An excursion train will be run up the Frenchman branch to Wauneta Sunday, leaving McCook at 7 o'clock, mountain time, in the morning and arriving back here at a convenient hour in the evening. This will accommodate persons attending the circus, from up the valley, and will be taken advantage of by some of our citizens, who will picnic at the falls.

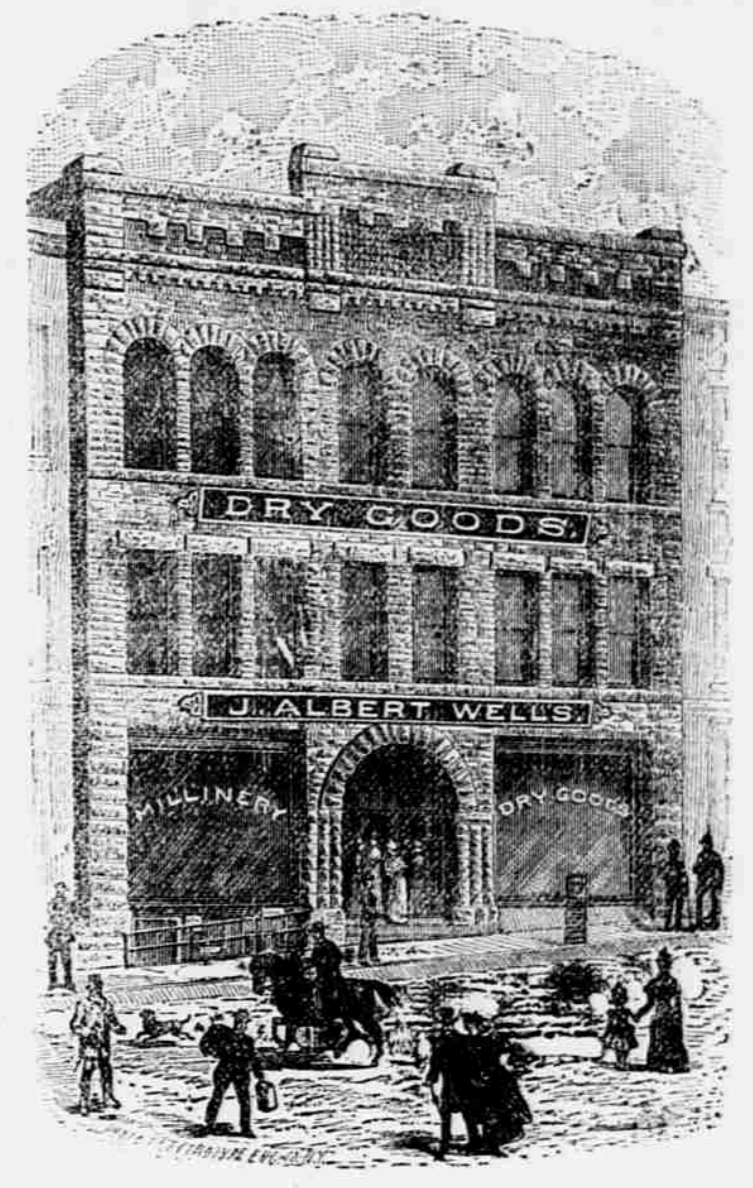

The Burlington road has donated \$5,000 to the widow of C. G. Wilson, who lost his life in the service of the company as superintendent of its Iowa lines. This act of generosity will be applauded heartily by railroad men, as well as the public, and it is to be hoped the company will exhibit equal generosity toward the widows of section men, switchmen and trainmen whose husbands may lose their lives in its service.

Now we have the Pueblo & Duluth railroad again! One of our citizens is in receipt of a letter from the officials of the above-named road saying that the officers of the company would visit this county within 10 days to see what support Culbertson and the people on the route would give the road. More than \$100,000 have been voted in aid of this line between the Platte and Sioux City, and we are credibly informed that if Gosper and Hitchcock counties, together with the country southwest, will now come to the front and assist in this work, that the grading will be in operation in a few months at least. Looking at it from our standpoint, we can say that Culbertson will donate liberally towards this great enterprise, and we have no doubt but that Blackwood, Logan and Driftwood precincts will do their share. We want a competing line of railroad, and now that an opportunity offers, we believe that our citizens will offer as liberal inducements to secure it as those upon any other contemplated route. Put us down as being in favor of the road.—Culbertson Republican.

In one respect the New York Tribune is on the right way. It says: "The cause of good roads goes marching on. There is no politics in it, consequently when people get tired of discussing the presidential canvass in all of the sharp disagreements which that exercise implies they can get together and relieve the strain, republicans, democrats, and the rest, on the good road issue."
