THE CITY ELECTION.

Elsewhere in this issue will be found the minutes of the caucus held, last night, by the representative business men of the city, in the office of Messrs. Helm & Davis. At that time, as a perusal will disclose, was placed in nomination a ticket for the various city offices, which we take great satisfaction in naming for the franchise of the people of this city. The ticket from beginning to end is composed of representative men, who are property owners and conservative men, and who have the best interests of the city at heart. They are business men of sound judgment, in whose hands our municipal affairs may be safely entrusted. Without entering into any lengthy or specific mention of the merits of the "Citizen's Ticket," we bespeak for it the hearty support of all law-abiding citizens of McCook, with whom we confidently rest the case. All that now remains to be done is for every man interested in the enforcement of good laws and morals to take off his coat and work earnestly for the success of the ticket!

ELECTRIC LIGHT.

Score Another for the Metropolis of Southwestern Nebraska.

At the meeting of the City Council, last night, an exclusive franchise for 21 years was granted to the Edison Electric Light and Power Co. of McCook, Neb., for a plant in this city. The officers of the company are Dr. Z. L. Kay, President; P. I. Lancaster, Secretary; H. T. Anderson, Treasurer. Board of Directors, A. Campbell, R. O. Phillips, E. E. Lowman, Frank H. Spearman, Sam. Strasser. The franchise provides for the commencement of work within six months, and the successful operation of at least one mile of wire within eighteen months, under penalty of forfeiture. It is however confidently expected that the company will have the plant in operation within 90 days. An active canvass for subscribers is now being prosecuted. That our people will fall in with the enterprise goes without the saying. Those at the head of the enterprise are sufficient guarantee of its successful consummation. Articles of incorporation are preparing and will be filed at once. It is expected that power and room for the plant can be secured from the Water Works Co. at a minimum cost, which will make the expense of the plant much less and the expense to the subscriber proportionately lower. This is truly a grand enterprise for the town, and as such will receive the support of our people who will never let slip an opportunity to build up and advance the material interests of the city.
