

Young women may avoid much sickness and pain, says Miss Alma Pratt, if they will only have faith in the use of Lydia E. Pinkham's Vegetable Compound.

Judging from the letters she is receiving from so many young girls, Mrs. Pinkham believes that our girls are often pushed altogether too near the limit of their endurance nowadays in our public schools and seminaries.

Nothing is allowed to interfere with studies, the girl must be pushed to the front and graduated with honor; often physical collapse follows, and it takes years to recover the lost vitality, often it is never recovered. Miss Pratt says, —

"DEAR MRS. PINKHAM:—I feel it my duty to tell all young women how much Lydia E. Pinkham's wonderful Vegetable Compound has done for me. I was completely run-down, unable to attend school, and did not care for any kind of society, but now I feel like a new person, and have gained seven pounds of flesh in three months.

"I recommend it to all young women who suffer from female weakness."—Miss ALMA PRATT, Holly, Mich. —\$5000 Forfeited if original of above letter proving genuineness cannot be produced.

McClure's for April. McClure's for April is fairly stunning in its effect. The first of a series of articles on "The Enemies of the Republic," by Lincoln Steffens, which will consider the misgovernment of states, takes up Missouri and gives the reader a shock he will not soon forget. It is almost paralyzing in its relentless array of fact and logic concerning corruption as a custom, a system, a revolution in government. It is the bribe-giver, not the bribe-taker, who is really responsible for the bad government, Mr. Steffens points out.

Insist on Getting It. Some grocers say they don't keep Defiance Starch because they have a stock in hand of 12¢ brands, which they know cannot be sold to a customer who has once used the 16¢ pkg. Defiance Starch for same money.

Labouche's Numerous Libel Suits. Henry Labouche, the stormy petrel of British journalism, has just fought his forty-fourth action for libel and he lost, being condemned to pay \$5,000 damages for saying that a certain physician was not duly qualified and that he was a quack. This is the heaviest verdict ever brought against the editor of Truth, but as he is a very rich man, it is possible he thinks the run worth the money. Of the forty-four suits he won nineteen, lost eight, in two the juries failed to agree, five were settled out of court, and ten were withdrawn by plaintiffs who did not care to face trial.

The Only Parlor Left. Here is a story from the veldt. When Joseph Chamberlain traveled to De La Rey's country he found that the only hall available was very small for the audience he wished to address, and accepted De La Rey's offer of "his parlor." When he reached the ruins of De La Rey's house, however, he found a platform built out on to the open veldt. "But where is the parlor?" asked the statesman. "That is the only parlor you have left me," replied the soldier.

In the April Century.

There will be four color-pictures in the April Century: "The Easter Hymn," frontispiece, by Violet Oakley; "The Easter Bonnet," by Anna Whelan Betts; and drawings, by Maxfield Parrish, of the famous Villa d'Este at Tivoli and the pool of the Villa d'Este. These last two will illustrate, with other drawings in black and white by Mr. Parrish, Edith Wharton's paper on "Villas Near Rome." The woodcut in Timothy Cole's Old Spanish Masters series will be Morales' exquisite "Madonna of the Little Bird." Another notable feature of the issue will be a double-page drawing, by Jules Guerin, of "Easter in Greeley Square, New York City," showing the flower market in its Easter array.

BODY FOUND IN RUINS OF BARN.

Some Suspicion Victim May Have Been Murdered.

GORDON.—Ira C. Diamond, a ranchman living eighteen miles southeast of Gordon, was found burned to a crisp in the ashes of his burned barn. Coroner Lewis of Valentine was notified and an inquest was held, the verdict being that he came to his death by accidental burning in his own barn. The deceased was a man about 60 years of age, quiet and peaceable, and has resided in this vicinity about three years. He was a widower with two grown sons and lived alone upon the ranch. There is some suspicion of foul play, as it was known that Diamond had fears that his life was in danger, and it is said that a short time ago he was in Gordon consulting an attorney concerning threats that had been made against him.

The cash report of the Hastings insane asylum was filed with the secretary of state. Blood Impurities of Springtime—Cause, Prevention and Cure.

Dr. Hartman's medical lectures are eagerly scanned by many thousand readers.

One of the most timely and interesting lectures he ever delivered was his recent lecture on the blood impurities of spring.

The doctor said in substance that every spring the blood is loaded with the effete accumulations of winter, deranging the digestion, producing sluggishness of the liver, overtaxing the kidneys, interfering with the action of the bowels and the proper circulation of the blood.

This condition of things produces what is popularly known as spring fever, spring malaria, nervous exhaustion, that tired feeling, blood thickening and many other names.
