By marking danger wherever it exists, State Highway Commissions have prevented hundreds of accidents. This is the day of prevention. Officials everywhere, as well as municipal and county authorities, are designating Danger Lines that demand our constant attention.

Watch out for Pyorrhea at THE DANGER LINE

LOOK at your teeth in a mirror. See those little V-shaped crevices where your gums meet your teeth? They are very tiny, but you will find them there. They form the Danger Line.

Cross-section of a tooth showing Acid Decay at The Danger Line.

In those little crevices which extend around each tooth, food gathers and ferments, forming acids which lead to decayed teeth, infected gums, abscesses often to Pyorrhea. Heart trouble, kidney disease, undermined health—all may result from infection at The Danger Line. Practice prevention before it is too late.

Ask your dentist and he will tell you that Milk of Magnesia has been used for years to neutralize those acids in the mouth which cause decay and attack

the gums. Squibb's Dental Cream is made with Squibb's Milk of Magnesia.

Brush your teeth regularly with Squibb's Dental Cream and guard against Acid Decay and Pyorrhea—and soothe and strengthen tender gums. Squibb's Dental Cream will keep your teeth clean and protected, and promote the hygienic condition of your entire mouth.
