LOGEGA AND HIS FORGE SURRENDER

Maxillot's Submission Will Mean Pacification of the Province—Lack of Food Distresses Insurgents—Constabulary Punishes the Insurgents.

MANILA, Oct. 28.—The constabulary reports a fight with insurgents near Passi, province of Iloilo, island of Panay, in which twenty-five insurgents were killed and three captured, together with a quantity of arms and ammunition.

The news from General Hughes regarding conditions in the island of Cebu is encouraging. Logega has surrendered with his entire force, with one cannon and several rifles, while General Hughes is negotiating for the surrender of Maxillot, who styles himself "governor militar politico."

His surrender will mean the pacification of the province.

Lack of food and the harassing effects of the aggressive tactics now pursued by the Americans forces are having the influence upon the natives. It many place where rice is doled out by the government only enough is given for one meal, so that it is hardly possible for any large quantity to find its way to the insurgents.

It is believed that the recent manifestations in the island of Samar were chiefly due to the lack of food, the insurgents finding it necessary to make outlets to the coast in order to obtain supplies.

The first labor problem growing out of the new tariff has arisen. A hat and umbrella factory, employing 600 hands, has found it necessary to close. The lawyers are making a protest to the commission, urging protection, as the same goods from Germany can be sold at half the price it takes to manufacture them here.

Dispatches from Cahtalogan, Samar, say that stringent and energetic measures are being taken to suppress the insurrection in that island. General Smith has notified all the presidents and head men of the Pueblos that in order to avoid trouble they must surrender all arms and turn over the persons implicated in the Balingiga massacre before November 6, threatening that otherwise the presidents will be sent to the island of Guam, the villages destroyed and the property confiscated.

LAST HOURS OF ASSASSIN

Czolgosz Spends Final Day Immured From Vision of Man.

AUBURN, N. Y., Oct. 28.—The time that Leon F. Czolgosz, assassin of President McKinley, has to live is reckoned by hours now, but there has been no relaxation of the stringent rule under which the prisoner has been secluded since his confinement. Auburn prison was closed yesterday to any who sought the assassin and so it will remain until the prisoner has paid the penalty which the law enacts.

In fact, the plan to deprive Czolgosz living of any no has been extended to Czolgosz. Immediately after the execution the clothing of the murderer, with the vast accumulation of mail that came to the prison for him, will be burned and if possible the request of the parents of the dead man for his body will be evaded. It is feared that the removal of his body to Cleveland would lead to scenes of an unfortunate nature and the prison officials are very anxious to avoid anything of the kind. The plan of burning the clothing and letters of the murderer will prevent the exhibition of relics by those who pander to the morbid.

The hour of 7 on Tuesday morning is the time set by Warden J. Warren Mead for the execution. Various reports changing that time have gone through Auburn. One rumor places the time at 7 o'clock Monday morning, but that is discredited by the fact that Superintendent of State Prisons Cornelius V. Collins will not arrive here until 3 p. m. Monday afternoon and none of the regularly summoned witnesses has yet reached Auburn.

Care of the Complexion.

Many persons with delicate skin suffer greatly in winter from chapping. Frequently the trouble arises from the use of impure soap and cheap salves. The face and hands should be washed only in clear, hot water with Ivory Soap. A little mutton tallow or almond oil may be used after the bath to soften the skin. ELIZABETH PARKER.
