POSTPONED INDEFINITELY

On account of the weather conditions being unfavorable the Apron Sale and dinner announced by the Catholic ladies for Saturday, March 16 has been

POSTPONED INDEFINITELY

Don't Stampede.

The Tribune makes no effort to disparage Mr. F. C. Krotter's ability as an engineer or business man—on the contrary his effort in coming to McCook to throw a few chunks of iron into the machinery of our proposed irrigation ditch project increases our regard for his business acumen. But we do call attention to fact that he is the owner of a water power enterprise at Palisade, which would not be materially improved by the proposed ditch; besides he is interested in several other ditches and enterprises which might not be the better for the proposed ditch. These facts may properly have something, even much, to do with his disinterested concern in our project. What we want to state, particularly, at this time is, however, don't by any means let Mr. Krotter and his little hammer keep you from seeing the main thing: Now is the time, we take it, for the McCook irrigation ditch people to see that they do not lose what water there is available. If it shall be proven that there is not available all that is now claimed, let us see to it, and see to it, certainly, that we get what is available. Don't stampede.

Last in the Field.

The unfettered Democracy have had the last say in the matter of placing in nomination a city ticket. They met in city caucus, last evening, in the court house, and made their complete nominations—their ticket being composed as comparison will disclose of most of the nominees of the Peoples' Water Ticket—the others being on the Republican ticket.

Barney Hofer was chairman of the caucus and Fred Schwab, secretary.

The nominees are as follows: James McAdams, mayor. L. C. Stoll, clerk. L. Thorgrimson, treasurer. C. G. Budig, engineer. C. H. Boyle, member board of education.

E. D. Perkins, member board of education.

R. A. Green, councilman, 1st ward.

F. L. Schwab, councilman, 2nd ward.

A city organization was perpetuated with the selection of the following committeemen: Barney Hofer, R. J. Gatewood, P. F. McKenna and F. M. Colfer. Adjourned.

Most Worthy Cause.

The endowment of Christian colleges will doubtless appeal to thinking men as both desirable and absolutely essential. A modern college is a big plant with a necessarily large expense budget, and must be conducted as a business proposition. If such institution is doing creditable work it is assuredly worthy of substantial support, and there is no other basis from which a regular and sufficient income can be derived for the denominational school. Last year, Doane college at Crete completed an endowment fund of nearly \$300,000. This year the Nebraska Wesleyan university of University Place asks to have its present endowment fund increased from \$100,000 to half a million dollars. With over six thousand Methodists in Nebraska, and many other friends of Christian education, who will lend a helping hand, this endowment campaign should be crowned with success and such result will be highly creditable to the entire state.

How About Rooms?

The meeting of the teachers in McCook, March 27th, 28th, 29th, will make a real demand upon the hospitality of the citizens of McCook—it is expected that between 400 and 500 teachers will be here. This means that arrangements must be made with private citizens for rooming goodly portion of them, as the public places are not able to do so. If you will room a teacher or more during all or part of this convention, report the fact to Sup't Davis, at the high school office, or at his residence, stating rates expected and number you will room.

G. Inghams.

McCook welcomes the newcomers as warmly as any community. This week brings the large family of G. Inghams and it is expected to find homes for them in many of McCook's best families. These gingham are on exhibition at The Thompson D. G. Co.'s where they may be inspected and secured at 6 1/2c, 10c and 15c per yd. (You are invited.)

Holdrege in Force.

Word from Holdrege brings the welcome news that the teachers of that city will attend the S. W. Nebraska Teachers' Association meeting here, March 27, 28, 29, in force.

John Ekstedt hasn't had much opportunity to exercise the street sprinkler, this winter; but he has worked "over time" on the municipal snow plow on the sidewalks.

Republican Ticket Caucus

The Republican city caucus called out a liberal attendance, Monday night, in the court house, and a ticket was placed in the field by acclamation in each instance.

Committeeman H. N. Rosebush was made chairman of the meeting, C. W. Barnes being secretary.

One of the first announcements was the committee on resolutions, as follows: Lon Cone, C. L. Fahnestock and C. F. Heber. The committee took a recess to prepare its platform, and the caucus took up a collection to defray the expense of cleaning the room after the caucus.

After the resumption of the session, Mr. David Diamond, ex-water commissioner, was called upon for the completion of the speech unfinished before the Peoples' Water Ticket caucus. Its delivery was the absorbing feature of the evening.

The committee on resolutions then made the following report, which was adopted:

PLATFORM.

We pledge our candidates to the maintenance of a municipal government that shall be morally clean and aggressively diligent in the enforcement of law and order to the strictest economy in the expenditure of public moneys and in the management of the municipal water plant.

We believe that the facilities of the fire department should be improved, and that there should be an extension of fire protection to parts of the city not now adequately covered.

We heartily endorse the proposition to establish a park at the city water works, and we believe the city administration should cooperate with those of our citizens who have been furthering the project.

We believe that the telephone rates now charged the customers of the Nebraska Telephone company in the City of McCook are excessive, and that the city authorities should vigorously prosecute the inquiry pending before the State Railway Commission as to their reasonableness.

We believe that the McCook Electric Company should be re-

quired to furnish day and night service.

We believe provision should be made for better lighting of the city's streets and alleys.

We condemn the use of city patronage for the purpose of furthering political interests, and pledge our candidates to a non-partisan business administration.

Respectfully submitted,

Lon Cone,
C. L. Fahnestock,
Chas. F. Heber.

Committee.

Nominations.

The question of nominations then came up. Some admirer of "Uncle Joe" Stephens placed him in nomination, but Mr. Stephens wouldn't stand for it at all.

The following candidates were then placed in nomination:

D. F. Hostetter for mayor.

L. C. Stoll for city clerk.

Louis Thorgrimson for city treasurer.

Norman J. Campbell for city engineer.

Members of the board of education, Albert Barnett and Chas. H. Boyle.

Councilman of First ward, A. N. Lineburg.

Councilman of Second ward, Fred L. Schwab.

The city committeemen chosen are as follows:

First precinct, 1st ward, R. J. Gunn. Second precinct, 1st ward W. O. Russell. First precinct, second ward, C. F. Heber; Second precinct, Second ward, E. S. Howell.

Commercial Club Meeting.

The regular session of the McCook Commercial club, Tuesday evening, was quite well attended.

The matter of the approaching meeting of the teachers of S. W. Nebraska was presented by Supt. Davis, reminding the club of the former action of the club in guaranteeing the sale of 150 tickets at 75 cent each. A committee of five members of the club was appointed to take this matter in charge at once.

The committee on enrollment is composed of:

H. C. Clapp, chairman; A. Galusha, F. M. Colfer, L. Suess, L. W. McConnell.

Sup't Davis also made a request that the club assist in securing suitable decorations for the convention days by the business men of the city.

And the matter of securing rooms for the teachers during their presence in the city, March 27, 28, 29, was also urged. It is hoped that all citizens of McCook who can provide rooms for teachers during the dates will at once report same to Sup't Davis. And it should be understood, of course, that it is not expected that these rooms shall be provided free, but only that the lowest rates consistent with profit shall be given. Call up the superintendent of schools and make known what you can do for this occasion.

The feature of entertainment was left in the hands of Superintendent Davis, who was made chairman of such committee, with instructions to draft in all assistance he might require to carry out such plans as are necessary for caring for the large number of teachers who are expected to be present—it is expected that between 400 and 500 teachers will be here, during all or part of the three days.

It was the sense of the club that the express company should be requested to extend to McCook such facilities as are enjoyed by other cities of its class in the matter of having express gathered up from the business centers for dispatch to out of town points. A. Galusha and J. E. Kelley were chosen to assist the secretary in making known to the company this action of the club. (The Tribune understands that the company is now considering taking such action, and is considering figures submitted to cover this additional delivery expense.)

The payment of two months rent was authorized.

A communication from the anti-panic bankers' organization was read but no action taken, the communication being laid on the table.

One of the entertaining features of the evening was the talk by F. C. Krotter of Palisade on the question of water supply in the Frenchman river. Mr. Krotter is interested in irrigation and in a water power electric plant as well at Palisade, and aside from his general interest in the matter, is personally deeply interested in projects not entirely harmonious with proposed McCook Irrigation ditch project. However, he is well posted on the question, and his statements will no doubt receive merited attention by those looking into the matter of water supply in the Frenchman river.

Another Consideration

Have you ever considered the possibility of sickness, the loss of your job, or a hundred kindred misfortunes that might overtake you? What are you going to do then? Now when you are earning is the time to prepare for such emergencies. A few dollars saved regularly each month have an undreamed of value when misfortune overtakes you.
