The supreme court has issued a writ of mandamus to require Court Reporter C. A. Rodgers of the Fourteenth judicial district, who is also clerk of the district court, to furnish a longhand transcript of the testimony in the matter of the estate of Anna J. Wilson, incompetent, which was tried before Judge Orr at McCook. The application was made before the supreme court on the ground that Judge Orr could not be found. Lafe Burnett, attorney for the woman in the case, made the application. In the original case L. A. Wilson obtained a decree of divorce from his wife and the divorce suit has been appealed to the supreme court. Burnett was also accused in another case of an offense against the law in connection with his action with the woman in the suit.—Lincoln Journal.

**A New Irrigation Plant**

**The Measure of Achievement**

is not the size of one's income. That may be only the measure of one's extravagance. The real Measure of Achievement is the DIFFERENCE between your income and your expenditures.

The best way to achieve a substantial margin, to get ahead with certainty, is to deposit REGULARLY, even though each deposit be small. Did you ever stop to consider that \$10.00 deposited regularly, monthly, for ten years, exclusive of interest, would amount to \$1,200.00?
