W. E. Robinson of San Diego, Cal., S. A. Osborne of Denver, Colo., took an active part in the convention's deliberations, Thursday. Both are practical irrigation men.

L. Morse of Benkelman, was one of the most level-headed men in the convention. He is now actively engaged in pushing through one of Dundy county's irrigation enterprises.

#### NOTES FROM THE NORTH EAST.

Our people are very much interested in the subject of irrigation.

Every man who can is getting all the wood he can to work up, on shares or otherwise.

Mrs. Blackfan is sending us small contributions, as a result of her soliciting in Illinois.

Dry Creek folks are very much pleased with the term of school just closed, with Miss Mand Daniels as teacher.

Revs. Carmichael and Taylor are distributing an extensive quantity of relief clothing of a better quality than is generally sent out.

The officers of Dry Creek Grange, No. 23, were duly installed, last week, by state deputy Isaac Vandervort. The grange is advancing in many respects.

The generous public may be interested to know that the children as well as the older people, in these rural districts, are now situated to go to church since their wardrobes have been reinforced by kind donations.

Rev. Carmichael, of Bartley, is conducting a very interesting series of meetings at the Dry Creek church. His sermons are fraught with kind admonitions and earnest appeals. He is a man of superior ability. Rev. J. M. Mann assisted him last Sunday and preached pathetic sermons both morning and evening. Rev. Grisel preached Saturday evening. He is always welcome at his old charge.

#### BANKSVILLE BUDGET.

The snow is disappearing causing much unpleasantness.

The citizens of Grant precinct held a meeting on the 27th and considered the situation and necessities of said precinct.

A series of meetings are being held at the Dodge school house, in Gerver precinct.

R. S. Allan, S. M. Seranton, Andrew Anderson and Cain were helping fix Mrs. Hill's pump and a part of the pump got away from them and went to the bottom of the well, but they fished it out again. OBSERVER.

A railroad train of fifteen cars would be required to convey the food and nourishment which a man blessed with a moderate appetite consumes from the time of his birth to the day when he attains the age of three score years and ten.
