### ALWAYS A REASON WHY.

This has been a year of wonderful growth for The Lincoln State Journal. Its aggressive methods have pushed it to the front. One thing that accounts for this is The Journal's principles. It is republican, true and blue, but first of all it is a great newspaper and considers news the most essential part. It prints more state telegraph news than either of the Omaha papers. The business interests of the state recognize in The Journal the only state paper which is standing up for the welfare of Nebraska. You can see how The Journal is growing in yearling towns. It is gaining in every other town in the state just as much. The reduced price is only 50 cents per month without Sunday, or 65 cents per month with Sunday. This also accounts for the big growth. The Semi-Weekly Journal has the largest circulation of any Nebraska paper. It has completely routed its old once-a-week rivals. It is being sent from now until January 1st, 1896, for \$1.00. This carries readers through the coming legislature and through the next presidential campaign. It gives readers two complete papers each week for the price of one. Gov. Furnas is farm editor and L. L. Lyman poultry editor. It is published at The State Capital and is a paper for Nebraskans.

### ORDER TO CREDITORS.

And it is further ordered that a copy of this order be published in THE TRIBUNE, a weekly newspaper published in said county, for three weeks, beginning October 10th, 1894. Dated this 15th day of October, 1894. CHARLES W. BECK, County Judge.

Western railway managers have begun sending teachers along their lines examining trainmen as to their fitness for their work. The examiners travel in a caboose and hold school wherever they find employes. The examiners of conductors and engineers cover a great deal of ground. Those of the firemen and brakemen are not quite so extended, their responsibilities being lighter. A general understanding of the rules of the road is absolutely necessary to success. The men have been talking of the examination for weeks, and a good many of them fear the ordeal. The brakemen and firemen are asked general rule questions and are given the tests of sight, hearing and color. A blank form is filled out at the end of each examination and submitted to the railroad company. If a man passes he is given a certificate, the stub end of which goes to his immediate superior. The form calls for a report in hearing, acuteness of vision, range of vision, field of vision, color sense, time table, train rules, train orders, lamp, hand, whistle and bell cord signals, rules for flagging and rules for air brakes.

Last Wednesday, at 3 o'clock p. m., at the residence of Thomas Kralick on Miner's ranch, occurred the marriage of Mr. Edward Byrer of McCook, and Miss Elizabeth Slaby of this city. It was a very pretty wedding, and was solemnized by the Rev. Geo. Hummel in the presence of a few immediate relatives and friends. It was also an unostentatious affair, but the dinner served was most elaborate, and the newly married couple were the recipients of many handsome and valuable presents. Mr. Byrer is unknown here, but holds a lucrative and responsible position with the B. & M. at McCook. He is said to be a young man of refined habits and sterling qualities, and highly esteemed by all who know him. Miss Slaby is a sister of Mrs. Tony Clark of this city, and Mrs. V. H. Holliday, formerly of this place but now of McCook. She is possessed with grace and beauty, and has always sustained the purest character, and enjoyed the profound esteem of a large circle of friends. The young people will make their home in McCook. The Chief felicitates the newly wedded pair, and wishes them a life of perennial happiness.—Red Cloud Chief.
