THE SENATE AGGRESSIVE.

Mr. Lodge Brings Up the Monroe Doctrine

and Mr. Call the Cubau Trouble. WASHINGTON, Dec. 4 .- The Senate galleries were again well filled to-day but there was not the struggle for places incident to the opening. The floral offerings continued to come in, Mr. Burrows' friends sending a great cluster of yellow chrysanthemums to him. After the opening routine Mr. Pruden, the President's executive

clerk, presented the annual message. The reading was listened to with marked attention. There was noticeable interest on the Republican side in the reference to the Waller case. When the Behring sea claims were reached, Mr. Morgan, who had been conspicuous in opposing the claims, smiled at the announcement that a new treaty had been made, and leaned forward for an animated whispered conference with Mr. Gray. The treatment of the British-Venezuela question also received marked attention. The statement of the status of the Cuban conflict was specially interesting as it gave the first official utterance on the subject.

As soon as the reading was completed, Mr. Lodge of Massachusetts introduced a resolution forcibly approving of the Monroe doctrine, and Mr. Call of Florida a resolution directing that the insurgents of Cuba be recognized as belligerents.

The senate then went into executive session and confirmed the nominations of Richard Olney as secretary of state and Judson Harmon as atttorney general and at 3 o'clock adjourned until to-morrow, shutting off debate from several senators who were primed with speeches on Cuba and Venezuela. Mr. Stewart introduced the usual free silver bill.

LAX DIVORCE LAWS.

England Repudiates Decrees Granted in Oklahoma Courts.

WICHITA, Kan., Dec. 4.-Her Maiesty's empire has taken issue with Oklahama over the divorce laws of the latter Territory, according to a dispatch from Oklahoma City. Recently Peter Neilson, a wealthy English gentleman, came from London to Oklahoma, and at the end of ninety days made application for a divorce from his wife, Edith Neilson. The papers in the case were served on the defendant by means of a registered letter sent to her address in London. She consulted the legal department of the English government on the subject, with the result that Her Majesty's government held that the divorce laws of Oklahoma would not be respected in the Queen's dominion. An elaborate opinion on the matter was forwarded to the judge of the trial court in Oklahoma, replete with blue ribbons and gilt seals. As a great many wealthy English people have secured divorces in Oklahoma, the position taken by the English government is important to them.

A WAR OVER SEEDS.

SECRETARY MORTON STIRS UP THE CONGRESSMEN.

A Circular Defending His Course in Refusing to Make Gratuitous Distribution to Constituents of Members Iusued .-Mr. Pickler and Other Members Stirred Up Over the Matter.

A Lively Contest.

WASHINGTON, Dec. 9 .- Acting under an opinion rendered last summer by Attorney General Olney, Secretary of Agriculture Morton has practically done away with the time-honored systom of seed gratuities to the public through members of Congress. He rejected all bids made for furnishing seeds to the public and in October last practically abolished the seed division of the department. Since them members of both houses have been planning to take action to compel him to carry out the law according to their interpretation of it, which was made plain in the course of a long debate by the last House.

In anticipation of a Congressional request for an explanation which was initiated by Mr. Baker of New Hampshire to-day the Secretary of Agriculture had printed a circular explaining his course which is being distributed to members. The circular quotes the Attorney General's opinion that the law contemplates the use of seeds rare and not common to this country, and also the Secretary's order closing the

seed division. It is not yet apparent what action, if any, will be taken by Congress to have its intentions in making the appropriation carried out, or whether any action is taken. Mr. Pickler of South Dakota is one of the members who thinks that the failure to distribute seeds has injured his constituents. To-day he called on Secretary Morton to discuss the matter, but did not receive any assurances which gave him hope that his quota of seeds would be forthcoming. He speaks very strongly of the Secretary's course, saying that the intent of the law was explicitly expressed in the debate which preceded its passage, and that the failure of the executive branch of the government to carry it out is

plainly illegal. Mr. Pickler and the other members holding the same views are somewhat at a loss, however, to provide any method of coercion by which they can compel the department to furnish seeds. They say that the next appropriation bill will contain a seed clause so ironelad that there will be no posments can escape them, but they struct an apparatus that will, on the greatly fear that this year's seeds are verified report of three members apnot to be secured.

Secretary Morton has been very plain in his statements to members. He says he believes that the seed distribution is an unconstitutional form of paternalism, and does not intend to himself.

The American Federation of Labor.

NEW YORK, Dec. 9 .- Preparations are almost complete for the fifteenth annual convention of the American Federation of Labor, which will open next Monday and continue for perhaps ten days. The session will be held in the Assembly hall of the Madison Square garden. About 130 regular delegates are expected, but the number of labor leaders and other interested persons who will attend without having the right to vote will swell the number considerably, and it is expected that this convention will be larger than any previous meeting of the organization. During the last year the membership of the order has increased about 100,000 by the accession of several national trade organizations and 130 delegates will represent about \$00,000 members.

Mayor Strong will deliver the address of welcome. There will also be addresses on the opening day by J. W. Sullivan, author of "The Initiative and Referendum," and Professor Felix Adler. Among the other well known persons who are expected to address the convention are Mayor Pingree of Detroit, John Swinton, James R. Buchanan and others prominent in the labor movement and otherwise. England will be represented by two fraternal delegates, J. Cowey of the Miners' union, and James Mawdsley of the textile workers.

The eight hour day will be the prinsipal subject of discussion at the meeting. The question will be brought up by a set of resolutions which will be introduced by ex-President Compers in his capacity of delegate from the Cigar Makers Union, and the discussion will be chiefly on ways and means for bringing about the desired result.

BUSINESS REVIEW.

The Market Somewhat Gorged on Account of Excessive Buying.

NEW YORK, Dec. 9.-R. G. Dun & Co's weekly review of trade, says: Business is still sluggish, as if gorged by excessive indulgence of appetite for buying when prices were advancing. In nearly every branch stocks, not yet distributed to consumers, stand in the way of new orders and competition of a producing force, largely exceeding the present demand, puts down prices, that retard declining purchases yet more. After the holidays men look for a larger demand. For the present the springs of new business is running low, but enough is doing on old orders to keep most of the works employed in part and a good proportion fully. Financial influences have not hindered and rarely has the opening of a session of Congress affected business so little.

Wheat has advanced about a cent for the week, though Western receipts have been 7,014,911 bushels, against 3,727,788 last year, and Atlantic exports (flour included), again exceed last year's, 2,326,096, against 1,887,737 bushels. The best Western estimates of the crop have been raised
