

Jail Feed Bill to Governor for Signature

Lower House Concur in Senate Amendment, 80 to 8; No Fear of Veto Seen.

Special Dispatch to The Omaha Bee, Lincoln, Neb., March 28.—Effective July 1, feeding of prisoners in Douglas county will be taken from the hands of Sheriff M. L. Endres and placed under the supervision of the county commissioners, providing Governor McMullen approves the jail-feeding bill.

The house of representatives voted, 80 to 8, to concur with the senate amendment to the Hoyer-Caldwell sheriff's feeding bill. Concurrence to this amendment by the house means that the bill has gone through the legislature and that all that is needed to make it a law is the governor's signature.

No doubt is felt that Governor McMullen will sign the bill. When it was in the house an emergency clause was attached to make it effective immediately upon passage and signing.

GERMAN SECURITY PLAN EXPLAINED

Paris, March 27.—The German government soon will have an opportunity to explain in detail its tentative suggestion for a pact of guarantee for the frontiers of France and Belgium. The allies have about agreed to the procedure they will follow and in a few days each nation will, on its own account, reply to the memorandum which the German ambassadors recently left at the chancelleries of the allied governments.

The French reply it is believed, will be the chief test of Germany's intentions to co-operate in an effective security plan. It will say that the French government is ready to consider any project to put an end to the existing anxiety in Europe but would like to be informed precisely concerning certain essentials of any such project interesting as it does not effect only France itself, but the allies of France in central Europe.

Winter Wheat Backward.
 York, March 28.—Very unfavorable is the present report on winter wheat in York county. Some of the wheat is alive and growing, but it is very backward.

War Triangle Brings Death to Girl Wife

Man Kills Brother's Wife, Former Sweetheart, With Ax While Infant Looks on.

By International News Service.
 New York, March 28.—A tragedy grim in its romance and brutal in its execution was confessed today by Eugene Cassinelli, 37, according to the police, when he admitted killing his young sister-in-law, Mrs. Amelia Cassinelli, with an ax while her 2-year-old baby played happily on the floor of her apartment last night.

The eternal triangle, police declared, was responsible for the tragedy.

Worked in Bakery.
 The woman's husband was Daniel Cassinelli, who worked by day, the unwelcome suitor was Eugene, his brother, who worked at night in a bakery, police said.

Eugene and Daniel were soldiers in the Twenty-sixth division of the A. E. F. In Italy during the war the laughing black eyes of a pretty native girl attracted them both. She was Amelia. It was a matter of considerable doubt to Amelia which brother she loved the more. But she married Daniel.

The war over, all three returned to the United States.

Ordered From Home.
 Eugene could not forget that he once was Amelia's suitor. She told her husband of his attentions and the brother ordered him from his home.

Daniel threatened to beat him, Eugene said. He felt that Amelia might consent to go away with him, he told police, so he went to her little flat last night while Daniel was away. He implored and threatened. Neighbors heard screams. They found Mrs. Cassinelli dead, her baby, nearby, crying. Eugene had fled. Police caught him.

Dundee Methodist Retired Pastor Dies

Rev. W. St. John Sanders, 52, former pastor of the Dundee Methodist church, died Friday night at his home, 5407—South Twenty-fourth street, after a protracted illness which had caused him to retire from the pastorate last fall.

He had held pulpits at Stanton, St. Edward, Clarks, Haldia and Archer, Neb., prior to coming to Omaha a year ago. Surviving him are his wife and a son, Keith, 9.

Funeral services will be held at the Dundee Methodist church Monday afternoon at 2. Burial is in Forest Lawn cemetery.

Thumbs Down on Whispering, Rule in Judge Patrick's Courtroom

Most August Jurist in Omaha Sits on Most Humble Bench.

By A. R. GROH.
 Robert W. Patrick is the most august jurist in Omaha. True, he presides over only the municipal court—than which there is no more humble court in the city. But his is the only court in Omaha in which one may not whisper to one's neighbor.

Two young men recently tried it. One of them told the other of Patrick's rule. The other thought he could violate it with impunity. They made a small wager and entered the judge's court, sitting down in the second row. The judge was busy talking to a lawyer who stood in front of him when the skeptic made the wagerial whisper. Instantly the judge's whiskers flickered and he looked sternly down.

"Do you want to go to jail?" he inquired.

You can whisper in the county court. In the nine district courts persons "visit" by the hour while trials go forward and the judges say nothing.

One can enter the august federal courtroom and whisper many earsfull in plain view of Judge Woodrough without a word from him.

It is said that in the state supreme court whispering is not forbidden, and within the awesome portals of the United States supreme court William Howard Taft and his distinguished associates do not reprobate at whisperers.

But that, as the feller said, is not Judge Robert W. Patrick's "muny-cippal" court.

Don't try it there.

For Judge Patrick does not like it, and will not tolerate it.

Mayor Favors Auto Traffic Bureau Plan

Councilmen Willing to Give Dunn Proposal Trial; Koutsky Prefers His Measure.

Mayor Dahlman believes Commissioner Henry W. Dunn's traffic bureau idea is workable and should be given a trial.

"I know that under the present system there are some objectionable features," the mayor said. "I know that motorists are required to lose too much time. Of course, the details of the proposed plan would have to be worked out carefully. Offhand, I would say it is a good idea."

City Commissioner J. B. Hummel said he has not analyzed the plan, but his first impression is favorable.

"The suggestion that the traffic bureau should be separated from the police court commends itself," the commissioner said. "I will give the matter more thought. It is worth looking into."

Koutsky Prefers His Plan.
 Koutsky submitted to city council by myself and Commissioners Hummel and Noyes was better, in my opinion, than the Dunn plan," said Commissioner Joseph Koutsky. "Dunn would not take our plan, which was simple and effective."

Commissioner Dunn proposes that a traffic bureau be established in the city hall and that violators call there after their cars have been tagged.

"We have too many bureaus now," said Commissioner D. B. Butler. "I am afraid that Dunn's plan would be more involved in politics. Better not divide the police court."

LEASE DECISION IS WITHHELD

Rome Miller Sues M. E. Smith Firm

Federal Judge T. C. Munger withheld his decision on the right of the trustee of the Burgess-Nash company to hold a lease on the Baum building, following a two-hour hearing at the federal building Saturday morning.

Judge Munger said he would confer with Judge Woodrough before giving a decision.

A further echo of the M. E. Smith case came Saturday in the filing of a suit by Rome Miller against the M. E. Smith Building company, asking that all holders of preferred stock issued by that company be placed upon an equal basis.

The building company, in financing construction, issued preferred stock in the amount of \$692,500. In order to make the issue more attractive to investors it was divided into series of \$50,000 each, the series coming due on different dates. The first series, due May 31, 1923, was paid in full. The second series and all series thereafter have not been paid. The purchase made by Rome Miller was in the amount of \$25,000 and is due May 31, 1924.

In his suit Mr. Miller calls attention to the articles of incorporation of the M. E. Smith Building company, which provide that in the event of dissolution before the final payment of the preferred stock, then all of the stock and accumulated dividends shall immediately become due and payable.

William J. and Robert H. Hotz are attorneys for Mr. Miller. They advise that the suit is a friendly undertaking with the consent of the officers of the building company. It is understood that eventually the preferred stockholders will endeavor to organize a new company to take over the M. E. Smith buildings and place them on a financial basis in conformity with the earning possibilities of the buildings.

The supply of suckers is always equal to the demand of charlatans.

Omaha Lincoln **HAAS BROTHERS** Minneapolis New York

Monday—in the "Gray Shop"
A Feature Selling of
Cordo-Crepe
(extra size)
DRESSES

BUILDING TRADES IN CAPITAL FIGHT

Washington, March 27.—Possibility of a far-reaching controversy in the local building trades was indicated today when the Master-Masons' association decided to lock out the stone cutters' union.

The lockout order was approved at a meeting of 100 financiers, real estate operators and contractors, which formed a committee to combat further wage increases.

Organizations already on record as demanding higher wages include stone cutters, painters, steam fitters, plumbers and an important section of the carpenters.

Horses Bring Good Prices.
 Beatrice, March 27.—At the S. F. Snyder farm sale near Blue Springs, 10 head of horses sold for \$100 to \$121 a head. Cattle likewise were in demand, bringing from \$40 to \$52 a head. Hogs brought top-notch prices.

Jury Gives \$1,000 Verdict for Scar

Waitress Wins Auto Accident Suit; Four Women in Panel.

A disfigured countenance means something to women jurors, and as a result Virginia Roberts, Bluffs waitress, was awarded \$1,000 damages Saturday morning for a facial scar by a jury on which there were four women.

Mrs. Roberts received the scar in an automobile accident at Pearl and Fifth avenue last June, when the car in which she was riding collided with one driven by Robert E. Freed.

She brought suit for \$3,763 damages against Freed, complaining that the cut on her face disfigured her and damaged her to that extent.

A woman—Marie Bussey—was foreman of the jury. The eight men and four women of the jury turned in a sealed verdict Friday evening. It was opened Saturday morning.

Air Field Hangar Burns.
 St. Louis, March 27.—Nineteen airplanes were destroyed in a fire of alleged incendiary origin which consumed a frame warehouse of the Robert Aircraft company at the Lambert-St. Louis flying field, Bridgeton, Mo. The loss was estimated at \$142,000.

Omaha Placed on Big Show Circuit

Auditorium Here to Be Scene of Large Productions Soon.

Omaha is to be placed on a circuit with other large cities for attractions of magnitude which can only be given in large halls or auditoriums, according to Charles A. Franke, managing director of the Municipal auditorium, Saturday.

An organization of the managements of the big auditoriums was recently formed at Memphis, Tenn., to be known as the Auditorium Managers' association. Franke was named a director.

The organization will be incorporated under the laws of Illinois and will be a nonprofit organization. The formation of the organization will mean the revival of some of the big stage productions.

Franke said the organization will not be under way with the large attractions until late this fall, but by 1926 he hopes to see things in such a way that many of the largest productions will be seen by Omahans.

Included in the attractions will be industrial shows and demonstrations of growing importance.
