Not Much From Cleveland. Presenting T. F. Ryan! Great-Newton Smiles. These Italians Welcome. By ARTHUR BRISBANE

News from the republican convention, not much. Many believe that Mr. Hoover will be nominated for vice president, as a rugged westerner from California, perhaps to offset McAdoo's California "orkin" should the democrats choose McAdoo. Or it may be because Coolidge comes from so far east.

You will be able to read the republican convention platform today. It won't startle or frighten you with radicalism. On the contrary, the document will make it clear to you that everything is for the best possible of the world, and will remain so, if the country is careful to preserve the republican party, and obey the law.

After long discussion republicans decide to give women half of the places on their national committee. What sympathetic interest politicians do take in women voters they can see. They have changed their mind from "woman's place is in the kitchen," to "woman's place is on the national committee." If you are asking yourself, "whom will the democrats nominate," don't overlook Mr. Thomas F. Ryan of New York.

Mr. Ryan, who got New York's subway and sold them to J. Pierpont Morgan, has since bought diamond mines in Africa, much real estate in Paris, a few tobacco companies and some other things. But he hasn't lost interest in politics.

While "Al" Smith is the active boss of Tammany Hall, Thomas F. Ryan may be described as the owner of Tammany Hall. In any case Tammany will do about as he says. And T. F. Ryan does not love W. G. McAdoo. Why, no body knows. It is said Ryan thinks McAdoo and John Skelton Williams, combined, were too severe with a Washington bank for which Mr. Ryan had a friendly feeling.

Mr. Ryan isn't strong enough, as Bryan proved in Baltimore, to name the man he wants, but he may be strong enough to prevent the nomination of a man that he doesn't want. That's to be taken into account when you make your "book" on the democratic nomination.

In his celestial home, associating with Shakespeare, Beethoven, Michael Angelo, Archimedes, Aristotle and the rest of the earth's 10 greatest graduates, Newton smiles a sarcastic smile today. Prof. Ehrcke, heavy, solid German scientist, says that Einstein's attack on the Newton theory is just "a bluffing of the scientific world." The Deutsche Zeitung says: "Kant and Newton remain the princes of science."

Newton is the real prince, head of them all. Next come Galileo, Descartes, Kepler, Copernicus, Tycho Brahe. Kant is in another and more uncertain class—philosophy.

Observe, please, that the six greatest astronomers, celestial scientists, that ever lived, come from six different nationalities. Copernicus, a Pole; Tycho Brahe, a Swede; Kepler, German; Galileo, Italian; Descartes, Frenchman, and Newton, king of them all, most magnificent mathematical mind ever born on this earth, an Englishman.

wealth on earth, which is human intelligence and ambition. Let's be grateful therefore for the small group of 1,562 sailors, and wish them success in this country, which, by the way, their compatriot, Christopher Columbus, discovered for us.

A new locomotive, just tried in the east, interests you. It is a whole power plant in itself, burns oil, changes that into electricity, and runs by electricity.

A boy can learn to run it in 10 minutes. It has great power and you are told it uses only 10 to 15 cents worth of fuel per hour. That won't please the mine owners, but it shows how much fuel has been wasted in power production hitherto.

When Americans decide to control their public servants they learn from France. The French people decided that they no longer wanted Millerand for president, and made their meaning clear yesterday. Millerand resigned, leaving his fine palace of the Elysee with a salary of 1,800,000 francs, which in normal times would be worth \$360,000 of our money. Of all people on earth, none is more efficient than the French.

18-Inch Italian Bombs July 4

Fontenelle Park Celebration Fund Growing; More Cash Needed.

Eighteen-inch Italian bombs which break over 1,000 feet in the air and make as many as six different breaks will be one of the features of the annual Fourth of July celebration at Fontenelle park this year. There will also be hundreds of other bombs, beautiful set pieces and a reproduction of the battle of Verdun to end the display.

Women solicitors, under Karl Keim, are collecting donations for the fireworks fund. Checks may be mailed to C. H. Timme, Merchants National bank. They should be made payable to the Fontenelle Celebration association.

Charles Gardner will lead 10,000 school children in national airs as a number of the yearly program.

Cotner College Day Observed in Convention

Institution's Activities Shown in Film—Sessions of Disciples of Christ Close Today.

Aurora, Neb., June 12.—As many who were below the age of 14 years came into membership in the Christian churches (Disciples of Christ) last year as those above that age, said Jessie M. Bader of St. Louis, national superintendent of evangelism, at the state convention of the Christian churches here. In 1920 the total of 1,000,000 new members in five years was adopted. Last year the disciples had \$8,000 net increase, the third largest total of all the Protestant bodies, and the largest percentage increase of any of the Protestant bodies.

Two hundred thirty-seven delegates were registered Tuesday night, the first day of the convention. The total will undoubtedly exceed 300. Amended articles of incorporation were adopted.

Charles F. Stevens of Bethany was elected president of the convention in place of Rev. Dr. H. H. Harmon, who was injured in an automobile accident while on his way to Aurora, Rev. Charles A. Fitch, pastor of the central Christian church of Kansas City, Kansas, popularly known in Kansas as the governor's pastor, because of his pastorate in Topeka, is giving a sermon-address each day.

Thursday was Cotner college day with addresses by the college representatives, a banquet and the college film of life and activities.

Friday, the last day of the convention, is women's day, and is the special recognition of the golden jubilee celebrating the 50th anniversary of the organization of the national women's missionary work.

Four simultaneous conferences are held daily at 9 o'clock. The one on religious education is led by Lucy Wetzel of Des Moines, elementary superintendent of the northern district, and Glen McRae of Bethany, superintendent of religious education for Nebraska. Rev. Dr. J. W. Hilton of Lincoln, university pastor of the Disciples, leads the conference on that work. The conference on Cotner is in charge of Peter B. Cope, field secretary of Cotner college for Nebraska. Women's work conference is directed by Miss Cora E. Henry of Lincoln, general secretary of the Nebraska Christian Women's Missionary society.

Women solicitors, under Karl Keim, are collecting donations for the fireworks fund. Checks may be mailed to C. H. Timme, Merchants National bank. They should be made payable to the Fontenelle Celebration association.

Charles Gardner will lead 10,000 school children in national airs as a number of the yearly program.

MRS. WILLIS GETS LIFE SENTENCE

Los Angeles, June 12.—Mrs. Margaret Willis, recently convicted of the trunk murder of Dr. Benjamin Baldwin, formerly of Denver, today was sentenced to life imprisonment in San Quentin prison. Her attorney filed affidavits that a woman juror had been browbeaten into voting for a verdict of guilty.

The defense, in giving notice of appeal after a motion for a new trial had been overruled, also filed an affidavit, charging that a deputy sheriff had delivered evidence to the jury room without a court order and contrary to law.

GARDENER'S ARM IS AMPUTATED

James McDonald, gardener for Morris Miller, Seventy-fifth and Dodge streets, suffered the amputation of his right arm Wednesday. The tendons of the arm were cut in an auto accident several weeks ago and blood poisoning set in.

Will Coolidge Tame His Rebellious Followers?

You will surely wish to read this week's issue of THE LITERARY DIGEST, on the newsstands today. The leading article presents the record of the President and his party in the present Congress. The strange sight of a party leader whose party majority in Congress has done so many things he didn't want done, and refused to do most things he wanted done is rendered stranger by the fact that the success of the Republican party in the fall elections hinges upon its support of this same chief. This article shows the subject from all angles, including also the opinions of Democratic newspaper editors. Public opinion East, West, North, and South is represented. While the Raleigh News and Observer declares that "the propaganda to make Coolidge better than his party is well greased and well oiled," the Philadelphia Public Ledger believes that "the country has discovered that Coolidge's stock is not in the show-windows, but that it is sufficient to meet all demands on it."

But this is not the only news-feature in THE DIGEST this week that will challenge your attention. Among some of the others are: Japanese Wrath at Exclusion. Another Twist for the World Court. The Klan and the Democrats. To Save the Child From Slavery. "The Night Mail" Across America. The New Irish Peril to England. Germany's Rich Tourist Drive. Nordics and Other People. A Monument to the Boll-Weevil. Fever as a Blessing.

A LAUGH A DAY KEEPS THE DOCTOR AWAY! A smile is the golden key which unlocks the hearts of humanity, but a laugh is a tonic for the individual health. It stimulates the spirits and purges the system of the poison of depression. Gladness supplants dejection; sunshine shuts out gloom. It makes the heart throbb a little easier and the stomach assimilate food faster. Laughter builds stronger body tissues, and FUN from the PRESS is the all-American prescription for laughter. It contains the cream of the chuckles from newspaperdom. The cleverest jesters and jokesmiths from the ends of the earth contribute their happiest foolery. There is a snicker with every flicker of the film—enough mirth for two laughs every day—and a fresh supply at your neighborhood theater every week. As a final covenant, FUN from the PRESS is created and compiled by the expert editors of The Literary Digest. At good motion-picture theaters everywhere. Distributed by W. W. Hodkinson Corporation.

Clean, Colorless Liquid Banishes Gray Hair. Results in a Week. Science has again scored a triumph in the discovery of a remarkable clean, colorless liquid known as Kolor-Bak which contains properties that quickly restore gray hair to its original color no matter what the cause was. If you are gray just apply this liquid and your hair will soon take on the actual color it had in the past. Not a trace of grayness will remain. Gray hair is hair that has ceased to receive its normal supply of coloring matter or pigment from certain tiny cells in the scalp, because these cells have become inactive from illness, shock of some kind, scalp disease, dandruff, infection, neglect of the hair, or lack of circulation, etc. But no matter what the cause, it is simply amazing to see how grayness disappears when Kolor-Bak is used.
