SUPPLY and demand are not the only factors in the price of cattle or in the meat market—or in any thing else for all that.

A TERRIBLE cyclone devastated the country near Halstead, Kans., Wednesday, killing six persons outright, injuring many and doing immense damage.

THE Woman's edition of the Omaha Bee on May Day was one of the finest newspaper productions the west has seen in many moons, a credit to the intellect and energy of the women as well as a monument to the enterprise of the publishers.

THE Benkelman Bee has been merged into the Benkelman News. This gives Dundu county but one newspaper, but Haskins can fill the bill quite acceptably. Editor Snider will go to Colorado, where he contemplates engaging in the business again if he can find a suitable location. This merging business could be followed with splendid and desirable results all over the state, especially the western part.

SECRETARY MORTON seeks to let the people get even with the beef trust by authorizing the importation of Mexican cattle into this country. Extensive plans to that end are now being completed by wealthy easterners, it is stated in the daily press. In this connection it is stated under oath by an agent of one of the big packers that the packers have been doing business at a loss for two or three years—such abominable chaff.

THE great Tammany-Platt combine in the Albany legislature was broken the other day by Governor Morton, who called the republican end of the organization into the executive chamber, and read the riot act to them. The republicans then passed the reform bills for the city of New York and the weeping and wailing of Tammany can be heard across the continent. These bills enable the mayor of New York to discharge a large number of Tammany hold-overs and begin business with new books.—Journal.

THE fact that the commissioners of Red Willow county have contracted with an illegal newspaper to do the county printing, this year, is destined to give the county no little annoyance and possible litigation and expense. The case in point emphasizes the fact that the question of cheapness alone should not govern the county commissioners in their decisions when the important question of securing a reliable official county newspaper is involved. The new law which became effective April 5th requires that newspapers for the publication of all legal notices must have been published 52 consecutive weeks and have a circulation of 200. The present official paper does not comply with the law, and consequently any legal notices published in that sheet after April 5th and until 52 consecutive publications have been completed since its last lapse a few months since, ARE ABSOLUTELY VOID. The county commissioners and the public will do well to act accordingly.
