SHELDON'S SUMMARY

What the Republican Party Has Done for Nebraska Since 1906.

To the People of Nebraska: I submit for serious consideration the following statement showing what the republican party under the present administration has done in Nebraska since 1906 for good government and the public welfare:

- Reduced the state debt from \$1,917,000 to \$600,000.
Reduced passenger fares to two cents a mile.
Reduced express rates 25 per cent.
Reduced freight rates on grain, live stock, fruit, lumber and coal 15 per cent.
Saved shippers and passengers in reduced rates \$6,000,000, without reducing wages of employees or preventing reasonable earnings on capital invested.
Increased the value of railroad property for municipal taxes in cities and villages, by means of terminal taxation law \$18,627,525.
Passed an act to prevent corrupt lobbying and corrupt practices affecting legislation.
Abolished the free pass evil by enacting and enforcing the anti-pass law.
Enacted a state-wide primary law requiring political parties to nominate their candidates, including congressmen and United States senators, by direct vote of the people.
Controlled railroads and fixed rates through the railway commission.
Put an end to rebates and discriminations in transportation of freight and passengers.
Compelled the railroad companies to get permission from the railway commission before changing rates.
Established the right of the state to enjoin corporations from violating state laws to the injury of the public.
Placed telephone, telegraph, express and street railway companies under the supervision and control of the railway commission.
Stopped the sale of short-weight packages and adulterated food, by enacting and enforcing the pure food law.
Increased the rate of interest on state funds deposited in banks one per cent.
Increased the state revenue by fees imposed on foreign and domestic corporations \$40,000.
Increased the rate of interest on bond investments of the permanent school funds one-half of one per cent, or \$10,930 a year on investments since January, 1907.
Abolished speculation in unpaid state warrants and increased the permanent school funds with the interest thereon.
Kept the state institutions in a first-class condition, provided the best of care for the wards of the state and managed the institutions economically.
Passed and sustained in court a law to prevent unfair discrimination in trade for the purpose of driving a competitor out of business.
Made railways liable to employees for injuries resulting from negligence of fellow-servants and other employees and repealed the statutory provision limiting to \$5,000 the amount recoverable by death by wrongful act.
Enacted laws to create a juvenile court with power to provide proper care for neglected children; to provide free high school privileges, normal training in high schools and to assist weak school districts in maintaining school at least seven months each year; to prohibit pooling by bridge contractors and compel them to produce books and papers; to remove officers for wilful neglect of duty and failure to enforce laws; and to require railroads to furnish equal facilities to all shippers of grain and other commodities.
Care has been taken to have the laws of the state properly observed, and caution has been exercised in the use of executive clemency.
This is the record briefly given of legislation and administration during the last two years, through the republican party. All this has been done in the interest of the people of this state. The republican party continues to stand for those things. In legislation and administration which will promote good government and prohibit any person or corporation from enjoying special privileges at the expense of the public. Our concern is to deal with all questions as they arise in a way that will best promote and conserve the general welfare of our state. There shall be no retreat. I ask that the record of the republican party of deeds done in this state during the last two years be placed for consideration beside the democratic promises of the past and the present, and appeal to the people of this state to stand by the new deal and for the party and the men who steadfastly with honesty of purpose and without malice have done so much for the common cause of good government.

THE FARMERS' POCKET-BOOK AND POLITICS

If the Pocket-Book is to Remain Filled The Farmer Must Protect it With His Vote

The farmer vote has always been the backbone of republicanism. New York state has always been a pivotal state. New York City has always been democratic. The Tammany tiger has dominated the city. Repeaters, and other fraudulent practices, have kept the big city democratic. What the state would do has depended upon what the honest farmer vote of the up-country did, and this influence has nearly always favored the republicans, so that only twice in forty-eight years have the democrats won. The great agricultural states of the west have always been Gibralters of republicanism.

This year, more than ever before, in the history of the country, the farmer finds reason for supporting republican policies. He never was so prosperous. Never did he receive such high prices for his products of every kind. He will therefore, not vote for a change, for he doesn't want a change.

The Tribune herewith gives some figures that contain overwhelming arguments on the farmer's side, showing why he doesn't want a change.

The farm value of the corn, wheat and oat crops of 1907 was TWO AND ONE-HALF TIMES LARGER than of the same crops of 1896. In 1907 they were worth \$2,255,000,000 and in 1896 they were worth \$943,000,000.

The value of the corn crop alone for the four years of the first Cleveland administration (1884-88) was \$2,570,000,000, for the next four years under Harrison, \$2,831,000,000—an INCREASE of \$261,000,000; for the next four years, under Cleveland again, \$2,182,000,000—a DECREASE of \$649,000,000; for the next four years, under McKinley, \$2,434,900,000, an increase of \$252,000,000.

For 1907 alone the value of the corn crop was the enormous sum of \$1,337,000,000. Four years of that kind would make it worth more than \$5,000,000,000, or more than twice as much as for any previous four-year period.

Let the comparison be reduced to a simpler form, involving merely prices, and not the incomprehensible

figures showing total values, and the matter of the farmer's present splendid condition becomes the more easily understood.

Taking Fremont, Neb., prices as a fair average for all Nebraska inland markets, as quoted in the Tribune for the date of October 10 in three different years the contrast is so marked as to be startling.

Fremont prices Oct. 10, 1896: Wheat..... .39 Corn..... .12 Oats..... .10 Hogs..... \$2.65

That year Candidate Bryan said: "I cannot understand how a man living upon a farm can be deluded with the idea that the gold standard has anything but misery and suffering for him. Haven't you independence enough to leave your party in order to save your homes and your families from the gold standard?"

Fremont prices Oct. 10, 1900: Wheat..... .59 Corn..... .30 Oats..... .18 Hogs..... \$4.65

That year Bryan for the presidency again and prices of farm products going up steadily. But that year imperialism threatening to "change the form of our government," as he said, and no more 4th of July celebrations if the democrats lost.

Fremont prices Oct. 10, 1908: Wheat..... .89 Corn..... .66 Oats..... .40 Hogs..... \$5.89

This year "Shall the people rule?" Bryan again, and the farmers getting 550 per cent more for corn, 230 per cent more for wheat, 400 per cent more for oats, 210 per cent more for hogs than they did under the last democratic administration when Bryan warned the farmers they would go to the poor house if they didn't elect him president.

The farmers know they are a long ways from the poor house. Neither the gold standard nor imperialism has captured their home or their families. They know their safest course to be in supporting Taft and the policies under which they have prospered as never before.—Fremont Tribune.

The State Journal is trying awful hard to get people to give that daily a trial. Its offer now is to send the paper from date until January 1, 1909, for only 50 cents without Sunday, or 75 cents with Sunday. The publishers feel sure that anyone who tries The State Journal will stick. However, they have adopted an absolute rule of stopping every subscriber when his term is out. If there is anything that makes a man mad it is to subscribe for a city daily and then have to fight with the publishers to get it stopped or pay for something he doesn't want. The Journal's new plan will be popular.

DON'T FORGET.

The attention of our readers is again called to the two constitutional amendments which will appear on the official ballot on election day. One of these amendments will permit the investment of our permanent school fund in Nebraska school precinct and municipal bonds and thus avoid the necessity of sending the money out of the state for investment as we have been compelled to do in the past. The other will bring about a long-needed re-organization of our supreme court by substituting four additional judges for the six commissioners now constituting a part of that court. The commissioner system is wrong in principle and very unsatisfactory to all parties, including the commissioners themselves. The system is a makeshift, but it will have to be continued until the court is enlarged, as it is utterly impossible for three judges to do the work. Recognizing the necessity for these two changes in our constitution all of the political parties gave both amendments their unqualified endorsement at the primaries. In order, however, to insure their adoption at the coming election every voter should be careful to vote FOR both amendments. DON'T FORGET.

This year the Republican state ticket will be supported in the campaign by the best record made by any administration in the state's history. The Democratic ticket will be supported by the political agents of the great railway corporations doing business in the state. The voter must decide whether he will face forward under the banner borne by Governor Sheldon and his Republican associates, or face to the rear beneath the banner of the allies—democracy and the railroads.

The speech of Permanent Chairman Clayton of the National Democratic convention was an assault upon the integrity of President Roosevelt. Clayton was chosen because he was the personal choice of Candidate Bryan for the place. If the Democrats approve of the Roosevelt policies, why do they, in speaking officially to the American people, denounce him and his policies?
