Objects of the Arkansas Valley Sugar Beet, Irrigation Land Co. in Which W. S. Pardonner is Interested.

The New York Commercial of May 4 has the following to say of the Arkansas Valley Sugar Beet, Irrigation Land company, of which W. S. Pardonner is president and general manager :

"W. S. Pardonner is vice-president and general manager of the Oxnard Construction Co., of No. 32 Nassau street. This company practically controls the new corporation, the purchase of the Colorado territory having been arranged through it.

"Although the Arkansas Vailey Co. and the American Beet Sugar Co. are closely related, the former will operate on dependent lines. The American Co. has contracted to purchase the product of the Colorado concern until the factories which it proposes to construct are ready for operation.

"W. S. Pardonner, who has just returned from Colorado, said today that the company had taken over the property of the Amity Land Co. and the Great Plains Water Co., which consists of about 125,000 acres of land, including a large reservoir system, which is claimed to be one of the most complete of its kind in the country.

The land is especially adapted for the cultivation of sugar beets, cantaloups, alfalfa, fruits, etc. The company contemplates expending hundreds of thousands of dollars in the development of the property, erection of houses, etc., to provide for settlers who are already flocking to that locality.

"The Arkansas Valley Co. is backed by strong financial interests and proposes to push the beet sugar industry of this country for all there is in it. Plans have been prepared for the erection of three factories which will give employment to upward of 1,500 people.

"The company expects to acquire additional territory as the work of development progresses. Those identified with the enterprise are confident that the company will eventually become one of the largest concerns of its kind in the world, and that its production will go a long way toward supplying the ever increasing demand for sugar. Agents of the company are already at work on the colonization of the land with farmers who are acquainted with the cultivation of sugar beets. The Oxnard Construction Co. makes a specialty of constructing sugar factories. It has built practically all the factories of the American Sugar Refining Co.

"The American company is paying out large sums of money in improvements, additions, etc. About \$200,000 is being expended on an addition to the Oxnard, Cal., plant; \$50,000 on the Chino, Cal., plant; and \$75,000 on the Rockyford, Col., plant. The sugar beet capacity of the various factories of the concern at the present time follow: Oxnard, Cal., 2,200 tons; Chino, Cal., 850 tons; Rockyford, Col., 1,100 tons; Norfolk, Neb., 350 tons, and Grand Island, Neb., 350 tons."

A spirit of improvement is on in Norfolk, the like of which has not been shown for several years. Business blocks and residences are being repainted and otherwise repaired. Old sidewalks are being replaced with new ones; lawns and gardens, streets and alleys are receiving more and better care than heretofore and the city is rapidly assuming an air of cleanliness, prosperity and stability that is pleasing to note. At this rate Norfolk will in a short time be the handsomest city of its size in the entire west. A Neat Swindling Scheme That Fleeced Bucket Shop Patrons. "If the real inside workings of the average bucket shop were laid bare," said a telegraph operator who has had much experience in such establishments, "the revelation would open the famous promontory known as Table eyes of the young donkeys who imagine ther can beat the game. Business was a little slow. and it was evident that the speculative element was inclined to be suspiclous of both establishments. One day the manager of one of the concerns hunted up a young fellow who had and majesty. Then when I felt how more money than brains and, handing near to my Creator I was standing the him \$50, asked him, as a special favor, first effect and the enduring one, instant to go over to the other house and make wolf scalps. Last year he brought in such and such a play. If I did they'd get suspicious right away.'

that he had struck a bonanza-one bucket shop man playing against another! It must be a sure thing! So he not only placed the \$50 as requested. but played the tip hard himself, and so did all his friends, whom he promptly 'Raisin chickens.' Den he looked at let into the secret. Needless to say, they were all eventually skinned out of every cent they put in, but the remarkable part of the story is that the same tactics were worked back and forth by both managers on at least a dozen different occasions. Each time it was done they gathered in a lot of new clients and made a big haul. It developed not long afterward that the two bucket shops were run by the same people."-New Orleans Times-Democrat.

Black Coats. An English clergyman, rather pompous of manner, according to Spare Moments, was fond of chatting with a witty chimney sweep.

Once, when the minister returned from his summer holidays, he happened to meet his youthful acquaintance, who seemed to have been at work. "Where have you been?" asked the

clergyman. "Sweeping the chimneys at the vicarage," was the boy's answer. "How many chimneys are there, and

how much do you get for each?" was The sweep said there were 20 chimneys and that he was paid a shilling

apiece. The clergyman, after thinking a moment, looked at the sweep in apparent astonishment. "You have earned a great deal of money in a little time," he remarked solemnly, wondering, probably, what the sooty fellow would

Table Rock.

At the present time but little of the Rock projects over the Niagara falls. It is at this point that the finest front view of the falls is obtained. Originally a great mass of rock overhung the cataract, but in 1850 a huge section of the ledge "Some time ago there were two rival 200 feet in length and 100 feet thick carrying with it an omnibus that was

standing there. Dickens wrote as follows of the view from Table Rock: "It was not until I came on Table Rock and looked-great heavens!-on what a fall of bright green water that it came upon me in its might and lasting, of the tremendous spectacle was peace. Niagara was at once stamped upon my heart, an image of beauty, to remain there changeless and indelible until its pulses cease to beat forever."

An Insinuation.

"I simply had to do it," said Mr. Erastus Pinkly in an apologetic tone. I had to draw my razzer so's to hol up my character."

"Did he slander you behind your back?"

"No, suh; 'twas to my face. He axed me what business I was in, an I says, me solemn an says, 'You doesn' mean "raisin," you means "liftin." ' "-Washington Star.

Every woman loves to think of the time when a soft little body, all her own, will nestle in her bosom, fully satisfying the yearning which lies in the heart of every good woman. But yet there is a black cloud hovering about the pretty picture in her mind which fills her with terror. The dread of childbirth takes away much of the joy of motherhood. And yet it need not be so.
