Perhaps the finest and most intricate piece of mechanical skill ever executed in wood in our city is the cathedral clock case just recently completed by Prof. Helman of the public schools, and which might have been seen in McCracken's jewelry store, a few days, while the works of the clock were being placed therein.

A Matter of Profound Regret. The departure, Tuesday evening, of Supt. J. R. Phelan's family to Holyoke, Colo., where they will make their future home, is a matter of profound regret to their numerous friends and most energetic promoters. Perhaps no man in the city has done more to advance her very best interests. His work has been tireless and enthusiastic and productive—being intelligent, hearty and willing. He has prospered with her growth; has gathered around him the comforts of a delightful home; formed strong ties of friendship here; all of which the Colonel affirms make the removal one of sincere regret to him and to his family. THE TRIBUNE wishes them every joy in their new home.

The Two Johns. Menard's Opera House was crowded to overflowing, last evening, by an expectant audience, to witness the performance of the Two Johns Comedy Co., whose appearance here had been widely heralded by highly illuminated paper and laudatory word of mouth, exciting active and unusual interest among our theatre-going populace. The performance, from beginning to end, was just what it purported to be, one continuous piece of overwhelming, unalloyed, unprovoked comedy, keeping the audience convulsed with laughter from the time the curtain went up until the closing act. The Two Johns is the best comedy company that has ever appeared in our city and they were greeted by the largest audience that has ever assembled in the hall.

A Gratifying Improvement. The work of papering and painting the Opera House is about finished. The improvement effected is so startling and pleasing that the place is hardly recognizable. The paper and scenery and decorations selected are appropriate, tasteful and handsome, and the same were hung in fine shape by W. M. Sanderson and son, who also executed the painting and added the other finishing touches to a very creditable piece of work throughout. Mr. Menard has been to considerable expense in making these improvements, which the public will no doubt appreciate to the fullest extent. The Opera House now compares favorably with any in this part of Nebraska.

Another "Special" Telegram Fake. A McCook special to the Omaha Herald says: "Nelson, the young coon who fatally shot an officer at Hastings and otherwise deported himself as a desperado in good standing, a few days since, tarried in McCook a few days this summer. While here he passed at a politician of very ardent principles and carried a banner in the republican ratification procession, on one side of which was inscribed in bold letters, 'Our Mascotte,' and on the other side was something about the fifteenth amendment. This was all very fitting, but Nelson's conduct would lead one to infer that the mascotte business is a horse on the republicans'."

Base Ball at Holdrege. The "Famous" boys, and a considerable company of lovers of the national game, went down to Holdrege, Wednesday morning, to play the local club there. The morning game resulted in favor of our boys in a score of 12 to 8, despite the umpire's efforts to the contrary. An attempt was made in the afternoon to play another game, but upon a refusal to comply with an outrageous decision of the umpire, the latter called the game. The "Famous" base ball club of McCook is able and willing to play any amateur club in Nebraska, but they properly draw the line on playing against the umpire as well.

The Indianola Saloon Fight. On Wednesday, in chambers, Judge Cochran heard the arguments of counsel upon the motion to dissolve the injunction issued by the court, restraining Boyer & Gillen from running a saloon at the county-seat. Messrs. Starr, Kittenhouse and Grubb represented the defendants, Boyer & Gillen, and S. I. Smith appearing in behalf of people of Indianola. The Judge's decision in the case will be forth-coming in a few days, and will be looked forward to with considerable interest.

Grasier Bros.' Royal Shows. The performances of Grasier Bros.' circus in our city, Tuesday, were well patronized, afternoon and evening. While there was nothing particularly new or startling on the program, the time-honored features of the old-fashioned one-ring show were presented in a creditable and satisfactory manner. No rows, robberies, fake games, or other usual concomitants of the show occurred here, everybody being orderly and good-natured.

About the School House. The quality of brick being used in the new ward school house has been causing considerable talk throughout the city; inasmuch that the board of education made a careful investigation of the walls, yesterday. They report that good brick are being used, and rejected but very few brick. C. H. Meeker has been secured to oversee the construction of the building and satisfactory work may be expected in the future.

A Pleasant Donation Party. Rev. and Mrs. L. W. Dwyer were the objects of a donation party, Monday evening, at the hands of the friends and members of the Methodist church of the city—a choice collection of good things indicating in a mild and modest manner the high estimation in which the reverend gentleman and his estimable wife are held. The company spent a short time enjoyably at the parsonage.

The engineers and firemen of the local division tackled the national game, last Saturday, on grounds of "Famous," in good earnest; the boys who sit on the right hand side being defeated in a score of 45 to 37. Another game is in prospect, in which the engineers expect to get in on schedule time.

Representative White of Indiana has evolved a new plan for the solution of the labor problem. He proposes that congress shall fix a minimum rate of wages for all sections of the country, the law to be enforced by the interstate commission. The bill has also an important bearing upon the vexed question of the surplus as it appropriates a million of dollars to be legitimately employed in securing the operation of the measure.

Copy is all in for the "write-up" of McCook, and the same will appear within two or three weeks. It is an excellent and comprehensive resume of McCook, her history, prospects, business interests, etc., and should be widely circulated. County Seat Items. INDIANOLA COURIER. The county commissioners were in session, yesterday. A large delegation was over from Ash creek to secure the location of a road from this city to McCook via the south side of the river. This would make a good road as there would be no steep hills to climb.

A union labor friend suggests to us that the program of the democracy of this country is to dictate the nominations of the U. S. party, then endorse the ticket, and thus secure the strength of both parties, but that so far as he is concerned, and many others with him, the party will not submit to the dictation of democrats any more than it would of republicans, and if the leaders think they can hoodwink the rank and file of the party into such a scheme they will be short a good many votes in November.

Monday night, between 12 and 1 o'clock, M. E. Cavanaugh discovered fire in the second story of Smith & Entel's furniture shop. The alarm was given and a crowd soon collected. The fire was located in two nests of cottons and was making rapid progress when discovered. Water from the city and local wells was soon at hand and the fire subdued. The loss by fire and water will be about \$1000. As near as can be judged at this time the incendiary must have climbed a long board and got into the back window of the second story. The timely discovery undoubtedly saved the burning up of six of our business houses. That the fire was the work of an incendiary there can be no doubt. The prime object being to attract the attention of our citizens to the fire while they worked the residence portion of the city. It did not work, however, as our citizens recollecting St. Paul and Aurora, divided themselves into firemen and patrol and effectively shut them out.

Left for Parts Unknown. J. H. Oswald, who has been running a restaurant and confectionery on Lower Main Avenue for a few months past, left on Tuesday night for parts unknown. A number of creditors mourn his unceremonious departure. His wife and children went down to Holdrege, this morning. It appears that Oswald had collected about \$200 bond money on Monday, pay-day, and proceeding to bowl up and become obstreperous, he, with his brother, were placed in the cooler over night.

The following night he "dusted." Messrs. Chermant & Co. of the West Denmark street cigar men, attached his effects, this morning, in the hope of securing money enough to cover a cigar bill due them. A brother of Oswald, we are informed, holds a bill of sale on goods to the amount of \$200. J. Menard is also considerably interested in the departed. Oswald was doing a paying business and his leaving under such circumstances is perhaps due to his unfortunate tendency toward strong drink more than ought else; and to the feeling of humiliation and disgrace resulting from his arrest and being placed in the lock-up over night, for inebriety.

Quite a sensation was caused by the marriage of Fred Matter and Laura Lee. It was evidently a case of love at first sight. He is 21 years old, and met Miss Lee for the first time two weeks ago, Sunday. Mrs. Matter is 18 years old, her mother is a widow, and resides two miles south of town. They were married in Indianola, Saturday morning at 12:00 o'clock, A. M. August 3. Miss Lee is well thought of in her neighborhood and respected by all. Manifold Knowledge.

John Calvin, the first title in Vol. VII of Alden's Manual, occupies seven pages of Alden's Manual, the last title, the name of the chief mountain range in the South of France, is given nearly one page. Between these there are over 600 pages, including considerably over 100 illustrations, devoted to topics in every department of human knowledge. It is an ordinary Cyclopaedia of Universal Knowledge, and an Unabridged Dictionary of Language in one, the editorial work being in skillful hands, the mechanical work, paper, printing and binding, all that one can reasonably wish, the form convenient beyond all precedent in works of reference, and the cost of the book, bound in cloth for 25 cents, or half Morocco 50 cents, postage 10 cents.
