

# What Man Do You Strangle?

Some statistician figures that \$250,000,000 every year is being diverted from the local merchants of this country to the mail order concerns in the great cities.

How much of that MONUMENTAL MOUND OF MONEY goes out of this community?

Every dollar so spent helps to SWELL THE HEAP in the city that has no use for us except to get our GOOD MONEY.

Every dollar mailed away helps to STRANGLE ENTERPRISE AND SCUTTLE PROSPERITY right here at home.

## Want to be strong?

Eat more Quaker Oats. Eat it for breakfast every day. This advice is coming from all sides as a result of recent experiments on foods to determine which are the best for strength and endurance. It has been proved that eaters of Quaker Oats and such cereals are far superior in strength and endurance to those who rely upon the usual diet of heavy, greasy foods.

When all is said and done on the cereal food question, the fact remains that for economy and for results in health and strength, Quaker Oats stands first of all. It is the most popular food in the world among the foods sold in packages.

Put up in two sizes, the regular package and the large family size which is more convenient for those who do not live in town.
