

OVER THE TEACUPS

Stole Collarettes.
The vogue of the stole collarette is an established fact and its number and variety increase day by day. The two shown are among the best offered and afford a choice of shape and style.

Number One is made of mole skin with trimming of ermine and is shaped to form a deep round collar at the back, with stole ends that are narrow at the waist line and broader at the lower edge, where they terminate in points.

4609 Stole Collarettes, one size.

Number Two is shown in Persian lamb cloth with black silk ornaments, making a finish at the front. The collar portion is square at both front and back and the stoles are wider at the ends than at the collar.

Both designs are available for all the materials used for collarettes, fur, lamb cloth, velvet and the like.

To cut either one will require 1 1/2 yards 27 inches wide. The pattern 4609 is cut in the medium size only.

Apple Tapioca Pudding.

Suppose you put a half cup of tapioca to soak over night. I have a white-lined granite kettle, and put the tapioca to soak in that. In the morning put a little water in; let it simmer slowly, until transparent; put a tablespoon of butter in, a little salt, nutmeg, a stick of cinnamon, sugar to taste; then pare and quarter apples and put in. Put in as many apples as you want, and cook until apples are tender. You will have something pretty nice. You can have rhubarb and tapioca, strawberries and tapioca, raspberries and tapioca. Cook on top of stove.—November First.

Seven Gored Skirt.

The seven gored skirt that flares freely and gracefully at the lower portion retains all its vogue in spite of the many novelties introduced. This one allows of either the inverted plaits or habit back, and is trimmed with shaped straps that add much to its style. As shown it is made of nut brown hopsacking, with straps of broadcloth piped with velvet, and is stitched with corticelli silk, but all materials used for skirts and for entire gowns are suitable.

4615 Seven Gored Flare Skirt, 22 to 34 waist.

The skirt is cut in seven gords that are shaped to widen generously below the knees and to provide the fashionable flare. The back gores are cut for inverted plaits, but can be cut off at indicated lines when the habit effect is preferred. The straps are pointed at their ends and are arranged over the gores before the skirt is seamed.

The quantity of material required for the medium size is 9 1/4 yards 21 inches wide, 4 1/4 yards 44 or 4 1/2 yards 52 inches wide when material has figure or nap; 3 1/2 yards 44 inches or 3 1/4 yards 52 inches wide when material has neither figure nor nap.

The pattern 4615 is cut in sizes for a 22, 24, 26, 28, 30 and 32 inch waist measure.

PRETTY THINGS TO WEAR

Violet is a favorite color. Velvet ruchings trim frocks. Jeweled clasps are much liked. Painted wood buttons are noted. The best velvetens will not wear off.

Laced effects in ribbon are still noted. Walking skirts just touch the ground.

Riveted steel arrows trim smart hats. Oranges decorate a big brown fur hat.

Lace is conspicuous on some of the new hats.

Many delicate tones are beautiful with brown.

Forty-five inches is the poplar coat lengths.

It's a fad to have the slipper heels match the gown.

Coat tails of lace are clever on an evening toilet.

An odd panel skirt is arranged over a plaid skirt.

Latest in Linen Collars.

Stiff linen collars are acquiring more wonderful shapes each week, indicating a large reserve of ingenuity among their originators. Some of the latest—and also the prettiest—are designed with the idea of dispensing altogether with the supplementary bow or tie, therefore, little V-shaped extensions

in front, the fastening, of course, being effected at the back. Eminent original is one composed of alternate rows of the white linen and lattice work, the latter threaded through the velvet ribbon to match the frock or blouse, and tied in graduated bows in front, while another, embroidered with a heavy raised pattern in threadwork, boasted a triangular emplacement in front as a substitute for the tie.

A Moonlight Dress.

One of the most charming flights fashion has taken is in the form of a "moonlight dress." This most wonderful effect can be achieved with layers of filmy chiffon gauze, and sheer glistening liberty silk in these shades: silver, white moonlight blue, gray and other pale shades.

There have been sunset gowns in purple, rose, red gold, mauve cream and turquoise blue, and autumn gowns in the richness of color that season suggests, also winter costumes all white and cold and sparkling, but never before a moonlight effect with all its poetic fancy. Experts have proved how beautiful it can be in blending these requisite shades and materials.

Advantages of Fur Hats.

Poverty is sometimes a safeguard. The expensive and fashionable fur hat has been found unwholesome for the hair, and one worn as constantly

Girl's Suspender Costume.

Suspender frocks make one of the latest novelties for little girls and are exceedingly charming. This one is made with a box plaited guimpe of white lawn, while the dress itself is of rose colored cashmere, stitched with corticelli silk, and is delightful in color as well as style, but the design can be reproduced in any of the

4605 Girl's Box Plaited Suspender Costume, 6 to 12 years.

season's materials. In any shade that may be preferred. The suspenders, which make the essential characteristic, are delightfully childish in effect and also serve to keep the skirt in place.

The dress consists of the guimpe.

A DAINTY LITTLE WAIST.

Young girls are always charming when dressed in white. This pretty waist combines crepe de Chine with a bertha of cream lace and is exceedingly effective. The shirred yoke is a feature and the bertha gives the broad shoulder effect of fashion, while the sleeves are shirred to fit the arms snugly above the elbows, but form soft drooping puffs at the wrists. All

materials soft enough for shirring are appropriate and the design suits both the separate waist and the entire dress. The quantity of material required for a girl of 14 years of age is 3 1/4 yards 21, 3 1/2 yards 27 or 2 yards 44 inches wide with 7/8 yards of lace. A May Manton pattern, No. 4414, sizes 12 to 16 years, will be mailed to any address on receipt of ten cents.

as any woman finds it necessary to wear a hat would soon make the wearer bald. So women who have been envying your wealthier sisters this headgear comfort yourselves, for if they have the hat you have the unimpaired head of hair.

A Sensible Skirt.

The best material for an every-day skirt is twilled taffeta. It is firm, noiseless and soft enough to be unpretentious, and, in spite of the faded checks and plaids and Roman stripes, a black twilled taffeta, tight-fitted and plaited at the foot, escaping the ground a full two inches, is unquestionably a modest and profitable purchase.

Most Economical Gloves.

French kid gloves look fresh much longer than suede ones, and a kid that is soft and elastic is better than a hard one. If when wearing kid gloves your hands become hot, breathe into the gloves as soon as you take them off. This helps to prevent the kid from hardening.

Fashions for Wee Folks.

Pale green in the soft, cool shades is very pretty for sashes, hair bows and the like, to accompany white frocks.

Frocks for very small folk are in the French form, with long waist and much abbreviated skirt, standing out crisply in one-piece princess form.

The one-piece frocks take various forms. Most of them are plaited in side or box plaits from collar band to hem, and with them is worn a belt in Russian style.

White wool frocks are effectively trimmed with bands of bright plaid silk bordered by white fiber braid.

Stitched bands of silk in plain colors trim some of the plaid frocks, and when, as is often the case, the model has a sailor collar and scarf, the model has a sailor collar and scarf, this collar may be of the taffeta, heavily stitched at the edges, and the scarf will be of the silk.

THE OLDEST MAN IN AMERICA

Tells How He Escaped the Terrors of Many Winters by Using Pe-ru-na.

Mr. Brock's Age is 115 Years

MR. ISAAC BROCK, BORN IN BUNGOMSE CO., N. C., MARCH 1, 1788. His age is 115 years, vouched for by authentic record. He says: "I attribute my extreme age to the use of Peruna."

Born before the United States was formed.
Saw 22 Presidents elected.
Pe-ru-na has protected him from all sudden changes.
Veteran of four wars.
Shod a horse when 99 years old.
Always conquered the grip with Pe-ru-na.
Witness in a land suit at the age of 110 years.
Believes Pe-ru-na the greatest remedy of the age for catarrhal diseases.

A short time ago, by request, Uncle Isaac came to Waco, and sat for his picture. In his hand he held a stick cut from the grave of General Andrew Jackson, which has been carried by him ever since. Mr. Brock is a dignified old gentleman, showing few signs of decrepitude. His family Bible is still preserved, and it shows that the date of his birth was written 115 years ago.

Surely a few words from this remarkable old gentleman, who has had 115 years of experience to draw from, would be interesting as well as profitable. A lengthy biographical sketch is given of this remarkable old man in the Waco Times-Herald, December 4, 1898. A still more pretentious biography of this, the oldest living man, illustrated with a double column portrait, was given the readers of the Dallas Morning News, dated December 11, 1898, and also the Chicago Times-Herald of same date.

This centenarian is an ardent friend of Peruna, having used it many years. In speaking of his good health and extreme old age, Mr. Brock says: "After a man has lived in the world as long as I have, he ought to have found out a great many things by experience. I think I have done so."

"One of the things I have found out to my entire satisfaction is the proper thing for ailments that are due directly to the effects of the climate. For 115 years I have withstood the changeable climate of the United States."

"I have always been a very healthy man, but of course subject to the little afflictions which are due to sudden changes in the climate and temperature. During my long life I have known a great many remedies for coughs, colds and diarrhoea."

"As for Dr. Hartman's remedy, Peruna, I have found it to be the best, if not the only, reliable remedy for these afflictions. It has been my standby for many years, and I attribute my good health and extreme old age to this remedy."

"It exactly meets all my requirements. It protects me from the evil effects of sudden changes; it keeps me in good appetite; it gives me strength; it keeps my blood in good circulation. I have come to rely upon it almost entirely for the many little things for which I need medicine."

"When epidemics of the grippe first began to make their appearance in this country I was a sufferer from this disease."

"I had several long sieges with the grip. At first I did not know that Peruna was a remedy for this disease. When I heard that la grippe was epidemic catarrh, I tried Peruna for the grippe and found it to be just the thing."

In a later letter dated January 31, 1903, Mr. Brock writes:

"I am well and feeling as well as I have for years. The only thing that bothers me is my sight. If I could see better I could walk all over the farm and it would do me good. I would not be without Peruna."

Yours truly,
Isaac Brock,

For a free book on catarrh, address The Peruna Medicine Co., Columbus, O.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address: Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

Decorating Berlin Schools.

The committee of the Berlin town council in charge of the primary schools have taken a novel decision with regard to school decoration. The proposal is to spend 10,000 marks every year for eight years, with the object of painting frescoes on the walls of classrooms and corridors. These pictures will be simple in character and will represent for the most part scenes in German history. Before, however, the plan can be carried out, experiments will be made in three selected schools.

Monument to Bret Harte.

To mark the resting place of the late Bret Harte, in Frimley churchyard, Surrey, there has just been erected a massive and costly monument. The author of the "Heathen Chinee" and "Luck of Roaring Camp" had resided at Frimley for some time prior to his death, which took place early in May of last year. Around the grave have been planted a number of young fir trees. The monument consists of a massive slab of white granite, weighing two and a half tons, on which is placed a block of Aberdeen granite, sloping upward into the form of a cross.

A Physician's Statement.

Yorktown, Ark., Jan. 11.—Leland Williamson, M. D., one of our cleverest physicians, has made a statement, endorsing Dodd's Kidney Pills and saying that he uses them in his daily practice in preference to any other Kidney medicine. His statement has created a profound sensation, as it is somewhat unusual for a physician to publicly endorse anything in the shape of a patent medicine. Dr. Williamson says:

"After twenty years' practice in a sickly and malarious country I have come to the conclusion that it is always best to use the remedy that will relieve and cure my patients, whether ethical or not."

"I have used Dodd's Kidney Pills with uniform success in the various forms of Kidney Disease, Pain in the Back, Gout, Rheumatism, Inflammation and Congestion of the Kidneys and all kindred diseases; I always prescribe Dodd's Kidney Pills in such cases and can testify that they invariably restore the Kidneys to their normal state and thereby relieve the blood of accumulated poisons, producing prompt and effective cures."
