phase of the situation has been the evenness of the demand all over the country. Former high sales marks were tied or pushed into the discard in nearly every territory and the newer Nash dealers, as well as the older ones, alike have met with a public acceptance of the Nash product that has proved beyond anything in their experience.

As a climax to this brilliant six months period. December shipments rose to a higher peak than for any former December. And as an indication that the new Nash models were received as enthusiastically abroad, September, October and November were the biggest three expert months.

Avoid Indigestion, Sour Acid Stom-ach, Heartburn, Gas on Stomach, Etc.

Indigestion and practically all forms of stomach trouble, say medical authorities, are due nine times out of ten to an excess of hydrochloric acid in the stomach. Ihronic "acid stomach" is exceedingly dangerous and sufferers should do either one of two things.

Either they can go on a limited and often disagreeable diet avoiding foods that

often disagreeable diet, avoiding foods that disagree with them, that irritate the stom-ach and lead to excess acid secretion or they can eat as they please in reason and make it a practice to counteract the effect of the harmful scid and prevent the formaof the harmful scid and prevent the formation of gas, sourness or premature fermentation by the use of a little Bisurated Magnesia at their meals.

There is probably no better, safer or more reliable stomach antiacid than Bisurated Magnesia and it is widely used for this purpose. It has no direct action on the stomach and is not a digestent. But a teaspoonful of the powder or a couple of five grain tablets taken in a little water with the food will neutralize the excess acidity which may be present and prevent its further formation. This removes the whole cause of the trouble and the meal digests naturally and healthfully without need of pepsin pills or artificial digestents.

Get a few ounces of Bisurated Magnesia from any reliable druggist. Ask for either powder or tablets. It never comes as a light of the store of the comes as a light of the store of the comes as a light of the store of the comes as a light of the store of the comes as a light of the store of the comes as a light of the store of the comes as a light of the store of the comes as a light of the store of the comes as a light of the store of the comes as a light of the store of the comes as a light of the store of the comes as a light of the store of the comes as a light of the store of the comes as a light of the store of the store of the comes as a light of the store of the store
