

--right now you have need of what may be called outing clothes, recreation clothes; negligee clothes--things to wear when it is so very hot--call them by any name you like, and let the occasion for wearing them be whatever it is--vacationing, summer resorting, motoring--at the country club or the beach--you never go anywhere that you don't care how you look.

--here are summer clothes made to wear anywhere; and if you wear them you don't need to think how you look--its worth all you pay for a suit from "Armstrong's" to have that comfortable sense of being well dressed.

--we want you to know what we've provided for you in the way of hot-weather wearables. If you think it's just what any clothing store offers you, come in and see how mistaken you are.
