POLITICAL ADVERTISING.

DISTRICT JUDGE.

C. E. Eldred of McCook has filed for judge of the 14th judicial district, as a republican candidate.

We are reliably informed that Furnas county will have a candidate in the person of our fellow townsman, E. B. Perry. It goes without saying that Mr. Perry will have strong support in the east end, in fact all over the district. His active law practice extends to every county in the district and he is recognized as the leading attorney of this part of the state. Should the republicans of the district choose Mr. Perry as their candidate they will be exceptionally fortunate. He is a man of honor, clean in his profession and has always been an anti-corporation attorney. The Clarion gladly endorses E. B. Perry for district judge, believing him to be an ideal man for the place and especially fitted for the bench.—Cambridge Clarion.

ANNOUNCEMENT.

I hereby announce my candidacy for the nomination of county treasurer on the Republican ticket, subject to the Primary Election August 15th, 1911.

FATHER P. J. MAC CORRY, EMINENT PAULIST PRIEST.

THIS eminent priest is a member of the Paulists, an American order of Catholic priests. And, like the Chautauqua itself, he is thoroughly American. He was educated in Washington, D. C. He has traveled extensively in Europe, Mexico and in his own country and knows the audience of all creeds. Possibly there is only one other greater presentation of "The Story Beautiful," the Passion Play of the Tyrol peasants. In the work of presenting this great story Father MacCorry is assisted by H. Ruthven MacDonald, the famous Canadian baritone. Besides, there are more than 125 beautiful stereopticon pictures reproduced by one of the most expensive of stereopticon machines. "The Story Beautiful" will be told on one of the nights of Chautauqua week.

The Right Way To Buy Clothes

Copyright Hart Schaffner & Marx

IN BUYING Clothes, some things you can see for yourself—color pattern, weave, style, fit, price; your judgment for which is your best guide. But some things you can't see—quality of fabrics, quality of "insides," quality of tailoring. You buy mostly from what you see; and and for the rest of it you take somebody's word.

The part you can't see is the more important. The service you'll get in clothes depends on the quality, not on color or pattern; the fit depends on the tailoring, not on the style or the weave; the price depends on what the clothes really are, not on what they look like. The

label on a garment is complete security for you in the things you can't see. That's why the makers say "it's a small thing to look for and a big thing to find," and that's why it pays to look for it, and finds it. GALUSHA & SON is the McCook home of Hart Schaffner & Marx Clothes; always of all-wool fabrics, the best of other materials and the best workmanship possible. You'll find among the spring suits just your style and your color and your patterns, at . . . \$12.00 to \$35.00.

NOTICE

WE wish to announce to the public and especially to the ladies who live in McCook and vicinity that we have purchased the McCook Flour Mills of E. H. Doan and are now placing our flour with all the merchants of McCook. As the brands of this mill have long been known we have decided not to change them and in calling for our flour you will remember that the 91 PATENT has long been at the head of the list in quality, the ANCHOR BRAND a close second.

We are interested in two other mills, one at Minden, Nebraska, and one at Tecumseh, Nebraska, and we feel proud to make the statement that so long as we are running the McCook Mills our flour will be equal to any and superior to many of the other flours shipped in. Every sack of our flour is guaranteed and we are right here in your town to make good, and while McCook is getting an uplift in locating the Nebraska School of Agriculture here we wish you to remember that in using our flour you are at the same time boosting for McCook.

We are expecting to move to McCook and be one of you and work with you to not only help locate the agricultural school, but to boost the town in all other ways to help make McCook a bigger and better town. If you are not using the McCook flour, ask for and see that the grocer gives you a sack of our 91 PATENT or ANCHOR BRAND and we assure you that you will use no other.

Thanking you in advance for your patronage and good will, we remain,

Yours truly,
McCOK MILLING COMPANY

EYE OF THE CAMERA.

Washed Out Blood Stains Cannot Escape the Ultra Violet Rays.

Even before it had been adapted exclusively, by means of special lens construction and combination, to the reception of the invisible ultra violet rays, the camera eye, owing to its peculiar sensitiveness to this light, has played a strikingly dramatic role on various occasions. One of these occurred a few years ago in Lausanne, Switzerland.

It appears that a handkerchief formed an exhibit at a murder trial and was regarded as a crucial bit of evidence. The closest inspection failed to reveal a stain on the immaculately white cloth even with the aid of a powerful microscope. But it occurred to a professor of Lausanne university to photograph the handkerchief, when the image obtained clearly disclosed the presence of great spots, or, rather, of what had been such, showing ghostlike in the carefully washed fabric. The photograph proved the turning point of the trial, and the result was conviction.

Blood, as was scientifically explained at the time, happens to be one of the substances that absorb ultra violet rays, and when any of these substances have found their way to a receptive surface no amount of erasing or cleansing can hide its presence from the camera eye. When the latter is equipped to utilize only this invisible light the result is much more marked. Should the neatest erasure be made in writing done with substances specially absorbent of the rays the ultra violet photograph would show the traces of the erasure as plainly as the writing itself.—New York Tribune.

Follows Instructions.

The father of a small family tells us this one: "My wife instructed our little boy when he was invited out to lunch the other day that when he was asked to have a second helping of cake he should refuse. 'You must say, 'No, I thank you. I've had enough,' said she. 'And don't you forget it.' " "He didn't. When asked if he'd have some more cake he said, 'No, I thank you. I've had enough, and don't you forget it!'"—Toledo Blade.

Men Are So Uncertain.

"Why did you jilt that man who wanted to marry you?" "Because," replied the prima donna, "I couldn't decide whether he was in love with me or merely wanted to hear me sing for nothing."—Exchange.
