The still used tomany and received a reply in three day was a very small one, there being only forty feet of pipe in the coil. The liquor obtained with only one distillation was of a light milky color and was said by Mathews to be more like rum than any other spirits. It had the general smell and appearance of raw spirits and had no vegetable taste. Both Mr. Mathews and Mr. Peterson are of the opinion that by running it through a larger still and by redistillation the highest grade of alcohol can be obtained. The beets used in today's test were of 8 per cent sugar content. The purity coefficient was not determined. Mr. Peterson says that beets of as low a grade as 1 per cent sugar can be used, but of course the larger the sugar content the better the re-

sults obtained. The cost of the spirit, he claims, is much less than that made from other substances and he does not think that for the manufacture of the raw spirits an extensive plant is necessary. Those posted on the manufacture of spirits are of the opinion that a high grade of alcohol can be made from the juice and that a large additional demand for beets will thus be made.

The juice used today was extracted from the beets by pressure and the salts and albumoids removed yesterday. It only fermented about twelve hours. Tomorrow Peterson will experiment with some syrup he has obtained from the Utah beet sugar factory and

from which sugar cannot be made. The experiments have been conducted with a view to obtaining alcohol, and all present are of the opinion that they were a success. W. C. T. U. WOMEN ORGANIZE TO SECURE GOOD HUSBANDS.

NAPLES PLAN ADOPTED.

Ladies of Virginia Take the Lead in Movement That Has For Its Principal Chject the Securing of Temperate and Industrious Husbands For Girls Wishing to Marry.

Nonrolk, Va., March 16 .- The women of the W. C. T. U. of Portsmouth will organize shortly the "Naples Matrimonial Society." They think that the organization of this society in this city will be followed by the organization of similar societies throughout the country by the W. C. T. U. and that they eventually will take the place of the various matrimonial bureans now in operation in some of the northern cities

In Naples girls 11 years old and over assemble once every year in one of the churches of that city, and the unmarried men, who so desire, go there and choose wives. The proposed society will carry out a similar arrangement here, except that the girls who desire to assemble in a church to be thus chosen will have to register with the society three months ahead of the date, that the society may satisfy itcharacter, and the men who are to apply at the church on these occasions register three months prior to the date of choosing, that the society may investigate their characters for the purpose of ascertaining if they are industrious and temperate. Only men who have these qualities will be allowed to choose a wife. Those who register will be informed fifteen days in advance of their standing. Men will be required to pay a registration fee of \$1, but girls will be allowed to register free. The intended brides will probably be required to wear white instead of black, as in Naples. The principal object of the society is to afford girls who desire to marry

an opportunity to secure temperate and industrious husbands.

Colonel Nicot Returns From Chicago New York and Sails for Europe. NEW YORK, March 16. - Colonel Alexander Nicol, the special representative States, sailed for England on the Lucania to day. The colonel arrived from the West yesterday afternoon and was scheduled to speak at the big meeting in Fourteenth street to-morrow. At the national headquarters nothing could be ascertained as to the nature of the colonel's leavetaking. It was said, however, that Commissioner Eva Booth. Commissioner Carleton and Colonel Eadie were busily engaged with Colonel Nicol during the greater part of the night. It is stated that Colonel Nicol found the affairs of the army in the eneighborhood of Chicago to be in a turbulent condition; that the London office had been so informed and that General Booth had decided to summon his special agent home that the exact situation might be made clear to him.

WASHINGTON, March 16 .- According to a report on the organized militia of the United States, which has just been prepared by the War department, the United States, in need, can put 9,467,694 men in the field. At the close of 1895, every State and territory, with the exception of Indian territory and Alaska, had an organized national guard. Total force of the militia numbers 115,669, of which 102,604 composed the infantry, 5,215 the cavalry, 5,267 the artillery, 649 the special corps, and there were 1,443 generals and staff officers. The total appropriation allowed the militia amounted to \$400,000. while the states during the same period spent \$2,834,976 on these organizations. It is estimated that the mobilization of the militia could be effected in the different states and terrritories in from three hours in the District of Columbia to seventy-two hours in Oregon, other state brganizations assembling between these two points.

New York is far in the lead of the number of men enlisted in the national guard, its strength amounting to 12,901 officers and men. Pennsylvania is second with 8,482, Ohio third with 6,403, Illinois fourth with 6,220 Missouri eighteenth with 2,107 and Kansas twenty-second with 1,815. Oklahoma ends the list with 153.

THE ITALIAN CRISIS

IT SEEMS NEARING AN AMICA-BLE SOLUTION.

The Trouble, It is Claimed, Has Strength ened Dreibund and Increased the Good Will of Great Britain-A Meeting of Emperors and a King-Will Arrange Their Policies.

Europe Breathes Easier.

ROME. March ! 4. - Out of the storm of popular anger which spread over Italy when the news of the defeat of the army under General Baratieri in Abyssinia reached here, a feeling of great resentment toward the Italian commander is all that remains. Rioting has ceased. The Reservists who fled from the country rather than go to Africa at the call of the government for the class of 1872, are returning, and it is not believed any steps will be taken to punish them. Negotiations with Kink Menelik have been opened, so it is anticipated that peace will be concluded before long, and the war office has countermanded the instructions sent to various points for the hurrying forward of reinforcements to Africa. The new cabinet is at work and the financial situation is brighter than anticipated.

Conferences which have taken place here between the Marquis di Rudini, the new premier, the Duke of Sermoneta and King Humbert, and the constant exchange of telegraphic messages between this city and Berlin, have been coincident with the meetings in Berlin of the Austrian minister of foreign affairs. Count Goluchowski, the German foreign minister, Baron Marschall von Bieberstein, the Italian ambassador to Germany, Count Lanza di Busca, and the imperial chancellor, Prince Hobenlohe. supplemented by audiences with Emperor William.

Out of these exchanges of views has grown a much healthier state of affairs for all Europe. An Italian loan, it is stated, could not have been floated in London and the half-pledged support of Great Britain to the dreibund, a support hitherto involving little else than an irritating uncertainty is rumored to have developed into a much more cordial and solid understanding with the powers forming the dreibund. Both Emperor Francis Joseph and Emperor William have striven to relieve the strain here, and now comes the report that Emperor William of Germany, Emperor Francis Joseph of Austria, and King Humbert will meet at Genoa in a few days and that a series of brilliant fetes will bund, which is intended to demonstrate to all whom it may concern that Italy, instead of being friendless, upon the verge of bankruptcy and en- and exhibit. cumbered by a tottering throne, is strong in the earnest support of Germany and Austria and will be backed by Great Britain in any great emer-

Finally, it is stated that before the emperors meet at Genoa, Emperor Francis Joseph will have succeeded in reconciling Queen Victoria with her imperial grandson, and so the peace of Europe, it is hoped, will be further cemented and the possibility of a European war will be driven further to the background.

All messages from Africa tend to confirm the most alarming reports as to the extent of the disaster at Adowah. and although the official figures have not yet been made public it is admitted that over 12,000 men were willed, wounded, or made prisoners. It is believed that the loss of Abyssinians was almost as great. The Abyssinians captured almost all the Italian artillery, ammunition and supplies.

General Baratieri, however, repeats that the disaster, though unavoidable under the circumstances, was not due to any desire to strike a big blow before the arrival from Italy of his suceessor, General Baldissera. He claims that the plan of battle was carefully mapped out between himself and his generals, that all the latter approved it, and that it would have succeeded had it not been for the fact that the native troops under the Italian flag became panic stricken and so brought about the complete defeat of the

Italian forces. Disinterested judges still hold that the real cause of the defeat of the Italians is to be found in the almost unceasing clamor of certain newspaprospect that Ballington Booth may pers of this city and other parts of tiations are now under way looking to | eral Baratieria. EASTER FOR A HOLIDAY.

A Kansas Man Petitions for Ita Recog-

nition. WASHINGTON, March 1. - Hugh Cameron of Lawrence, Kan., by proxy held the Senate's interest this afternoon with a degree of appreciation and amusement not often exhibited. Senator Peffer presented a petition from Mr. Cameron and although the rules of the Sena'e require that such matters shall be read by title only, this petition excited an interest which could be satiated only by reading in extenso.

The petition runs: "To the Congress of the United States of America: Your petitioner, the undersigned, respectfully asks your honoroable bodies to make the 5th of April a national holiday, it being the day on which the King of the Jews, whom Pontius Pilate caused to be crucified April 3, A. D. 35, achieved his splendid victory over the grave.

"This King of the Jews has always been a true friend of the United States of America. He was with Washington and his compatriots during their great struggle for independence, and was also with the Union army through the entire war to maintain that independence with union and liberty.

"Unquestionably this King has done more to establish and maintain free government on this continent and to make the United States of America a respectable nation than any other king; and so we as individuals and as a nation ought not to be ashamed with frankness and alacrity to acknowledge that we owe Him a debt of gratitude which we will never be fully able to liquidate.

"For all these and many other obvious reasons, the undersigned hopes that your honorable bodies will, without delay, make resurrection day a national holiday, for which we will continually pray.'

The resolution went to the committee on judiciary.
