Boils and Pimples Give Warning.

AN UNFAILING SIGN THAT NATURE IS APPEALING FOR HELP. When Nature is overtaxed, she has her own way of giving notice that assistance is needed. She does not ask for help until it is impossible to get along without it. Boils and pimples are an indication that the system is accumulating impurities which must be gotten rid of; they are an urgent appeal for assistance—a warning that can not safely be ignored. To neglect to purify the blood at this time means more than the annoyance of painful boils and unsightly pimples. If these impurities are allowed to remain, the system succumbs to any ordinary illness, and is unable to withstand the many ailments which are so prevalent during spring and summer.

Mrs. L. Gentile, 2004 Second Avenue, Seattle, Wash., says: "I was afflicted for a long time with pimples, which were very annoying, as they disfigured my face fearfully. After using many other remedies in vain, S. S. S. promptly and thoroughly cleansed my blood, and now I rejoice in a good complexion, which I never had before."

Capt. W. H. Dunlap, of the A. G. S. R. R., Chattanooga, Tenn., writes: "Several boils and carbuncles broke out upon me, causing great pain and annoyance. My blood seemed to be in a riotous condition, and nothing I took seemed to do any good. Six bottles of S. S. S. cured me completely and my blood has been perfectly pure ever since."

S. S. S. FOR THE BLOOD

is the best blood remedy, because it is purely vegetable and is the only one that is absolutely free from potash and mercury. It promptly purifies the blood and thoroughly cleanses the system, builds up the general health and strength. It cures Scrofula, Eczema, Cancer, Rheumatism, Tetter, Boils, Sores, etc., by going direct to the cause of the trouble and forcing out all impure blood.

Resolutions and Suggestions.

On Friday, Dec 1st, the Woman's Christian Temperance Union held their regular mothers' meeting at the Congregational church. Much of the regular business was carried over to Friday of this week, Dec. 15th, this meeting to be held at the home of Mrs. J. I. Lee, in west part of town. Among the things attended too was suitable acknowledgment, by the Union, of their grateful appreciation of the collection on Thanksgiving day, which was donated to this work. They also ordered a picture of Miss Frances E. Willard for the High School building, that the pupils may become familiar with the dear face whose life and thought were used in an endeavor to make safe paths for the young. The following resolutions were unanimously adopted and the motion duly carried, that the city papers be requested to give them publication:

Whereas, We, the members of the Woman's Christian Temperance Union, in regular session assembled, do understand from statistics of good authority, that crime, immorality and vice are alarmingly on the increase among the youth of our land. Having, as mothers, wives and sisters of the young people and children; their welfare on our minds and hearts, we present the following resolutions:

First, That we ask the co-operation of the fathers and mothers, on these lines: That they inform themselves where their children spend their play-time; that they be allowed only sufficient time to reach their respective school buildings; that they be required to return to their respective homes immediately after the close of its sessions, and that on no account are their evenings to be spent on the street after dark, but rather seek to plan and interest them, and thus keep them in the safe shelter of their homes, unless properly escorted.

Second, That the custom of presenting the young ladies, in society, when arriving at a suitable age, has its recommendations, in this way: A young girl is shielded from evil associates until she shall have learned to judge others and to value herself, her character and her responsibility to God. To this end we plead that our girls be kept girls until mind, body and judgment are matured and character and right principles formed; and that our boys be boys, and enjoy their youthful days in a clean, legitimate way. We realize that many of them are wasting health and strength that should be carefully guarded in their immature years, and that youthful marriages, as a rule, are not abiding, as the evidences from the divorce courts abundantly testify, and that the degeneration of the American people will surely follow such conditions.

Third, We also ask that honorable body, the mayor and members of our city council, to cooperate with us and the parents in this way,—that all places of business be closed at a reasonable hour, thus removing much of the allurements for both old and young, and in this way releasing from duty those who have been behind the counters and in the offices since the morning hours, realizing that the All-wise Father knew our needs when he made the night for rest and sleep.

In all the foregoing we plead, not for our own alone, but for you and yours, the tempted and weak ones, and to insure to the innocent their rightful heritage.

All of which is duly submitted.

The Way to go to California

Is in a tourist sleeper, personally conducted, via the Burlington route. You don't change cars; you see the finest scenery on the globe; you make fast time.

Your car is not so expensively furnished as a palace sleeper, but it is just as comfortable, just as good to ride in, and nearly \$20 cheaper. It has wide vestibules, Pintsch gas, high-back seats, a uniformed Pullman porter, clean bedding, spacious toilet rooms, tables and a heating range. Being strongly and heavily built, it runs smoothly—is warm in winter and cool in summer.

In charge of each excursion party is an experienced excursion conductor, who accompanies it right through to Los Angeles.

Cars leave Omaha, St. Joseph, Lincoln and Hastings every Thursday, arriving in San Francisco on the following Sunday, Los Angeles on Monday—only three days from the Missouri river to the Pacific coast, including a stop over of 1½ hours in Denver and 2½ hours in Salt Lake City—two of the most interesting cities on the continent.

Too Carbolic Acid.

Word was received here, last Saturday, from Akron, of the sad and shocking suicide, by drinking carbolic acid, of Mrs. Carl Smith, formerly Mary Swartz, a bride of a night. Both are remembered by many here, both having been employed in the Commercial hotel here during the regime of T. A. Erb in that hostelry. The remains of the unfortunate woman were shipped here, Sunday morning, and from this point taken over to Herndon, Kansas, for interment. Her husband, Carl Smith, was a clerk in the Akron lunch counter, while she was a dining-room girl in the eating house at that place.

Is Baby Too Thin?

If so, there must be some trouble with its food. Well babies are plump; only the sick are thin. Are you sure the food is all right? Children can't grow if their food nourishes them. Perhaps a mistake was made in the past and as a result the digestion is weakened. If that is so, don't give the baby a lot of medicine; just use your every-day common sense and help nature a little, and the way to do it is to add half a teaspoonful of

SCOTT'S EMULSION

to the baby's food three or four times a day. The gain will begin the very first day you give it. It seems to correct the digestion and gets the baby started right again. If the baby is nursing but does not thrive, then the mother should take the emulsion. It will have a good effect both upon the mother and child. Twenty-five years proves this fact.

IVORY SOAP PASTE.
In fifteen minutes, with only a cake of Ivory Soap and water, you can make a better cleansing paste than you can buy.

Ivory Soap Paste will take spots from clothing; and will clean carpets, rugs, kid gloves, slippers, patent, enamel, russet leather and canvas shoes, leather belts, painted wood-work and furniture. The special value of Ivory Soap in this form arises from the fact that it can be used with a damp sponge or cloth to cleanse many articles that cannot be washed because they will not stand the free application of water.

DIRECTIONS FOR MAKING.—To one pint of boiling water add one and one-half ounces (one-quarter of the size case) of Ivory Soap cut in five minutes after the soap is thoroughly dissolved. Remove from the fire and cool to 100° F. (not less). It will keep well in an air-tight glass jar.

Professor Reno has spared neither time nor money to make this show the best on the road. Reno alone is worth more than the price of admission.
