

A Mistaken Idea....

Some people have an idea that in order to have a bank account, they must have a large sum to deposit; that the bank does not care to be bothered by small accounts.

This, however, is not true of the First National Bank. This bank welcomes new accounts, whether of \$1 or \$1,000, and the same courtesy and service is accorded the small depositor, as those in more fortunate circumstances.

It is our object and wish to serve the public in financial matters in a manner that shall be satisfactory to all—old or young, rich or poor.

We Want Your Banking Business and will be pleased to have you open an account with us.

The First National Bank of McCook

The McCook Tribune.
By F. M. KIMMELL

MISS MARY UERLING has gone to visit friends at McCook and Indianola for a couple of weeks.—Hastings Democrat.

He Needed the Clerk.

When Tim Campbell was in the Fifth congress he stole a clerk from Congressman Scott. Scott was a new member and was made chairman of a committee which gave him a clerkship. He knew nothing about the clerk. Campbell did. Through some means or another he had the clerkship transferred to his own committee. Six months later Scott learned of the trick. Meeting Campbell, he said: "That was a nice piece of petty larceny."

"Tut, tut, Mr. Scott," said Campbell; "my committee needed a clerk worse than yours." Then, with twinkling eyes, he continued, "You are a millionaire and can afford to hire half a dozen clerks, while I must go to the government for clerical assistance." The ready reply amused Scott. The two men were always the best of friends thereafter.

Anxious Traveling.

A traveler in Russia noticed that the train he entered was all decorated with flags and banners, and at every station it passed stood a company of soldiers and a band playing the national anthem. The traveler asked a brakeman the reason of all this ceremony. The brakeman, lowering his voice, replied: "I don't mind telling you, sir—but in the strictest confidence, be it understood—that a carriage in this train has been engaged for his majesty. But his majesty, as a matter of fact, won't set off till this evening. Thus the plot hatched against him may take effect on this train, you see, and our gracious sovereign will be saved."

The brakeman touched his cap and passed on, and the traveler, suddenly grown pale and nervous, stared from the window anxiously.

The First Patent on Matches.

Before 1833, when wooden matches with phosphorus were made in Vienna, people were dependent upon flint and steel to secure a light. The first patent for a phosphorus match in the United States was taken out in 1836 by A. D. Phillips of Springfield, Mass. For many years people refused to use them, but by 1845 the ill smelling and clumsy old tinder boxes were generally discarded and are preserved, like snuff-boxes, as curiosities.
