M'COOK TRIBUNE. BUSINESS IN CONGRESS

Senate Will Probably Dispose of Army Reorganization Bill Early This Week.

APPROPRIATION BILLS WILL FOLLOW

River and Harbor Bill Will Be Debated Further in the House, but It is Forecasted That It Will Pass by Decisive Majority.

WASHINGTON, Jan. 14.-The army reorganization bill will continue to engage the attention of the senate, at least during the first days of the week. The opinion is quite generally expressed among senators that the bill will be acted upon by the middle of the week, and even the critics of the measure join in this prediction. Many phases of the question involved in the army bill remain to be considered and the general understanding is that there will be not a little discussion before the bill can be disposed of. The spech of Senator Platt of Connecticut last Friday in defense of the bill on general principles will call for replies, and there are also special features which will require more or less attention. Among these are Senator Daniel's amendment concerning the appointment of volunteers to offices in the regular army; the question of the disposition of officers who have held staff positions and the provision for the enlistment of Filipinos in the American army. The disposal of all these questions undoubtedly will fill the first two or three days of the week.

Senator Allison intends to call up the legislative, executive and judicial appropriation bills when the army bill is acted upon, but whether this and other aproportation bills to follow it shall occupy the exclusive atare on the calendar is a question which has not yet been absolutely determined. The present indications are, however, that the appropriation bills will be considered in advance of any other measures whenever they

are before the senate. When there are no appropriation bills to be taken up the ship subsidy bill will be discussed. There are still this measure, and already there is talk when it is taken up.

tor Gear. A program of miscellaneous matter will occupy the attention of the house during the coming week. The river and harbor bill, which consume one and possibly two days. Although the bill was criticised severely during the debate last week it is in no danger of failure. Most of the attacks came from members who were disap-, pointed in what the bill grants to their localities and the actual opponents of the measure will be overwhelmed when the final vote is reached. The District of Columbia committee which, under the rules, would be entitled to a hearing tomorrow, will demand a day later in the week if it gives way to the river and harbor bill. After the latter bill is disposed of the bill to revise and codify the postal laws will be taken up under a special order. It will be followed by the District of Columbia appropriation bill and the latter in turn by the postoffice appropriation bill if there is any remaining time.

GENERAL GRANT HOPEFUL.

American Commander Believes His District Fairly Pacified.

MANILA, Jan. 14.-General Grant, who is endeavoring to quell the latest insurrection in his district, and who is possibly commanding his scouts at the eastern end, reported today that he had encountered a number of bands south of Bulloc mountain, all says that 100 of the enemy, who were well intrenched, made considerable resistance, but were ultimately driven from their positions. Four bodies of insurgents were found. The American casualties were a sergeant and one private of Troop A, Philippine cavalry, wounded.

In the opinion of General Grant, his district is now fairly pacified, with the exception of the locality south of Bulloc mountain, and the province of Pampanga is ready for civil government. It is expected Pampanga will be the first province in which civil government will be ap-

A hot rifle fire and shell fire with two field pieces and a Maxim was maintained for six hours. An armored train and reinforcements were sent from Pretoria, but before they had arirved upon the scene the garrison had driven off the Boers, who retired unmolested with a transport train half a mile long.

The Boers blew up the line beyond Kaalfontein, compelling the mail train to return here. It is suposed their object was to obtain supplies, a great quantity of which is stored at Kaalfontein. The British had no cas-

Small Methods to Circumvent Transatiantic Competitors.

BURLEIGH BILL PASSES

Senate Adopts the Measure Just as It Came From the House.

PROVISION FOR THE VOLUNTEER

Vigorous Attack on Proposed Discretionary Power of President to Regulate Size of Army-Bacon, Platt and Others Eave Something to Say.

WASHINGTON, D. C., Jan. 12.-In the senate today a vigorous attack was made upon that portion of the army bill which confers upon the president discretionary power to increase the strength of the army to the maximum fixed by the bill. Mr. Bacon of Georgia began the attack, and Mr. Platt of Connecticut, replying, maintained that discretionary power ought to be conferred upon the president, and expressed astonishment that anybody should entertain a fear that the power would ever be abused.

Mr. Bacon declared that he would rather see his party condemned to universal and never-ending banishment from political power than to see such authority placed in the hands of the president. An amendment opening the way to the appointment of volunteer officers to grades as high as that of captain in the regular establishment was adopted.

Just before adjournment Mr. Carter of Montana called up the bill apportioning the representatives of the United States among the several states. Without debate it was passed precisely as it came from the house. It now goes to the president for his signature.

Consideration was resumed in the senate of the army reorganization bill. Mr. Hawley, chairman of the committee on military affairs, withdrew the committee amendment, providing for the retirement of officers on the active list of the army. Senator Teller then also withdrew an amendment to that section.

Mr. Hoar (Mass.) formally offered the amendment of which he had given notice, providing that no further military force shall be used in the Philippines except such as may be necessary to keep order in places in the peaceable possession of the United States, etc.

Mr. Carter, a member of the committee on military affairs, moved that the amendment be laid on the table. The motion prevailed, 32 to 19.

Mr. Pettigrew's amendment providing that one-third of the appointmets to commissioned rank in the regular army should be made from the officers of the volunteer army-the amendment which was under discussion when the senate adjourned last evening-was defeated-38 to 6.

Mr. Bacon (Ga.) moved to strike cut the provision that the president in his discretion may increase the number of corporals in any troop of cavalry to eight and the number of privates to seventy-six. He said he did not believe the president should have discretionary power to regulate the size of the army.

Mr Daniel (Va.) offered an amendment providing that volunteer officers may be designated for examination and those who establish their fitness house relative to the bill establishing | may be appointed to the grade of capa pension court of appeals. Discuss- tain in the regular army as well as to the grade of first and second lieutenants as provide for by the senate committee's amendment. Mr. Daniel said he felt it was due the volunteer officers that they should have proper opopinion as to how I will vote at the portunity for advancement in the meeting of the executive committee in army. The amendment was adopted,

In response to a question by Mr. Berry (Ark.), Mr. Platt said he feared the pending bill did not confer upon the president the authority to increase the army from 58,000 to 109,000 at any time. That power, he thought, ought to be conferred upon the pres-, ident

"If we could eliminate politics and arguments for political effect from this chamber for a single day," he declared, "I believe it would be the unanimous sentiment that there should be some flexibility in the army."

Replying to Mr. Platt, Mr. Bacon said he thought the country had fallen upon an evil day when a senator could rise in this chamber and express views which he regarded as dangerous to the liberties of the people and productive of one-man power, and it was an evil day truly when the senator reflected the attitude of the dominant party.

WILSON SIDES WITH THE COW

He Addresses Senate Committee in Support of the Oleomargarine Bill.

WASHINGTON, Jan. 11.-Secretary Wilson made an argument before the senate committee on agriculture today in support of the Grout oleomargarine bill. He said the measure was intended to protect the farmer and the public at large and should become a law. Speaking of the consumption of butter and of oleomargarine, Mr. Wilson said that the amount of butter disposed of | Dermott of Jersey City, N. J. It takes annually is about eighteen pounds per capita and of oleomargarine something over one pound, and he said in response to Judge Springer that he considered this dangerous competition. He was of opinion that there was danger in the imitation of butter by the use of coloring matter and thought that in time the use of improved methods would result in driving renovated butter out of existence. The secretary said he did not accept the opinion that the regulation of oleomargarine business would injure the beef cattle business, and said that farmers will find it profitable to keep and fatten of exaggeration in this. If a young their own beeves. Incidentally, he expressed the opinion that farmers of the south would get far more in the way of returns by raising cattle and crops necessary to that end than they would out of the sale of a few thousand barrels of cottonseed oil to the oleomargarine makers.

He said that more than half the substance used in Washington for butter is oleomargarine and that to make certain of getting the real article he had butter for his own table shipped direct from a creamery in Iowa,

THE DUTY OF MOTHERS.

What suffering frequently results from a mother's ignorance; or more frequently from a mother's neglect to properly instruct her daughter!

Tradition says "woman must suffer," and young women are so taught, There is a little truth and a great deal woman suffers severely she needs treatment, and her mother should see that she gets it.

Many mothers hesitate to take their daughters to a physician for examination; but no mother need hesitate to write freely about her daughter or herself to Mrs. Pinkham and secure the most efficient advice without charge. Mrs. Pinkham's address is Lynn, Mass.

Mrs. August Pfalzgraf, of South Byron, Wis., mother of the young lady whose portrait we here publish, wrote Mrs. Pinkham in January, 1899, saying her daughter had suffered for two vears with irregular menstruationhad headache all the time, and pain in her side, feet swell, and was generally miserable. Mrs. Pinkham promptly replied with advice, and under date of March, 1899, the mother writes again that Lydia E. Pinkham's Vegetable Compound cured her daughter of all pains and irregularity.

Nothing in the world equals Mrs. Pinkham's great medicine for regulating woman's peculiar monthly troubles.
