APPEAL TO AMERICA

SPANISH SUBJECTS IN CUBA ASK AID OF US.

The Result of Butcher Weyler's War Policy-Is There to Crush the War, Not to Heed the Distress and Suffering of the Inhabitants.

They Cry for Food.

A New York Herald's Havana dispatch of June 7 says: A strange appeal on behalf of the starving and dying reconcentrados in Matanzas, who excited pity in the hearts of Lee and Calhoun, has been made to the people of the United States. Since the United States has begun measures for the relief of its citizens in Matanzas, the desperate plight of Cuban reconcentrados there has resulted in a petition signed by a hundred of them, in which they beg in the name of common humanity that they may be included in the charity. The petition is headed: "An appeal to the United States." It is now on its way to Washington. The principal part of it is as follows:

"For some time past we have been contemplating the idea of an appeal to your charitable feelings for relief, for those of our people who are bitterly suffering the consequences of a most inhuman way of waging war. We have witnessed day after day scenes of horror which no language can describe, and yet no voice can be lifted in protest against them. To Spain we cannot apply for succor. But what are we to expect from Spain when her worthy representative here (Weyler) is indifferent, cold and deaf to our misery, and coolly says his mission in Cuba is not to look after the starving population, but simply to end the war according to his own notions. He has converted into deserts sections of country where abundance once reigned. Upwards of 10,000 victims of this savage system of warfare have been crowded into Matanzas without providing for their most natural wants. Many a child perishes in the streets, unable to stand so many and such long continued privations. As for us, we cannot do our work openly. We have to beg for food for the hungry and clothes for the naked, concealing ourselves and our names as if we were doing something wrong, and we therefore suggest that if any relief is to come it should be intrusted to the American consuls for distribution.

The report says: "In our opinion the welfare of the institution, and that is all we desire, demands that whatever executive action shall be taken in the matter shall be taken by you and not by us." Then, after a long review of the case, using 3,000 words to recite what has already been before the public, the board finally sums up the matter as follows:

"Our conclusion upon the whole case is that he has repeatedly violated the law, almost without exception disobeyed the orders of the board, held its power and control over the institute in contempt and that the best interests of the public service demand that he be removed as superintendent."

The report is signed by all the members of the board.

DEATH WATCH IS PUT ON.

Supreme Court Decides that George Morgan Must Hang.

The supreme court of Nebraska has decided that George Morgan, the convicted murderer of little Ida Gaskill at Omaha, must pay the death penalty for one of the most henious crimes ever committed within the state, and has fixed October 8 as the day upon which he must hang.

The finding of the lower court was affirmed at the sitting of the supreme court June 2 and Sheriff McDonald was notified of that action by telephone. Soon afterward Deputy Sheriff Stryker and Jailer George Shand notified Morgan of the action of the court. The condemned man took the matter very coolly, smiling in a self-possessed manner, as he remarked: "Well, that is not the last chance, anyway." In this remark he had reference to a motion for a further hearing which his attorneys intend filing in the

We further find that the careless use of said instrument was caused by his intoxicated and debilitated condition, caused by drinking to excess and exposure. We find that the liquor that caused his intoxication and debility was furnished to or obtained by him in the saloon of Guy A. Laing, where he remained for a period of
