Does Your Furniture Satisfy?

DOES it bring into your home that desired atmosphere—that definite art quality which will be your lasting pride? Or does it represent, as it often does, just "furniture"?

We feel that in every transaction you should expect something more. Your tastes, your decorative ideas, your dreams of home comfort can here find satisfying expression at the price you would pay.

You are cordially invited to visit our store, where a sincere interest will be taken in showing you the countless new developments in home furnishing. Your visit will in no way obligate you.
