A force of men are engaged in excavating for a sewer to connect the Eating House sewer with the round house system. About the first of next month, W. J. Wilson of the circle ranch will move his herd, the largest in Southwestern Nebraska, to the White river region in Summit county, Colo. Monday evening of last week, an unknown man who had been working on the construction train for several months, fell off the train as they were nearing Oxford, unbeknown to the rest of the crew, and was run over and horribly mangled. The members of the County Central Committee met, pursuant to a call by Chairman Berger, at Indianola, last Friday afternoon. In the absence of Mr. Berger, J. F. Black was made temporary chairman. Saturday, Sept. 26th, at 1 o'clock, P. M., was the time decided upon for the county convention. The vote for presidential electors was adopted as the basis of apportioning the delegates to the various precincts, the number of delegates to be one at large, one for every 15 votes and one for the major fraction thereof. It was also recommended that Saturday, Sept. 19th, between 1 and 7 o'clock, P. M., be the date and time for holding precinct primaries, at the usual voting places in the various precincts.

As yet there have been no announcements for that most important office—Superintendent of Public Instruction. While we are not authorized to make the statement, yet from conversations held with our present worthy Superintendent, we feel assured that he will not be a candidate for re-election. This is an office than which there are none of more vital interest to the people of Red Willow county—one that has to do in a large degree with the education of the rising generation. We hope that in the contest for the various offices, this one of great moment may not be lost sight of, and go practically begging until the day of the county convention, and then have some incompetent person nominated in the hurry of that occasion. The position requires a thorough energetic educator. Who is the man?

The fair held at Indianola, last week, was no credit to Red Willow county. In the first place it was held from three to four weeks too early, making the exhibits of agricultural products necessarily meagre and incomplete and lacking in fullness and ripeness. The affair was poorly managed and as poorly advertised, resulting in a limited attendance. The exhibits of stock were unusually good, especially those of Messrs. Starbuck, Dolan, Buck, Welborn, Pate, McKillip and others. The races, which have become the absorbing interest of even agricultural fairs, would have averaged well had the thumpers and foul-mouthed (and breath as well) black-guards which disgraced the occasion been excluded from the grounds. No one will risk taking his wife and daughters to a place where they must hear and see such disgusting performances. The management should suppress such individuals or quit the business. Honor the faithful few who helped to make what of a showing there was. We hope next year that the county will be given a hand in the fair.

A NARROW ESCAPE—A. P. Bonnot,

who is being held in the hands of the Republican City branch, which is now being operated to Norton, met with a severe accident at Republican City, Saturday last, which he may well congratulate himself was not more serious in its results. It appears that Al. had thrown a switch for an approaching engine, and that being worn out by work and lack of sleep, just as the locomotive was passing, he fell forward onto the track, striking on his head and rendering himself insensible, with his head across the track, between the front wheels of the engine and the drivers. The only thing that saved him from a certain death was the sand-pipe, which pushed his head aside and off the track. As it was, his head and shoulder were badly squeezed between the rail and ties by the drivers as they passed. Al. came up to town on 39, Sunday, and is recuperating at the residence of his brother-in-law, Train Master Phelan.

Hard and soft coal, best quality, at Hallack & Howard's lumber yard.

There is now confined to his bed at the McCook Hotel, a man by the name of Abraham Wood, who is suffering from two knife wounds in the stomach, about which there is considerable speculation, if not uncertainty. The man was discovered on the bottom a little south of the bridge, Sunday morning, cut as above described, in a most pitiful condition, having lain out of doors all night. Wood himself says that he was held up and robbed and stabbed but as there are no holes in his garments, this statement hardly seems plausible. Those who have been in attendance upon the man are unanimous in the opinion that the man is not well balanced and that it is a case of attempted self-destruction. His clothing were still wet, Sunday morning, showing that he had been in the river, and not finding that the most desirable means of climbing the golden stairs, he resorted to his jack knife, which was found near by. Wood gives his age at 68.

Hard and soft coal, best quality, at Hallack & Howard's lumber yard.

There is now confined to his bed at the McCook Hotel, a man by the name of Abraham Wood, who is suffering from two knife wounds in the stomach, about which there is considerable speculation, if not uncertainty. The man was discovered on the bottom a little south of the bridge, Sunday morning, cut as above described, in a most pitiful condition, having lain out of doors all night. Wood himself says that he was held up and robbed and stabbed but as there are no holes in his garments, this statement hardly seems plausible. Those who have been in attendance upon the man are unanimous in the opinion that the man is not well balanced and that it is a case of attempted self-destruction. His clothing were still wet, Sunday morning, showing that he had been in the river, and not finding that the most desirable means of climbing the golden stairs, he resorted to his jack knife, which was found near by. Wood gives his age at 68.
