The dance held in the opera hall, last evening, in honor of Misses Dorothy and Elva Hunt, who departed for Laramie, Wyo., this morning, was a very joyous affair and was participated in by a large number of friends of the young ladies, whose departure will make a vacancy in the social circles of our city not easy to fill.

Tirrell of the South Divide was circulating a subscription paper in the city to secure aid in assisting to build a church edifice for the brethren of the Methodist faith in his neighborhood. It is unfortunate that the onion is gifted with such an obnoxious and voliferous fragrance. As a vegetable for the table it is a success, and there are few who do not like to eat it. But it leaves unpleasant traces behind. The onion eater is always avoided in public. When he breathes his fellow man feels uncomfortable and endeavors to escape. Every man should eat onions so that all will be on an equal footing. To eat onions is better than to chew tobacco, which is a filthy weed.—Topics.

It is indeed encouraging to note that the women of Fremont are church goers. Men may become wild and profligate and never turn a cheerful foot toward the sanctuary of the Most High; but as long as the women, the very keystone to the arch of the temple of holiness, remain true and fervent there is hope for the generation. Your true woman is usually more or less religious and the farther the man wanders from the "law and the testimony" the closer the woman stands by the cross of her religious faith and duty. And it is her influence that saves us from an era of infidelity that would put France to the blush.—Fihil.

In order to boom your town, says the Salt Lake News, you must not only talk about it, but must also endeavor to beautify and make it attractive. This may be done to a certain extent by making such improvements as you consistently can. If you are not wealthy nobody will expect you to erect a palatial manufactory, or individually start a large manufactory, but you can do something. You can be friendly to every one, even the strangers within your gates. You can sustain propositions for public improvements, even if they do not personally benefit you at the time. You can repair your fences and sidewalks and trim your trees. If possible employ somebody to do something, if it is only to do a job of whitewashing, and if you can't help otherwise, you can cheer those men who come to the front with public improvements.

The City Council

Was in regular session, Wednesday evening, Mayor McEntee, Clerk Anderson, and Councilmen Kay, Allen and Brown, present. Bills as follows were allowed on OCCUPATION FUND: N. Bierce, \$.75. Ed. Some Homely Truths.

John R. Hoffer, the editor of a "country" newspaper, did honor to his profession and helps his fellow-men by writing out of his heart words of truth and wise suggestions. They are homely truths for plain people. We quote the following: "Giving to others what we do not need is charity to them if they need it, but the giving may not be from charity."

"It is more honorable to be a good wood-chopper than a poor lawyer, or a successful cobbler than a bungling surgeon."

"The wealthy person whose poor neighbors and friends are not benefited by his means, does not possess his wealth; it possesses him."

"As the bee gathers honey, even from poisonous flowers, so a good man gains knowledge and even comfort from the most adverse circumstances."

"Always respect age. There is nothing more contemptible and ungentlemanly than for a young man to sneer at the ignorance or infirmities of the old."

"One of the most foolish weaknesses of human nature is that of being ashamed to acknowledge our mistakes and of making proud efforts to correct them."

BASE BALL.

Berry, secretary; A. C. Ebert, treasurer; Messrs. Lowman, Berry, Boyd, Cole and McConnell, board of directors. Plans are being perfected for placing in the diamond a better club than the one which carried off the honors of many a hotly contested game, last season. The "Famous" boys propose to sustain the record of last year, and if possible, to attain greater heights of glory in the base ball arena.

ART LOAN EXHIBIT.

The ladies of the Geometrical Society of the Congregational church are making extensive preparations for an art loan exhibit, which will open on the evening of May 1st, in the Opera Hall, with "The Descent of Staircase." Many articles of virtue and ancient value have already been pledged for the exhibit and it is expected to make the affair one of great interest. In addition to the art loan, there will be a literary and musical program, each evening, of which mention will be made later and at length.

A NARROW MARGIN.

Geo. H. Starbuck of the South Side met with an accident, last Saturday, which came near putting an end to his earthly career. It seems that Mr. Starbuck was loading a revolver, and in placing the cylinder in place, after filling same with cartridges, used undue force. The weapon was discharged, the bullet leaving evidence of its flight on his nose and forehead, from both of which, however, it was deflected without causing any material injury.

CATHOLIC MISSION.

The mission to be given in the Catholic church, by the Jesuit Fathers, Coghlan and Berberich, will open, on next Tuesday evening, at 7 o'clock, M. T., and close on Easter Sunday morning. If the non-Catholic people of McCook think there is anything to be gained by hearing the great truths of religion discussed in the light of scripture and reason they are invited to attend this mission. THOMAS CULLEN, Pastor.

RETURNED THEIR CHARTERS.

This week, the brotherhoods of locomotive engineers and firemen at this place returned their charters and other effects of the orders to headquarters and disbanded the local divisions,—there being no further present occasion for organization in this city.

A NUT SOCIAL.

We were requested to announce a nut social, next Thursday evening, at residence of J. F. Ganschow, by the ladies of the M. F. church. There will be an interesting programme in connection.

The winter styles for cloaks have only been slightly remodeled for the spring. A pretty idea is the green velvet cloak, fur-trimmed, so dear to their owners and so becoming to blondes and brunettes. Add about the shoulders of your green cloak a cape, short on the shoulders and hanging in a point to the waist at back and front. Down the front where the two bands of black fur originally ran let in a rather broad band of silk, satin, velvet, what you will, provided it's of light color and embroidered in trailing spring roses and vines, so and you are a charming herald of the spring season.
