## A MESSAGE ON CUBA

PRESIDENT URGES RELIEF FOR AMERICANS ON THE ISLAND.

Message Says Nearly 800 Are in Need and Recommends an Appropriation of \$50,000-Senate Indorses the Plan, but It Is Sidetracked in the House.

President's Mssage on Cuba. The president sent a special Cuban message to congress Monday which deals with the destitation of the Americans on the Island. He says:

To the senate and house of representatives of the United States: Official information from our consuls in Cuba establishes the fact that a large number of American citizens in the island are in a state of destitution and are suffering for food and medicines. This applies particularly to the rural districts of the central and eastern parts. The agricultural classes have been forced from their farms into the nearest towns, where they are without work or money. The local authorities of the towns, however kindly disposed, are unable to relieve the needs of their own people and are altogether powerless to help our citizens.

The latest report of Consul General Lee estimtaes that there are 600 to 800 Americans without means of support. I assured him that provisions will be made at once to relieve them. To that end I recommend that congress make an appropriation of not less than \$50,000, to be immediately available, for use under the direction of the secretary of state. It is desirable that part of the sum which may be appropriated by congress should be in the discretion of the secretary of state to be used for the transportation of American citizens who, desiring to return to the United States, are without means to do so.

WILLIAM MCKINLEY. The senate committee on foreign relations decided in furtherance of the plan suggested in the president's message, of far superior, and called on the senate to the terms of which it was informed in ad- impeach Vest on the allegation that he is vance, to report a resolution appropriating \$50,000 for the relief of American citizens in Cuba. As soon as the message was read in the senate the committee reported the resolution, and it was at once passed

without division In the house Mr. Hitt of Illinois asked immediate consideration of a bill appropriating \$50,000 for the relief of destitute Americans in Cuba, but Mr. Bailey of Texas said he must object unless an amendment embodying Senator Morgan's resolution for recognition of the insurgents he added. Mr. Dingley objected to the amendment, whereupon Bailey objected to the bill, and the Cuban question was side-

ANOTHER NOTE FROM POWERS

It Declares That Greece Shall Not

Be Crushed. Representatives of the powers in Constantinople have drawn up a note which will be presented to the Turkish government as soon as one of the ambassadors receives the necessary instructions from his government. This note does not deal with peace conditions, but merely repeats the request for an armistice, and declares the powers will not permit Greece to be crushed.

The tone of the military officials in Constantinople and elsewhere is most emphatically against abandoning Thessaly. They argue that if the European powers have been unable to make Greece evacuate Crete how will Europe be able to force Turkey out of Thessaly.
