"German Syrup"

G. Gloger, Druggist, Watertown, Wis. This is the opinion of a man who keeps a drug store, sells all medicines, comes in direct contact with the patients and their families, and knows better than anyone else how remedies sell, and what true merit they have. He hears of all the failures and successes, and can therefore judge: "I know of no medicine for Coughs, Sore Throat, or Hoarseness that had done such effective work in my family as Boschee's German Syrup. Last winter a lady called Hoarseness, at my store, who was suffering from a very severe cold. She could hardly talk, and I told her about German Syrup and that a few doses would give relief; but she had no confidence in patent medicines. I told her to take a bottle, and if the results were not satisfactory I would make no charge for it. A few days after she called and paid for it, saying that she would never be without it in future as a few doses had given her relief."

Forecast of Congress.

WASHINGTON, Feb. 23.—Only eight days remain of the fifty first congress, and from now until March 4 the proceedings of both branches will probably be marked by haste. The chief effort in both houses will be to secure early and complete action on the appropriation bills, of which but two, the army and fortification, have yet become laws. It is expected the senate will devote its time during the week mainly to appropriation bills, beginning with the sundry civil bill tomorrow and following with the legislative and Indian appropriation bill. The Nicaragua canal bill is unfinished business in this category, and following it are the pure food bill and the Conger land bill, the army reorganization bill, the interstate commerce bill, the bankruptcy bill, the land court bill, the bill to transfer the revenue of the marine service to the navy, and the Pacific railroad funding bill.

The house adjourned in bad temper, and its mood on reassembling will have considerable effect on the course of legislation during the week. The post-office appropriation bill is not yet out of the committee of the whole and the consideration of the agricultural and deficiency bills had not begun. The conference reports on the other appropriation bills will also consume part of the time during the week.

In addition to these measures there are the copyright, appellate court and Indian reorganization bills which passed both houses, but need to be advanced through the conference stage of legislation before they can go upon the statute books.

The report of the Raum investigation committee and the recommendation of impeachment in the case of Judge Boardman are matters of high privilege on which the action of the house is desired. It has thus been seen that the house has a large amount of work to accomplish.

The silver bill is not included in the schedule of business arranged by the majority.

The silver men expect to make one more effort to compel a vote on the silver bill, although in order to do so it will be necessary to make some motion commonly regarded as not within the purview of rules or parliamentary practice.

Mr. Windom's Successor.

WASHINGTON, Feb. 23.—Charles Foster of Ohio will be secretary of the treasury. His nomination went to the senate Saturday. Being so satisfactory received, prompt confirmation was a foregone conclusion. It is not known that ex-Governor Foster has a personal enemy in the world. He is universally popular wherever known, and there are few men in the country who have so wide a personal acquaintance. On every tongue at the capitol last night was heard the acclamation, "Foster is a gentleman, and as an officer he will be accessible to the public and he will tell the truth." To those who have business before the treasury department this means a great deal. One of the strongest elements in the character of the late Secretary Windom was his accessibility, his frankness and honesty, his truthfulness of speech and his straightforwardness. Charles Foster is personally much the same man. His politics will be those of his immediate predecessors and those of President Harrison, yet his administration will not be without individuality, for Foster is a strong man in every way.

Gen. Sherman's Funeral.

St. Louis, Feb. 23.—St. Louis Saturday bade an impressive farewell to General Sherman. For the first time in several days the sun shone out gloriously, but its rays fell upon the city draped in mourning. The hearts of the people were saddened, and with one accord all manner of men abandoned their earthly pursuits and assembled along the line of the funeral procession to do homage to the honored dead. It was a soldier's funeral—the funeral of a general—but not alone of one whose last journey was attended with all the honors due his rank, but of an officer beloved by the army and honored by the people. For miles the streets were lined with a solid wall of people standing at least a dozen deep. The city was draped in mourning. The grief of those in the procession was genuine, but apparent to everyone. The dead general's comrades of Ransom post marched in hollow squares about the caisson. Every face wore that solemn look which said too plainly for words: "I have lost a friend." Following the caisson was a handful of the survivors of the old Thirteenth infantry, Sherman's first command in war, a small and grief-stricken body of men following their old leader over the road which they, too, must travel at no very far distant day.

Ford's Last Hope.

OTTAWA, Ill., Feb. 23.—Charlie Ford, the chief actor in the murder of David Moore, the Omaha traveling man in Allen park, in June last, saw his last hope fade away when Judge Stipp overruled the motion for a new trial and practically left him to the gallows. His attorneys have said that the case will not be appealed to the supreme court, but that the verdict of the jury will be allowed to stand so far as they would be concerned.

Society and Wall Street.

Wall street's intimate relationship with society has often been denied. But the recent developments socially have shown that the dependency of one upon the other is almost complete. The enormous depression of values down town and the animated and erratic condition of the market resulted in the abandonment of literally scores of dinner parties and the postponement of many entertainments in that portion of New York which has its center on Murray Hill. Now that things are quiet again in Wall street, the theatres are beginning to fill up, the restaurants are crowded, and there are numberless announcements of new parties and dances.—New York Sun.

The Parent of Insomnia.

The parent of insomnia or wakefulness is in nine cases out of ten a dyspeptic stomach. Good digestion gives sound sleep, indigestion interferes with it. The brain and stomach sympathize. One of the prominent symptoms of a weak state of the gastric organs is a disturbance of the great nerve center, the brain. Investigate the stomach, and you restore equilibrium to the great center. A most reliable medicine for the purpose is Hostetter's Stomach Bitters, which is far preferable to mineral sedatives and powerful narcotics which, though they may for a time exert a soporific influence upon the brain, soon cease to act, and invariably injure the tone of the stomach. The Bitters, on the contrary, restore activity to the operations of that important organ, and their beneficent influence is reflected in sound sleep and a tranquil state of the nervous system. A wholesome impetus is likewise given to the action of the liver and bowels by its use.

A Girl Worth Having.

After reading Mr. Gray's experience in the plating business, I sent \$5 to W. H. Griffith & Co., Zanesville, Ohio, for a Plater, and cleared \$30 in a week. Isn't this pretty good for a girl? The Electrical Map.

An instructive scientific toy sold in Paris consists of a map with metallic plugs inserted to mark the chief towns. Questions at the sides of the map ask what are the chief towns of the different departments, and also have a metallic plug for each. A small electric belt and a dry pile are provided. The child puts one end of the conducting wire over any question plug and moves the other end over the two plugs until the bell rings, when the town is correctly indicated.

Influenza's Cradle.

Professor Tessier of the medical faculty of Lyons finds influenza to be a growth of Russian soil, and a smouldering maldy when not a raging one. The winter life of the people in close heated houses, the bad drainage of the level soil, the universally sodden condition during the April thaw and the filthiness of the farm yards, streets and rivers, all tend to make this the home of influenza. The microbe of the disease, in fact, exists in the putrid mud left by the river floods.

PRICKLY ASH BITTERS

One of the most important organs of the human body is the LIVER. When it fails to properly perform its functions the entire system becomes deranged. THE BRAIN, KIDNEYS, STOMACH, BOWELS, all refuse to perform their work. DYSPEPSIA, CONSTIPATION, RHEUMATISM, KIDNEY DISEASE, etc., are the results, unless something is done to assist Nature in throwing off the impurities caused by the inaction of a TORPID LIVER. This assistance so necessary will be found in

Prickly Ash Bitters!

It acts directly on the LIVER, STOMACH and KIDNEYS, and by its mild and cathartic effect and general tonic qualities restores these organs to a sound, healthy condition, and cures all diseases arising from these causes. IT PURIFIES THE BLOOD, tones up the system, and restores perfect health. If your druggist does not keep it ask him to order it for you. Send 2c stamp for copy of "THE HORSE TRAINER," published by us.

There's a good deal of guarantee business in the store keeping of to-day. It's too excessive. Or too reluctant. Half the time it means nothing. Words—only words.

This offer to refund the money, or to pay a reward, is made under the hope that you won't want your money back, and that you won't claim the reward. Of course.

So, whoever is honest in making it, and works—not on his own reputation alone, but through the local dealer whom you know, must have something he has faith in back of the guarantee. The business wouldn't stand a year without it.
