To Cure Consumption Forever. Take Cascarets Candy Cathartic. 10c or 25c. If C. C. G. fail to cure, druggists refund money.

The cleaner the culture the better the crop.

It Hangs On

If it was only health, we might let it cling. But it is a cough. One cold no sooner passes off before another comes. But it's the same old cough all the time. And it's the same old story, too. There is first the cold, then the cough, then pneumonia or consumption with the long sickness, and life trembling in the balance.

Ayer's Cherry Pectoral

loosens the grasp of your cough. The congestion of the throat and lungs is removed; all inflammation is subdued; the parts are put perfectly at rest and the cough drops away. It has no diseased tissues on which to hang.

Dr. Ayer's Cherry Pectoral Plaster

draws out inflammation of the lungs.

Our Treatment of Spanish Captives. Never before in history was there a case where a defeated and captive enemy received such generous treatment as we gave the Spaniards. Equally astonishing are the cures brought about by Hostetter's Stomach Bitters. Never has there been so successful a medicine for stomach and liver disorders like dyspepsia, indigestion, biliousness and constipation.

The present is the child of the past and the father of the future.

Beauty is Blood Deep. Clean blood means a clean skin. No beauty without it. Cascarets, Candy Cathartic cleans your blood and keeps it clean, by stirring up the lazy liver and driving all impurities from the body. Begin to-day to banish pimples, boils, blotches, blackheads, and that sickly bilious complexion by taking Cascarets, beauty for ten cents. All druggists, satisfaction guaranteed. 10c, 25c, 50c.

Artificial Lakes on Farms.

We have noticed in some parts of Illinois a number of small artificial lakes constructed in the pastures where the soil is suitable. Recently we saw not less than half a dozen of these on a single large farm. So far as we could see they supplied the only water available for the stock, and the latter not only drank the water but bathed in it. There was no outlet, and the supply was gathered mostly from the rains. The result of such conditions is that the water becomes stagnant and foul. Water weeds and water life multiply rapidly and the possibilities of disease are greatly increased. It would be better to build fewer artificial ponds and have them more sanitary in construction.

The desideratum is to produce a pond in which there will be a current of water. In such farms as we refer to it will be found impossible to produce such ponds without going outside of the natural resources of the pasture. In many townships there are no brooks that run throughout the year. The dependence in such cases must be placed in a wind-mill, and this is the reason why fewer and better ponds should be constructed. A wind-mill will not give much of a stream, it is true, but it will be enough to prevent the water from becoming entirely stagnant.

It will take some study to make the water run through the whole pond, but this can be accomplished by placing obstructions in the way of the current, continually deflecting it. Where there are low swales it will not require much of a lift to get the water to the top of the ground. This will increase the amount of water that can be pumped. If gravel and sand be near and plentiful, it might be advisable to use some of it for the bottom and sides, as that would probably have some influence on keeping down the growth of slime in the ponds. It would be also well to suggest that the hogs be not allowed to divide the possession of this pond with the other stock. The hogs seem to do more than any other animals to keep such places in an unwholesome state.

Preparing Ground for Tobacco.

There are many good people that do not like tobacco and think it should not be raised. Yet we are forced to confess that the growing of tobacco seems to be on the increase and to be coming more into prominence every year as an agricultural crop. The zone of its influence seems to be enlarging in an agricultural sense. Parts of the country that were formerly regarded as unfitted for the growing of this plant are coming into prominence as tobacco growing regions. The tobacco plant holds a unique place in our agriculture. We cannot look upon it either as a food or ornamental plant. In itself it is a poisonous weed. It was formerly thought that tobacco growing greatly exhausted the ground, but under proper methods this is believed now not to be the case.

Growers of tobacco say that the culture of the soil should begin a long time before the culture of the plant, to get the best results. The land should be thoroughly plowed and harrowed in the fall. Stable manure should be used in large quantities, and some follow the practice of cutting it on the ground before the plowing is done. Others put it on after the field is plowed and harrow it in. At least this should be done in the fall to give the manure time to decay, as the tobacco plant grows so rapidly that there is no time for manure to undergo chemical changes after the seed has sent out the shoot. It is advised to avoid the use of manures too heavily nitrogenous, and to use considerable potash. The ground should be well harrowed, and there are growers that assert that a tobacco field cannot be harrowed too much. After the plants are on the ground cultivation should be frequent and thorough.

Trick of German Stockmen.—The following paragraph is clipped from the London News: The enterprising German merchants have lately begun to run the proverbial carriage and six through the Contagious Disease Act and regulations of the agricultural department. Under the regulations based on that act, the prohibition of the importation of cattle from Germany is strictly enforced. A method of evading the requirements of the act has, however, been discovered, and is now in operation. The German merchants ship cattle on steamers, and send with them butchers, who kill the beasts during the passage and have the carcasses all dressed for market by the time the vessel arrives at the English port. This week a supply of fresh German meat thus prepared was landed in the Tees and at once sent off to the Manchester market.

Crushed Oats, Cut Hay and Straw are Better than Whole Oats and Hay.—The London General Omnibus Company have recently completed an interesting experiment with their horses. They divided them off for the purpose of testing the effects of two systems of diet. The first section were given daily 16 pounds of crushed oats, 7½ pounds of cut hay and 2½ pounds of cut straw. The other section had 19 pounds of whole oats and 13 pounds of uncut hay. It was found that the condition of the animals under No. 1 diet had decidedly improved, while at the same time a saving was effected of 2½d per horse a day. The whole stud is accordingly now placed on the first-named dietary.—Ex.

Tree Borers.—For borers near the collar of fruit trees the use of various alkaline washes is desirable, as they keep the bark smooth and the eggs are not likely to be deposited. The addition of paris green, lime, sulphur and carbolic acid is recommended by some orchardists.

Deafness Cannot Be Cured by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; and the cases out of ten are caused by catarrh which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

HAPPY MOTHERS AND HEALTHY CHILDREN.

Lydia E. Pinkham's Vegetable Compound Goes Straight to the Cause of All Female Troubles and Assures a Healthy Maternity.

Mrs. M. SINGER, 104 Hudson Ave., Rochester, N. Y., writes to Mrs. Pinkham as follows:

"When I applied to you for advice I had been suffering some years from debility, nervousness, etc. I had had several miscarriages and was pregnant when I wrote to you.

"I am grateful to say that after taking three bottles of Lydia E. Pinkham's Vegetable Compound I was considerably better, and after using three more it brought me where I am to-day. I am well, and the mother of a three-months' old baby.

"Doctors had failed to help me. I have no one to thank but Mrs. Pinkham and her wonderful remedy."

Mrs. ELLA DUNGAN, Reeder's Mills, Iowa, writes:

"DEAR MRS. PINKHAM:—I thank you for what your medicine and advice have done for me. "I have a baby two months old. When he was born I was sick only fifteen minutes, whereas with my other children I was sick for two or three days, and also suffered with my left leg, and could get nothing to relieve the pain but morphine. My leg did not trouble me at all this time. I had no after pains and was not as weak as I had been before.

"I cannot praise Lydia E. Pinkham's Vegetable Compound too highly. May God bless you in your noble work."

Mrs. J. W. PUEBT, Medford, Oregon, says:

"My health, also the baby's, we owe to Lydia E. Pinkham's Vegetable Compound."

Mrs. JOHN W. LONG, Wyoming, Iowa, writes:

"I had shooting pains all over my body, was very weak and nervous. I could not straighten up. I wished to become a mother but was afraid I never could. Seventeen months ago I got some of your Vegetable Compound, and after taking half a bottle was much relieved. I took four bottles and was cured. Now I have a big baby boy which I feel I owe to your Compound. Many thanks for your kind advice."

CATARRH CURED AS IF BY MAGIC. EVERY MAN AND WOMAN SHOULD READ.

Lives of suffering and misery from this repulsive disease turned into health and happiness through the use of

Richard's Catarrh Expellant.

After years of special study and practice in diseases of the Mucus Membrane, and especially of catarrhal troubles, we have at last developed a treatment that will positively and permanently cure Catarrhal Diseases in whatever form they may be. After fully demonstrating the merits of this treatment in a private practice of over five years, and successfully treating and curing the most obstinate cases, we challenge the World for a case of Catarrh, or Catarrhal Disease, our CATARRH EXPELLANT will not cure.

Deafness, resulting from Catarrh, quickly cured.

Loss of Sense of Smell and Taste quickly restored.

All repulsive symptoms peculiar to Catarrhal troubles, as foul breath, nasal discharges, Hacking, Coughing, and Spitting, relieved at once.

Catarrhal Affections of Stomach, Liver or Kidneys, causing Indigestion, Sick Stomach, Nausea, Weakness, Depression, Loss of Amputation and Energy, are quickly cured.

Most of the weakness of men and women is caused by Catarrhal diseases. The poisonous discharges find their way to the stomach and into the blood, and distributed throughout the entire system, affecting the Vital and Life Forces and causing those Organic and Nervous Weaknesses so dreaded by every man and woman.

These weaknesses are cured by CATARRH EXPELLANT and perfect health and strength fully restored. Over five hundred testimonials in praise of this treatment received since January 1, 1897. If you have Catarrh or any Catarrhal Disease,

RICHARD'S CATARRH EXPELLANT

Will cure you just as sure as water will quench thirst. Write to-day for testimonials and valuable instructive paper on these diseases. SENT FREE. Address
